Investment goal

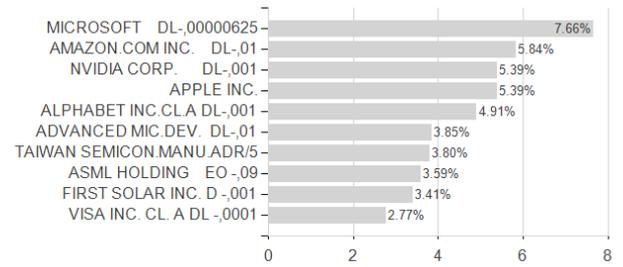

This compartment invests primarily in the shares of international companies involved in the technology sector. These may be companies involved in telecommunications, software, computer hardware and peripherals, Internet software and services, electronic services and equipment, IT consulting, semi-conductors, game equipment and technologies applied to and energy services and equipment. Management of this compartment follows a bottom-up approach that consists of selecting securities placing prime consideration on the characteristics specific to each security. The securities are selected based on the classification of securities in the international technology sector. The manager's role is to build a diversified portfolio based on shares presenting an attractive risk/yield ratio. This compartment may, as opportunity presents and on an ancillary basis, invest in other financial instruments.
