Investment strategy

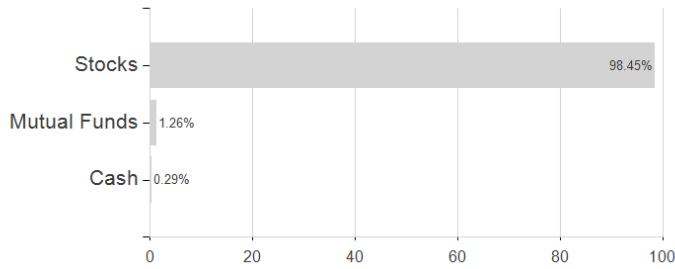

The fund invests at least 70% of its assets, in equities of companies from developed markets anywhere in the world. In actively managing the fund, the Investment Manager considers growth and valuation metrics, company financials, return on capital, cash flows and other measures, as well as company management, industry, economic conditions, and other factors. The Investment Manager takes into account Sustainability Risks in its investment process. For more information, see "Sustainable Investing and ESG Integration".

Investment goal

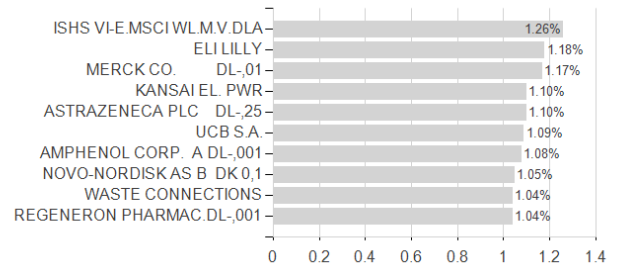

The fund aims to achieve capital growth over the long term, while seeking to maintain a volatility profile that is lower than that of its investment universe.
