Investment strategy

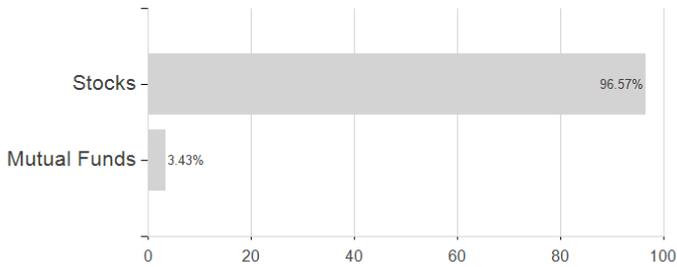

- Can use derivatives with the aim of risk or cost reduction or to generate additional capital or income in line with the fund's risk profile.
- The fund has discretion in its choices of investments within its objectives and policies.
- Income is reinvested in additional shares or paid to shareholders on request.
- Shares can usually be bought and sold each business day of the fund.
- This fund may not be appropriate for investors who plan to sell their shares in the fund within 5 years. Investment in the fund should be regarded as a long-term investment.

Investment goal

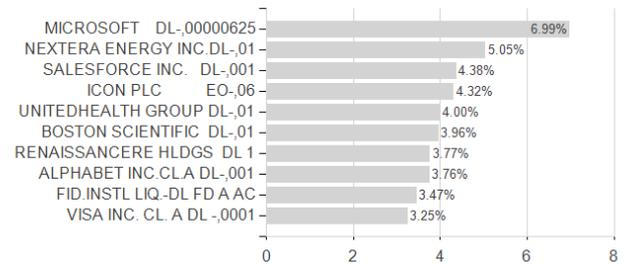

- Aims to provide long-term capital growth with the level of income expected to be low.
- At least 70% invested in the shares of US companies. The fund aims to be diversified in terms of sectors and market capitalisation, offering a core exposure to the US stock market.
- Has the freedom to invest outside the fund's principal geographies, market sectors, industries or asset classes.
