### a. Valuation of Investments

The value of cash in hand or on deposit, notes and bills payable on demand and accounts receivable, prepaid expenses, and dividends and interest announced or due but not yet paid, is constituted by the face value of these assets, unless it seems unlikely that this value can be achieved; in which case, the value is determined by deducting such amount as the SICAV considers appropriate in order to reflect the real value of these assets.

The value of units in undertakings for collective investment is determined according to the latest available net asset value.

The valuation of all securities listed on a stock exchange or any other regulated market which functions regularly, is recognised and accessible to the public, is based on the most recent price in Luxembourg on the calculation date and, if the securities concerned are traded on several markets, on the basis of the most recent price on the major market on which they are traded; if this price is not a true reflection, the valuation is based on the probable sale price estimated by the Board of Directors in a prudent and bona fide manner.

Securities not listed or traded on a stock market or any other regulated market, operating regularly, which is recognised and open to the public, are valued on the basis of their probable realisation value estimated regularly, prudently and in good faith by a qualified professional appointed for this purpose by the Board of Directors in agreement with the depositary bank.

Securities expressed in a currency other than the currency of expression of the Sub-fund concerned are converted on the basis of the exchange rate applicable on the valuation day.

In accordance with the prospectus, the net asset value has been calculated using the latest prices and exchange rates known at the time of calculation.

### b. Investment Income and Investment Transactions

Interest income is accrued daily. Investment transactions are accounted for on a trade date basis. Dividend income is recorded on the ex-dividend date, net of withholding tax. Investment gains and losses are determined on an average cost basis.

### c. Foreign currencies

The value of all assets and liabilities not expressed in the reference currency of a Sub-fund is converted into the reference currency of such Sub-funds at the rate of exchange ruling in Luxembourg on the relevant Valuation Day.

Transactions occurring during the period in currencies other than the base currency are translated at rates of exchange ruling at the transaction dates.

Financial Statements are presented for each of the Sub-funds in the base currency of the Sub-fund and the combined Statement of Net Assets and Statement of Operations and Changes in Net Assets are presented in Euro, based on the exchange rate ruling at the date of these financial statements.

The difference between opening net assets stated at exchange rates ruling at the beginning of the period and their value at the end of the period is shown as an exchange difference in the Statement of Operations and Changes in Net Assets.

Foreign exchange rates used in the preparation of these financial statements are the following:

$$\begin{aligned} \text{EUR} &= 0.858 \text{ GBP} \\ \text{EUR} &= 157.688 \text{ JPY} \\ \text{EUR} &= 1.091 \text{ USD} \end{aligned}$$

### d. Forward foreign exchange contracts

Forward foreign exchange contracts are over-the-counter contracts for delivery of currency in which the Sub-fund agrees to receive or deliver a fixed quantity of a foreign currency for an agreed price upon an agreed

## NOTES TO THE FINANCIAL STATEMENTS AS AT 30-06-2023

future date. The unrealised gain or loss on open forward foreign exchange contracts is calculated by reference to the difference between the contracted rate and the rate to close out the contract. Unrealised gains or losses are recorded in the Statement of Net Assets and their variations are recorded in the Statement of Operations and Changes in Net Assets.

### e. Futures contracts

Initial margin deposits on futures contracts are made upon entering into futures contracts and changes in the value of the contract are recognised as unrealised gains or losses by "marking-to-market" on a daily basis to reflect the market value of the contract.

The liquidating value of futures contracts traded on exchanges or on regulated markets shall be based upon the last available settlement prices of these contracts on exchanges and regulated markets, and/or other regulated markets on which the particular futures contracts are traded by the SICAV; provided that if a future contract could not be liquidated on the day with respect to which net assets are being determined, the basis for determining the liquidating value of such contract shall be such value as the Board of Directors may deem fair and reasonable. Unrealised gains and losses on futures contracts are included in the Statement of Operations and Changes in Net Assets.

### f. Future style options contracts

In the case of options on futures, no premium margin is required as a daily profit and loss adjustment (variation margin) is made by the procedure known as "marking-to-market". The profit of one party to the contract is the loss of the other party. The resulting gains and losses are either debited or credited to the appropriate account on a daily basis via the mark-to-market process. The final valuation is made at the final settlement price of either the expiration date of the option or the day on which it was exercised.

### g. Contracts for difference

Contracts for Difference are valued based on the closing market price of the underlying security, less any financing charges attributable to each contract. Upon entering into Contracts for Difference, the SICAV may be required to pledge to the broker an amount of cash and/or other assets equal to certain percentage of the contract amount ("initial margin").

