CT European Bond Fund Institutional Gross Accumulation EUR / GB00B3T70242 / A1JFGU / Threadneedle Inv. S.

Investment strategy

The Fund usually selects bonds that are investment grade, but may include some bonds with a lower credit rating in the portfolio if this is considered appropriate, as well as bonds denominated in non-European currencies. The Fund may also invest in other assets such as cash and deposits, and hold other funds (including funds managed by Columbia Threadneedle companies) when deemed appropriate. The Fund is not permitted to invest in derivatives for investment purposes, but derivatives may be used with the aim of reducing risk or managing the Fund more efficiently. Derivatives are sophisticated investment instruments linked to the rise and fall of the price of other assets.

Investment goal

The Fund aims to provide income with the prospect of some investment growth over the long term. It looks to outperform the ICE BofA Pan-Europe Broad Market Index over rolling 3-year periods, after the deduction of charges. The Fund is actively managed, and invests at least two-thirds of its assets in bonds issued by governments, quasi-government entities and companies (corporate bonds) that are denominated in a European currency.
