COMGEST GR.EUROPE OPP.EUR R ACC / IE00BD5HXJ66 / A1W565 / Comgest Growth

Investment strategy

While the Fund will primarily invest in shares and other securities related to shares, it may invest in investment-grade debt securities issued or guaranteed by a government of a European country, where it is deemed in the best interest of the investors. The Fund may invest in units of other UCITS and collective investment schemes, including other sub-funds of Comgest Growth plc. The Fund is actively managed. This means that the Fund manager applies a detailed fundamental analysis in order to selectively pick companies in a discretionary manner. The Fund is not managed relative to a benchmark index, however, the performance of the Fund is compared to the performance of the MSCI Europe (Net Return) Index for comparative and information purposes only.

Investment goal

The objective of the Fund is to increase the value of the Fund (capital appreciation) over the long term through investment in high-quality, long-term growth companies. Growth companies are those companies that can sustain above-average earnings growth for an extended period of time. The Fund intends to achieve this objective through investment in a portfolio of "Opportunities" companies, headquartered or carrying out their predominant activity in Europe, which seek to deliver above-average quality earnings growth and are attractively valued. Such companies may have shorter track records and earnings than more established growth companies and may have a higher risk profile.
