2 The Mountain-View Data Fund Rating calculates a computative ranking for funds using yield, volatility and trend data. For more information visit MVD Funds Rating
3 Displays the Ethical-Dynamical Ratio calculated according to standard criteria. The maximum value is 100. For more information visit EDA

Franklin Templeton Global Funds plc FTGF ClearBridge US Appreciation Fund Klasse A USD DIS (A) / IE00B19ZB219

Investment strategy

The Fund will invest at least 70% of its net asset value in equity securities of US companies, which are listed or traded on regulated markets in the United States listed in the Prospectus. The Fund's investments will include common stocks, preferred stocks and equity related securities. The investment manager will look for investments among a strong core of growth and value stocks, consisting mainly of blue-chip companies dominant in their industries. The Fund will invest in companies that the portfolio managers believe are undervalued and/or have the potential for solid growth. The Fund will mostly invest in shares of companies that are medium and large sized. The Fund may also invest in debt securities of US and non-US issuers, mortgage-backed or asset-backed securities. The Fund may invest in derivatives (financial instruments whose value is derived from the value of other assets), to help try to achieve the Fund's objective as well as to reduce risk or cost or to generate additional growth or income for the Fund.

The Fund's investment objective is to generate long-term capital appreciation.
