2 The Mountain-View Data Fund Rating calculates a comparative ranking for funds using yield, volatility and trend data. For more information visit [MVD Funds Rating](#)

### Investment strategy

The fund gains exposure, directly or through other funds, to equities and bonds. The fund generally expects to place relatively equal emphasis on equities and bonds. The fund only invests in underlying funds where similar ESG-related processes, criteria and characteristics are applied or can be found. The fund may gain exposure to any credit quality, sector and country, including emerging markets. Specifically, the fund's default asset allocation is 50% in equities and 50% in bonds, but this may be adjusted depending on the investment manager's market outlook.

### Investment goal

The objective of this fund is to achieve above-market performance, while applying a balanced asset allocation strategy. The share class is accumulating.
