Investment strategy

The Sub-Fund will mainly invest in equity and equity related securities (including convertible bonds) issued by companies worldwide which are involved in the natural resources sector and in structured products (as described in the prospectus) linked to the performance of the abovementioned securities. This includes companies whose main business is amongst others to produce, extract, refine, market natural resources, such as but not limited to: energy, mining or agroalimentary sectors. The choice of investments will neither be limited by geographical area (including emerging markets), nor in terms of currencies in which investments will be denominated. Investment goal

This Sub-Fund aims to provide long-term capital appreciation, primarily through investment in a portfolio of worldwide equity securities relating to natural resources.
