## Investment strategy

The strategy integrates sustainability criteria as part of the stock selection process and through a theme-specific sustainability assessment. The portfolio is built on the basis of an eligible investment universe that includes companies with higher gender scores based on an internally developed gender score methodology. This comprises various criteria, such as board diversity, equal renumeration, talent management and employee well-being. The fund's objective is to achieve a better return than the index. The fund promotes E&S (i.e. Environmental and Social) characteristics within the meaning of Article 8 of the European Sustainable Finance Disclosure Regulation, integrates sustainability risks in the investment process and applies Robeco's Good Governance policy. The fund applies sustainability indicators, including but not limited to, normative, activity-based and region-based exclusions, proxy voting and engagement. The fund aims to advance societal impact by investing in companies that consciously recognize and promote gender equality by recruiting, nurturing and retaining female talent.

### Investment goa

Robeco Global Gender Equality is an actively managed fund that invests globally in companies that advance gender diversity and gender equality. The selection of these stocks is based on fundamental analysis.
