Investment strategy

The Fund is a global fund insofar as its investments are not confined to or concentrated in any particular geographic region or market. The Fund's investments include, but are not limited to, shares of companies, bonds (which are loans that can pay a fixed or variable interest rated) issued by Governments, banks and international companies. The Fund may also invest in other Funds (including those managed by abrdn), money-market instruments, and cash.

Investment goal

The Fund aims to achieve a combination of growth and income by actively managing allocations in investments in a broad range of global assets. The Fund aims to exceed the return on cash deposits (as currently measured by a benchmark of Euro Short Term Rate ("ESTR")) by 5% per annum over rolling five year periods (before charges). There is however no certainty or promise that the Fund will achieve this level of return.
