**SPDR S&P Euro Dividend Aristocrats UCITS ETF (Dist) / IE00B5M1WJ87 / A1JT1B / State Street Gl. Ad.**

**Investment strategy**

The Fund invests primarily in securities included in the Index. These securities include high-yielding Eurozone stocks. Securities must satisfy diversification, stability and trading requirements and are then weighted according to the size of their dividend. Although the Index is generally well diversified, to enable the Fund to track the Index accurately, the Fund will make use of the increased diversification limits available under the UCITS Regulations, which permit it to hold positions in individual constituents of the Index issued by the same body of up to 20% of the Fund's net asset value. The Fund seeks to hold all the securities of the Index with the approximate weightings as in that Index. The Fund will use a replication strategy to create a near mirror-image of the Index. In limited circumstances the Fund may purchase securities that are not included in the Index.

**Investment goal**

The objective of the Fund is to track the performance of certain equity securities issued by companies from within the Eurozone paying high dividends. The Fund seeks to track the performance of the S&P Euro High Yield Dividend Aristocrats Index (the "Index") as closely as possible. The Fund is an index tracking fund (also known as a passively managed fund).
