**UI I - Monrusco Bolton US Equity Fund - Anteilklasse EUR I D Seed / LU2606334659 / A3EB0W / Universal-Inv. (LU)**

**Investment strategy**

High-conviction Quality GARP investment strategy anchored in fundamental, bottom-up analysis. We rely on independent thinking to build our investment theses for each holding. We seek to forecast inflection points, errors of perception and catalysts through a repeatable process that promotes consistency and sustainability of alpha in different market conditions. By running the portfolio to a beta of ~1, we seek to mitigate relative impacts from market movements. In addition, we measure and reduce relative deviations vs the benchmark with respect to sectors, in order to avoid unintended cluster risks. We aim to add value through idiosyncratic stock selection.

**Investment goal**

The sub-fund is actively managed. The fundamental investment objective of the sub-fund is to achieve long-term growth of capital through the investment of its assets mainly in the U.S. equity markets and considering ESG criteria.
