**JSS Sustainab.Eq.Tech Disrupt.P EUR dis / LU1752456852 / A2JM80 / J.S.Sarasin Fd.M. LU**

**Investment strategy**

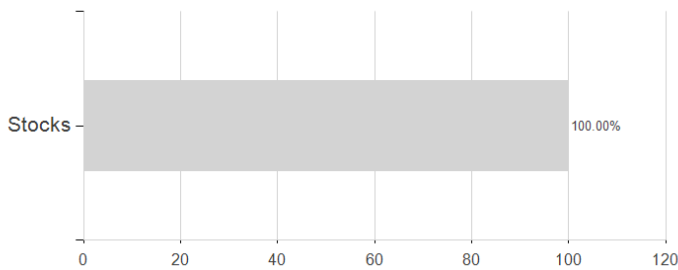

The Fund is actively managed without replicating any benchmark. The Fund is managed without reference to any benchmark. The assets of the Fund are mainly invested worldwide either directly (min. 67%) or indirectly in equity securities that offer an exposure to emerging and transformational technological trends. The concept differentiates between technology enablers (information technology firms) and technology adopters (non-IT, first movers in respective industries, that are disrupting existing business by implementing technological advances faster than others). Investments are made across sectors and market capitalizations and without any restriction as to the issuer's domicile. This also includes investments in the emerging markets. Emerging markets generally mean the markets of countries which are in the process of becoming modern industrial markets and therefore show higher potential, but also carry a higher risk.

**Investment goal**

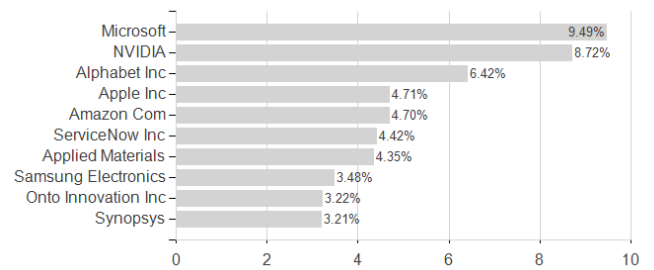

The Fund integrates environmental, social and governance aspects (ESG) along the investment process with the aim to reduce controversial exposures, align the portfolio with international norms, mitigate sustainability risks, harness opportunities emanating from ESG trends as well as to get a better-informed perspective of portfolio holdings. The Fund seeks to mitigate risks and harness opportunities that derive from megatrends in sustainability (such as resource scarcity, demographic transition, climate change, accountability etc.). To this effect, the Fund systematically excludes issuers exposed to controversial activities as detailed by the "JSS standard exclusions" as described in chapter 3.1 of the Fund's prospectus. More than 90% of the Fund's assets must have a JSS ESG Rating. The Fund invests at least 75% of assets in securities using a best-in-class ESG approach.
