### Investment goal

Raiffeisen-EuroPlus-Bonds is mainly invested in bonds denominated in EUR or other European (and Eastern European) currencies. The fund is actively managed, with the entire maturity curve taken into consideration. As Raiffeisen-EuroPlus-Bond invests mainly in bonds, the value of the units can be affected especially by interest rate and exchange rate fluctuations. This fund is particularly suitable for investors who wish to take advantage of additional bond diversification as an alternative to a direct investment.
