Investment strategy

This fund aims to hold 100% direct exposure to China. The fund manager is willing to invest in small and mediumsized companies which have solid corporate fundamentals and sustainable earnings growth. In stocks in which a high level of confidence is held, the manager is willing to take large positions. The manager is benchmark aware, but overall stock weightings are driven solely by a bottom-up stock picking process.

Investment goal

The fund will primarily focus on China through investment in securities of Chinese companies listed in China and Hong Kong, as well as securities in non-Chinese companies which have a significant portion of their activities in China. The fund may invest its net assets directly in China A and B shares.
