Investment strategy

The portfolio manager has discretion to construct the portfolio and is not bound by the benchmark in terms of equities and weighting. The investment fund is actively managed in relation to the benchmark MSCI AC Asia ex Japan (net div. reinvested). The benchmark is used for portfolio composition, performance comparison and risk management.

Investment goal

The actively managed investment fund invests primarily in equities of selected companies from Asia (excluding Japan). Based on sound analysis by our local investment specialists, the fund manager combines carefully selected equities of various companies from different countries and sectors with the aim of taking advantage of interesting return opportunities while keeping risks under control.
