Investment strategy

The subfund invests globally at least 80% of its assets in sustainable investments. The subfund may invest up to 10% of its assets in investments whose sustainability has not been verified. Similarly, up to 10% of its assets may be invested in investments that are not sustainable. Up to 10% of its assets may be invested in instruments that are not traded on a regulated market. The subfund may use derivatives for efficient portfolio management and for hedging purposes.

Investment goal

The subfund is managed actively and invests worldwide, mainly in convertible bonds and other convertible securities issued by government and corporate issuers. The investment objective of the subfund is capital growth of the investments. The subfund pursues a dynamic strategy. This strategy combines sustainability exclusion criteria with a "best-in-class" or "best-of-class" approach. Compared with a defensive strategy, a dynamic strategy accepts a higher risk and aims for a higher return accordingly.
