Investment strategy

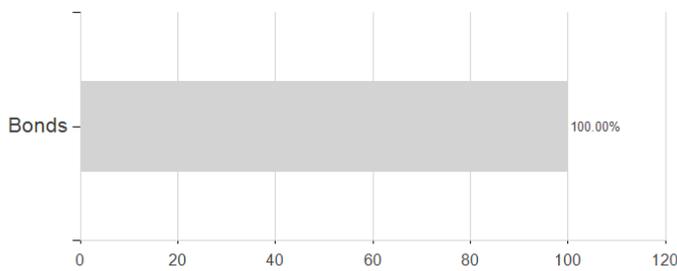

The Sub-Fund invests at least 70% of its net assets in fixed or floating rate debt securities, including zero bonds, with a non-investment grade rating, issued or guaranteed by government, public, private and public-private borrowers. The Sub-Fund promotes environmental and social characteristics according to SFDR Art. 8, but does not have a sustainable investment objective according to SFDR Art. 9. For further information of the Sub-Fund under the SFDR, investors are referred to the SCHEDULE V "SFDR Disclosures". The Sub-Fund is actively managed without replicating any benchmark. However, the Sub-Fund is managed with reference to ICE BofA Global High Yield Index USD hedged (the "Benchmark"). Generally, the majority of the positions within the Sub-Fund are constituents of the Benchmark. In order to exploit specific investment opportunities the Investment Manager may discretionarily select securities not included in the Benchmark. In addition, the Investment Manager integrates sustainability aspects which lead to an exclusion of investable Benchmark components. The holdings and their weightings in the Sub-Fund's portfolio will diverge from the weightings of the securities included in the Benchmark therefore the Sub-Fund's returns may deviate from the performance of the Benchmark.

Investment goal

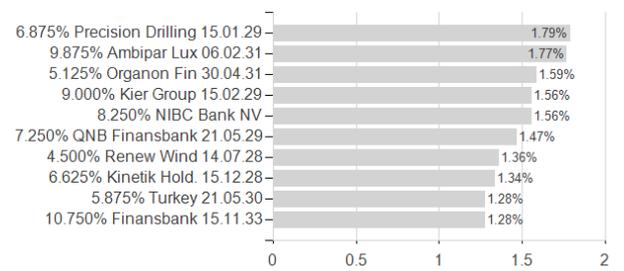

The investment objective of JSS Sustainable Bond - Global High Yield (the Sub-Fund) is to achieve the highest possible return by investing in high yield bonds from sustainable issuers.