Subsequently, payments known as "variation margin" are made or received by the SICAV periodically, depending on fluctuations in the value of the underlying security. During the period the contracts are open, changes in the values of the contracts are recognised as unrealised gains and losses by marking to market at each valuation date in order to reflect the value of the underlying security.

Realised gains or losses upon closure of the contract are equal to the difference between the value of the contract at the time it was opened including financial charges and the value at the time it was closed. Dividends received on underlying securities are recognised in income.

Dividends attributable to open Contracts for Difference are also included in the value of unrealized gain/(loss) at the end of the period.

Financing charges linked to CFD long positions are recorded under Other interest. Financing income linked to CFD short positions are recorded under Other income.

### h. Retrocession rebates

The Sub-fund receives a rebate where the Sub-fund has invested in other UCITS/UCI's with which the Sub-fund has a retrocession agreement in place.

Any such rebates receivable are credited to each Sub-fund's Statement of Operations and Changes in Net Assets on an accrual basis.

### i. Dividends

If approved by Shareholders at the annual general meeting, the SICAV will make a distribution to holders of Dividend Shares of each Sub-fund from its net investment income, realised and unrealised capital gains and from the capital of the Sub-fund within the limits of applicable law and regulations.

The Board of Directors may also decide, in the course of the financial year, to affect one or more interim dividend pay-out(s) in relation to any of the Sub-funds. The Board of Directors reserves the right to increase or decrease the frequency of the dividend payments at its discretion and to introduce a dividend policy which may vary from one Sub-fund to another.

## 5. Co-Management

In order to reduce operating and administrative expenses while enabling greater diversification of investments, the Board of Directors decided to co-manage some or all of the SICAV's assets with assets belonging to other undertakings for collective investment or to co-manage some or all of the Sub-funds' assets together.

Under co-management, the Investment Manager makes investment, disinvestment or portfolio adjustment decisions for the co-managed entities as a whole that will affect the SICAV's portfolio composition or the composition of the portfolios of its co-managed Sub-fund. Of the total co-managed assets, each co-managed entity owns a share of the co-managed assets corresponding to the proportion of its net assets in relation to the total value of the co-managed assets.

This proportional holding will be applied to each line of the portfolio held or acquired under co-management. In the case of investment and/or disinvestment decisions, these proportions will not be affected and the additional investments will be allocated to the co-managed entities in the same proportions, and assets sold will be deducted proportionally from the co-managed assets held by each co-managed entity.

For some securities and future contracts, a quantity of zero is disclosed in the statements of investments and other net assets and liabilities when the application of the allocation ratio on the co-managed assets leads to a quantity below 1 unit (fractional shares/ contracts).

Co-managed assets will only be co-managed with assets designed to be invested according to an identical investment objective applicable to that of the co-managed assets in such a way as to ensure that the investment decisions are fully compatible with the investment policy of the SICAV or its Sub-funds. As of today, the structure is only subject to intra-pooling and not to extra-pooling.

The co-managed assets will only be co-managed with assets for which the Depositary bank also acts as depositary so as to ensure that the Depositary bank can, with regard to the SICAV or its Sub-funds, fully exercise its functions and responsibilities in accordance with the provisions of the Law.

## 6. Taxation of the SICAV

The SICAV is not liable to any Luxembourg tax on profits or income, nor are distributions paid by the SICAV liable to any Luxembourg withholding tax. However, interest, dividends and other revenue received by the SICAV on its investments may be subject to non-recoverable withholding tax or other taxes in the countries of origin.

The only tax the SICAV is subject to in Luxembourg is the "Taxe d'Abonnement" at the rate of (i) 0.05% per annum of the NAV of Class A Shares, A2 Shares, A3 Shares, A4 Shares, B Shares, AH Shares, C Shares, CH Shares, D Shares, DH Shares, E Shares, N Shares, R Shares, R2 Shares, RH Shares, S Shares, S1 Shares, ABN AMRO Profilfonds A, ABN AMRO Profilfonds B, ABN AMRO Profilfonds C, ABN AMRO Profilfonds N nachhaltig, ABN AMRO Wealth Allocation of all Sub-funds except Class E Shares of Sub-fund AAF Portfolio High Quality Impact Bonds and (ii) 0.01% per annum of the NAV of Class E Shares, F Shares, FH Shares, G Shares, GH Shares, I Shares, I2 Shares, IH Shares, M Shares, X Shares, X1 Shares, X1H Shares, Z Shares of all Sub-funds. This tax is payable quarterly on the basis of the value of the aggregate net assets of the Sub-funds and their respective Class of Shares at the end of the relevant calendar quarter excluding the proportion of net assets of the SICAV, on the last day of each quarter, represented by units or shares held by the SICAV in Luxembourg based UCITS and UCIs on condition that they have already been subject to the "Taxe d'Abonnement" provided for by Luxembourg Law.

