FISCH Conv.Global Opportunistic Fd.VD / LU2320030815 / A2QRRJ / Universal-Inv. (LU)

Investment strategy

The subfund invests up to 10% of its assets in equities. Up to 10% of its assets may be invested in instruments that are not traded on a regulated market. The subfund may use derivatives for efficient portfolio management and for hedging purposes. The portfolio manager may, at their discretion, make investments for the subfund within the predetermined investment guidelines. The subfund uses the benchmark Refinitiv Global Focus Hedged CHF for performance comparison. A portion of the subfund's investments will correspond to the components of the benchmark. However, the portfolio manager may, at its discretion, invest in securities which are not included in the relevant benchmark. The risk and reward profile of the subfund is comparable to that of the benchmark.

Investment goal

The subfund is managed actively and invests worldwide, mainly in convertible bonds and other convertible securities issued by government and corporate issuers. The investment objective of the subfund is capital growth of the investments. The subfund pursues an opportunistic strategy. Compared with a defensive strategy, an opportunistic strategy accepts a higher risk and aims for a higher return accordingly.
