## Swisscanto (LU) Equity Fund Sustainable Emerging Markets DT / LU0338548117 / A0NDYD / Swisscanto AM Int.

## Investment strategy

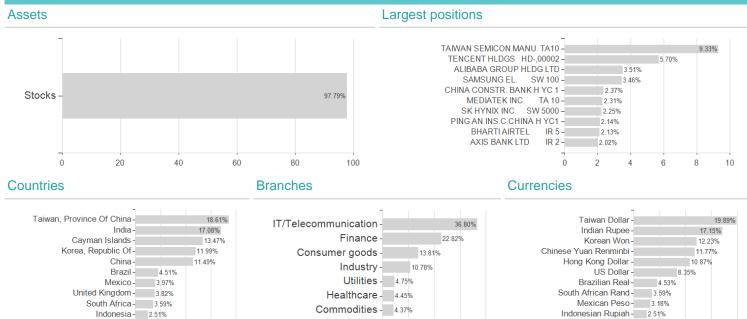

The securities are selected on a discretionary basis using a consistent investment process (active management). With regard to portfolio composition, the selection of stocks and the associated weightings are focused on companies from the MSCI® Emerging Markets Index TR Net. The portfolio composition may deviate considerably from this benchmark index. The investment policy is to outperform the benchmark index. The Asset Manager may at any time deviate - significantly or insignificantly, positively or negatively - from the benchmark index by actively overweighting or underweighting individual securities and sectors based on market conditions and risk assessments.

#### Investment goal

The investment objective is to generate long-term capital growth by investing in the shares of emerging market companies that are compatible with the Sustainable approach. The fund invests at least two thirds of its assets in equity securities of companies whose registered office or predominant business activities are in emerging markets. At least 90% of the investments are selected by systematically taking into account ESG criteria in accordance with sustainability requirements, which contributes positively to fulfilling the UN SDGs. The fund is classified under Art. 9 SFDR.