The SICAV is registered with the Financial Services and Markets Authority in Belgium. Funds registered for public distribution in Belgium are subject to an annual tax of 0.0925% on the net asset value of units distributed in Belgium via Belgian intermediaries as at 31 December of the previous year.

Each Sub-fund may be subject to corporation taxes in certain countries in which it invests. Capital gains realised when disposing of Indian securities held by a Sub-fund are subject to capital gains tax in India, which is disclosed in the "Statement of operations and changes in net assets" under the heading "realised results on investment". The tax is computed on net realised gains, and realised losses in excess of gains may under certain conditions be carried forward for up to 8 years to offset future gains. In this respect, short-term capital losses (i.e. when shares are held for less than 12 months) can offset either long-term or short-term capital gains whereas long-term capital losses may only offset long-term capital gains. Indian tax law imposes a tax of 15% on net realised gains from Indian securities sold within one year from the date of purchase and a tax of 10% if the Indian securities are sold more than 12 months after the acquisition. This tax of 10% on long-term capital gains realised on Indian securities has been introduced with effect from 1 April 2018.

## 7. Fees expensed by the SICAV

### a. Management fees

The Investment Manager is entitled to receive a management fee representing a rate per annum based on the net assets of each Sub-fund. For each Sub-fund and share class, the management fee rate is disclosed in the table below. The maximum level of management fee that may be charged to both the Sub-fund and the underlying investment funds in which it invests is 3%. The management fee is accrued daily.

A Sub-fund may acquire shares of one or more other Sub-funds of the SICAV (the target Sub-fund), provided that there shall be no duplication of management/subscription or repurchase fees between those at the level of the Sub-Fund having invested in the target Sub-Fund, and this target Sub-Fund.

### b. Performance fees

The Management Company is entitled to receive out of the assets of the Sub-funds and Share Classes listed below a performance fee representing a rate per annum at the end of financial period (the "Performance Fee") based on the difference between the performance of the Sub-fund and that of its benchmark.

The performance fee is equal to 20% of the difference between the Sub-fund's performance and the base NAV and the maximum of the High Watermark or of its Benchmark. The Performance Fee for each Sub-fund is only accrued on each day if the performance, based on the base NAV, of a Class of Shares exceeds the higher of the relevant Benchmark and, if applicable, the relevant High Watermark. In case of negative (relative) performance or declining positive (relative) performance any accrued performance fee shall be released in cases where such negative (relative) performance or declining (relative) performance occurs during a performance fee calculation period. Any performance fee accrued will be earned at the end of the calendar year.

Upon redemption, the part of the accrued performance fee corresponding to the number of units redeemed is crystallised and immediately payable to the Management Company.

No Performance fee was paid for the period ended 30 June 2023.

## NOTES TO THE FINANCIAL STATEMENTS AS AT 30-06-2023

### c. Other fees

Apart from the Management Fee and Performance Fee (if applicable), each Sub-fund is charged another fee (the "Other Fee") payable to ABN AMRO Investment Solutions to cover the administration, depositary and other ongoing operating and administrative services.

Fees calculated and deducted daily from the average net assets of a sub-fund, share category, or share class and serving to cover general custody assets expenses (remuneration of the Depositary) and daily administration expenses (NAV calculation, record and book keeping, notices to the shareholders, providing and printing the documents legally required for the shareholders and for the Luxembourg regulatory authorities, fees linked to the registration of the SICAV with a foreign local authority and to the maintenance of such registration, fees linked to the translation of the prospectus, KIID, and any other documents

legally required, KIID production fees, fees in relation to the production of factsheets, listing fees, domiciliation, auditors cost and fees...), except for brokerage fees, commissions for transactions not related to the Depositary, director fees, interest and bank fees, one-off expenses, and the Taxe d'abonnement in force in Luxembourg, as well as any other specific foreign tax.

The fixed Other Fee is defined at share class level for each of the Sub-funds and is accrued daily. For each Share Class of each Sub-fund, the characteristics and applicable rates of the fees mentioned in the paragraphs disclosed here-above can be summarized as below.

The End of the period Management fee rate corresponds to the rate as of 30 June 2023. Some shares classes have seen changes in the respective fee rate during the fiscal period 30 June 2023.
