Amundi Euro C.Bd.Ex Fina.ESG UCITS ETF / LU1829218822 / LYX0Z3 / Amundi Luxembourg

Investment strategy

The Benchmark Index is representative of the performance of investment grade corporate bonds denominated in Euros issued by non-financial entities meeting Environmental, Social and Governance (ESG") criteria, based on an ESG rating. The ESG rating methodology is based on ESG key issues including but not limited to water stress, carbon emissions, labor management or business ethics. The Benchmark Index uses a "Best-in-class" approach that permits the reduction by at least 20% of the Eligible Universe (expressed in number of issuers). Limits of the methodology of the Benchmark Index are described in the prospectus of the Fund through risk factors, such as the market risk linked to controversies and the risks linked to ESG methodologies and to ESG score computation. The Benchmark Index is a total return index. A total return index calculates the performance of the index constituents on the basis that any coupons or distributions are included in the index returns. The Fund seeks to achieve its objective via a direct replication, by investing primarily in the securities comprising the Benchmark Index. To optimize the Benchmark Index replication, the Fund may use a sampling replication strategy, and may also engaged in securities lending transactions.

Investment goal

The Fund is an index-tracking UCITS passively managed. The investment objective of the Fund is to track both the upward and downward evolution of the Bloomberg Barclays MSCI EUR Corporate Liquid ex Financial SRI Sustainable Index (the "Benchmark Index") denominated in Euro, while minimizing the difference between the return of the Fund and the return of the Benchmark Index. The anticipated level of Tracking Error in normal market conditions is indicated in the prospectus.
