L&G Euro Corporate Bond Fund R EUR Accumulation / LU0984223825 / A2H62K / LGIM Managers (EU)

Investment strategy

The Investment Manager has broad discretion over the composition of the Fund's portfolio, will not be tied to investing in the constituents of any index and will use its discretion with regards to selecting the companies, sectors, and geographical exposure of the Fund's holdings. The Benchmark Index is used for performance comparison purposes and does not constrain the Fund's portfolio construction. The degree to which the composition of the Fund's portfolio may deviate from the Benchmark Index will vary over time. The Fund's performance may be meaningfully different from that of the Benchmark Index. In addition to maintaining a lower weighted average carbon intensity profile than the Benchmark Index, the Fund promotes a range of environmental and social characteristics by: (i) Excluding investments in bonds issued by companies in the LGIM Future World Protection List ("FWPL") and (ii) Excluding companies from the Fund which do not meet the Manager's "Climate Impact Pledge", in order to encourage strong governance and sustainable strategies. The Fund will invest at least 70% of its assets in debt which has been rated by a recognised rating agency as investment grade (that is, rated BBB- or above by Standard & Poor's or Fitch or Baa3 or above by Moody's). The Fund may also invest in unrated bonds whose creditworthiness is, in the opinion of the Investment Manager, of comparable quality to other bonds eligible for investment by the Fund. It may also invest in debt rated as sub-investment grade (rated as higher risk).

Investment goal

The objective of the Fund is to provide long term return consisting of a combination of capital growth and income. The Fund aims to deliver this objective while maintaining a lower weighted average carbon intensity than the Benchmark Index. The Fund is actively managed and seeks to achieve this objective by investing at least 80% of its assets in a variety of Euro denominated fixed interest instruments such as corporate bonds, other fixed or floating-rate debt securities and short term debt securities. These may include asset-backed securities such as mortgage-backed securities (residential & commercial), convertible securities and contingent convertible debt securities. The Fund is managed with reference to the Markit iBoxx Euro Corporates Total Return Index, the "Benchmark Index".
