Aegon Absolute Return Bd.Fd.C GBP / IE00B6SLQ646 / A2AMF4 / Aegon AM

Investment strategy

The Fund has discretion in its choice of investments and is not restricted by market sector. It may also hold a limited range of other investments and it is not constrained by any benchmark or index. The Fund may use derivatives for investment purposes, to benefit from changes in the price of an underlying asset without actually owning it. The Fund may use investment techniques to manage risks and costs. These techniques include 'hedging' (using derivatives and other financial contracts to reduce the risk associated with: (i) making investments in other currencies, or (ii) interest rates changing). Up to 5% of the Fund may not be 'hedged' i.e. the Fund is exposed to the risks of investing in another currency for this portion. The Fund may hold substantial amounts of cash to implement investment techniques or meet its objective.

Investment goal

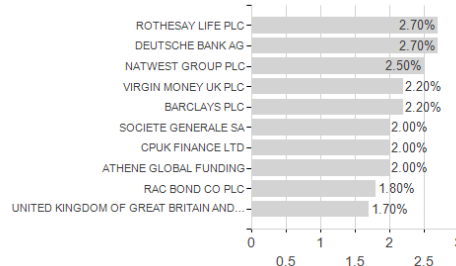

Is to generate positive absolute returns for investors over a rolling 3 year period irrespective of market conditions. Policy: invests worldwide in: - Investment grade (lower risk) and high yield (higher risk) bonds issued by companies and governments, - Derivatives (financial contracts whose value is linked to an underlying asset), - Cash, deposits and money market instruments (a form of debt security), and - Up to 20% in a combination of investments in emerging markets (those economies that are still developing) and high yield (higher risk) bonds. The Fund is actively managed.
