For further details regarding the ESG characteristics please refer to the prospectus and at the BlackRock website at www.blackrock.com/baselinescreens The Fixed income (FI) securities may be issued by governments, government agencies, companies and supranationals. At least 70% of the Fund's total assets will be investment grade (i.e. meet a specified level of credit worthiness) at the time of purchase. The remainder may include investments with a relatively low credit rating or which are unrated. The investment adviser (IA) may use financial derivative instruments (FDIs) (i.e. investments the prices of which are based on one or more underlying assets) for investment purposes in order to achieve the investment objective of the Fund, and/or to reduce risk within the Fund's portfolio, reduce investment costs and generate additional income. The Fund may, via FDIs, generate varying amounts of market leverage (i.e. where the Fund gains market exposure in excess of the value of its assets).
