What is this product?

Type

Multi-Asset Climate Opportunities Fund (the "Fund") is a Euro denominated sub-fund of a SICAV (société d'investissement à capital variable), abrdn SICAV II, incorporated in Luxembourg.

Term

abrdn SICAV II (the "Company") has no maturity date. The Fund and the Company may not be unilaterally terminated by abrdn Investments Luxembourg S.A.

Objective

The investment objective of the Fund is to generate growth over the long term (5 years or more) by investing in a diversified portfolio of equities and corporate bonds (loans to companies) issued by companies whose core business enables the transition to a sustainable low carbon economy. To achieve that objective, a key determinant of inclusion will be those activities identified by the EU Taxonomy as Sustainable Activities. The Fund aims to contribute to the long-term goals of the Paris Agreement by investing only in companies that derive substantial revenues from products and services that enable the global transition to a sustainable zero carbon economy. The Fund is actively managed and its holdings are not selected with reference to a benchmark index nor does it aim to outperform any benchmark. The performance of the Fund (before charges) can be compared over the long term (5 years or more) against the Morningstar Moderate Allocation Global Sector Average (EUR) return due to a similar expected performance profile. Due to the Multi Asset Climate Opportunities Investment Approach, the Fund's performance may deviate significantly from that of the Morningstar Moderate Allocation Global Sector in the short term.

Portfolio Securities

- The Fund invests 90% of its assets in bonds and equities.
- The Fund will invest between 40% and 65% in global equities (including emerging markets), which include listed renewable energy infrastructure investment trusts.
- Other investments include corporate bonds of any maturity, issued anywhere in the world and other UCITS and/or UCI (including those managed by abrdn), money-market instruments, and cash.
- All investments in bonds and equity will adhere to the abrdn Multi-Asset Climate Opportunities Investment Approach (the "Investment Approach") available on www.abrdn.com under 'Fund Centre'.
- Financial derivative instruments, money market instruments and cash are exempt from the approach.
- The Fund may invest up to 15% of its net assets in Mainland China securities, directly through the Shanghai-Hong Kong and Shenzhen-Hong Kong Stock Connect programme, China Interbank Bond Market, Bond Connect or by any other available means.
- The Fund will not invest in contingent convertible, asset backed securities and /or mortgage backed securities.
- The Fund will not invest in any securities that are rated below B- Standard & Poor's or equivalent at the date of investment. In the event that any securities held by the Fund are subsequently downgraded below the above mentioned ratings, the Investment Manager may maintain a maximum total exposure of 3% of the Fund's net asset value to such downgraded securities but will divest any such security that has not been upgraded to a rating of at least B- within 6 months of its downgrade.

Management Process

- Individual holdings will be selected primarily by using positive screening criteria that identify companies whose core business is to offer products and services that enable mitigation of climate change and other forms of environmental harm. Examples of relevant products and services include renewable energy (wind turbines, solar panels), electric vehicles and battery technologies, energy efficiency equipment, pollution control and sustainable water. These activities are among those identified by the EU Taxonomy on Sustainable Activities.
- The Fund's investment process incorporates an environmental, social and governance (ESG) approach in other ways, notably through negative screens which exclude investment in companies whose activities are judged to materially exacerbate climate change and contribute to other forms of harm. These criteria are explained in more detail in the Investment Approach.
- Through the application of this approach the Fund has an expected minimum of 75% in Sustainable Investments.
- The portfolio construction and the Investment Approach reduces the investment universe by a minimum of 20%.
- Asset allocation is informed by forecasts for the expected returns and volatility of the available assets.
- The Fund will employ techniques to reduce (hedge) risk related to currency movements on non-Euro assets.

Derivatives and Techniques

- The Fund will make routine use of derivatives to reduce risk, reduce cost and/ or generate extra income or growth consistent with the risk profile of the Sub-fund (often referred to as "Efficient Portfolio Management").
- Derivatives include instruments used to hedge non-Euro assets and change equity and bond allocations.

This fund is subject to Article 9 of the Sustainable Finance Disclosure Regulation ("SFDR").

Investors in the fund may buy and sell shares on any dealing day (as defined in the Prospectus). If you invest in income shares, income from investments in the fund will be paid out to you. If you invest in accumulation shares, income will be added to the value of your shares.

Intended Retail Investor

Investors with basic investment knowledge. Investors who can accept large short term losses. Investors wanting a return (growth) over the longer term (5 years or more). Investors with a specific need around a sustainability-related outcome. The Fund has specific and generic risks with a risk rating as per the risk indicator. The Fund is intended for general sale to retail and professional investors through all distribution channels with or without professional advice.

The Fund's depository is Citibank Europe plc Luxembourg Branch. The prospectus, the articles of association, the annual reports and interim reports may be obtained free of charge from our website or via the contact details in 'Other relevant information'. All documents are available in English and German; the prospectus is also available in French and Italian.
