**UBAM-Swiss Eq.ZC CHF / LU0940720187 / A2QN24 / UBP AM (EU)**

**Investment strategy**

The Environmental, Social and Governance (ESG) approach is embedded in the investment process of the sub fund and the selection of stocks include ESG considerations which can be an important driver for risks associated with an investment and for maintaining or improving Cash Flow Returns on Investment (CFROI® Credit Suisse HOLT) of a company. The qualitative sustainable analysis is partly based on inputs provided by MSCI ESG Research and on the Investment Manager's own analysis. The primary sustainable objective of the Fund is to promote a carbon footprint lower than the SPI (the "Benchmark"). The Investment Manager performs a negative screening and a norm-based screening to filter the investment universe. ESG related information is entering the suitability screen of the stock selection process. The portfolio construction will consider ESG criteria as well as the contribution to risk that arises from ESG exposures. Company specific and portfolio factors including ESG developments are considered when constructing and monitoring the portfolio.

**Investment goal**
