Schroder International Selection Fund Global Dividend Maximiser A1 Accumulation USD / LU0308882272 / A0MWXQ /

Investment strategy

The fund is actively managed and invests at least two thirds of its assets (excluding cash) in equities or equity related securities worldwide, which are selected for their income and capital growth potential. To enhance the yield of the fund the investment manager selectively sells short dated call options over individual securities held by the fund, generating extra income by agreeing strike prices above which potential capital growth is sold. The fund may invest directly in China B-Shares and China H-Shares and may invest up to 10% of its assets (on a net basis) directly or indirectly (for example via participatory notes) in China A-Shares through Shanghai- Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect and shares listed on the STAR Board and the ChiNext.

Investment goal

The fund aims to deliver an income of 7% per year by investing in equities of companies worldwide. This is not guaranteed and could change depending on market conditions.
