Pictet International Capital Management - Global Balanced 60 / LU0121249881 / PIC027 / FundPartner Sol.(EU)

Investment strategy

This portfolio will be composed mainly of equities and bonds of all types, money market instruments and structured products (as described in the prospectus) linked to the performance of the assets listed above. The "equity" portion, representing all direct and indirect investments (such as via UCIs, structured products) in equities and similar securities, will nevertheless never exceed 34% of net assets. Apart from the limit in the "equity" asset class, the allocation between the other asset classes is not limited and will vary according to market conditions and the Manager's choices. The choice of investments will not be limited to a geographical sector (i.e. the Sub-Fund may invest in emerging countries), to a particular sector of economic activity or to a given currency. However, depending on market conditions, investments may be focused on a single country or a reduced number of countries and/or a sector of economic activity and/or a currency. It should be noted that, depending on the Manager's strategic allocation, the Sub-Fund may at times invest a significant portion of its assets in emerging countries, including Russia.

Investment goal

The purpose of this Sub-Fund is to enable investors to benefit from the overall investment expertise of the Pictet Group by offering the opportunity to invest in a diversified global portfolio.
