### Investment strategy

The Fund can invest in bonds (which may include inflation linked bonds) issued by governments, government agencies and supra-national agencies (such as the World Bank), irrespective of whether such bonds are included in the benchmark. The Fund can invest in currencies using contracts on the spot and forward market, such as forward currency contracts (contracts to buy or sell a currency at a specified future time at an agreed price). Investments made by the Fund may be of lower quality than investment grade (for example, emerging market investments).
