Document published: 23/8/2024

What is this product?

Type

Future Minerals Fund (the "Fund") is a US Dollar denominated sub-fund of a SICAV (société d'investissement à capital variable), abrdn SICAV I, incorporated in Luxembourg.

Term

abrdn SICAV I (the "Company") has no maturity date. The Fund and the Company may not be unilaterally terminated by abrdn Investments Luxembourg S.A.

Objective

The Fund aims to achieve a combination of growth and income by investing in companies of all sizes listed on global stock exchanges including Emerging Markets, which adhere to the abrdn Future Minerals Investment Approach (the "Investment Approach").

Portfolio Securities

- The Fund invests at least 70% in equities and equity related securities of companies listed globally.
- The Fund may invest up to 20% of its net assets in Mainland China equity and equity-related securities through the Shanghai-Hong Kong and Shenzhen-Hong Kong Stock Connect programme.
- Investment in all equity and equity related securities will follow the Investment Approach.
- The approach identifies companies which are aligned to the Future Minerals theme defined as the extraction and processing of raw materials which clean energy transition technologies are reliant upon; and the initial and post-use process technologies that enable this transition.
- This approach utilises abrdn's equity investment process, which enables portfolio managers to qualitatively identify and avoid ESG laggards. To complement this research, the abrdn ESG House Score is used to quantitatively identify and exclude those companies exposed to the highest ESG risks. Additionally, abrdn apply a set of company exclusions which are related to the UN Global Compact, Controversial Weapons, Tobacco Manufacturing and Thermal Coal. More detail on this overall process is captured within the Investment Approach, which is published at www.abrdn.com under "Fund Centre".
- Financial derivative instruments, money-market instruments and cash may not adhere to this approach.

Management Process

- The Fund is actively managed.
- Future Minerals theme alignment is defined as companies with a minimum of 20% of their current or forecast revenue, profit, assets, capital expenditure linked to one of the following pillars:
 1. Mineral extraction & processing: metals and mining companies with raw mineral exposure that clean energy technologies are reliant upon
 2. Upstream & downstream value chain: machinery and services that enable the clean energy transition and mineral conversion into clean energy products (e.g. electric vehicle battery makers)
 3. Recycling & sustainability: minerals and metals extraction from waste for re-use
 4. Compounds & advanced materials: other material producing companies that support the clean energy transition.
- Through the application of the Investment Approach, the Fund has an expected minimum of 20% in Sustainable Investments.
- Engagement with external company management teams is used to evaluate the ownership structures, governance and management quality of those companies in order to inform portfolio construction.
- No benchmark is used for portfolio construction or as a basis for setting risk constraints in the management of the Fund. The Fund references the MSCI ACWI Index (USD) for use as an indicative comparator of the long-term performance of the Future Minerals theme against global equities.

Derivatives and Techniques

- The Fund may utilise financial derivative instruments for hedging and/or investment purposes, or to manage foreign exchange risks. The use of derivatives for hedging and/or investment purposes is expected to be very limited, mainly in those cases where there are significant inflows into the Fund so that cash can be invested while the Fund's investments in equity and equity related securities is maintained.

This fund is subject to Article 8 of the Sustainable Finance Disclosure Regulation ("SFDR").

Investors in the fund may buy and sell shares on any dealing day (as defined in the Prospectus). If you invest in income shares, income from investments in the fund will be paid out to you. If you invest in accumulation shares, income will be added to the value of your shares.

Intended Retail Investor

Investors with basic investment knowledge. Investors who can accept large short term losses. Investors wanting growth and income over the longer term (5 years or more). The Fund has specific and generic risks with a risk rating as per the risk indicator. The Fund is intended for general sale to retail and professional investors through all distribution channels with or without professional advice.

The Fund's depositary is Citibank Europe plc Luxembourg Branch. The prospectus, the articles of association, the annual reports and interim reports may be obtained free of charge from our website or via the contact details in 'Other relevant information'. All documents are available in English and German; the prospectus is also available in French and Italian. For further information about abrdn SICAV I, including the latest share prices, please visit www.abrdn.com.

What are the risks and what could I get in return?

Risk Indicator

1	2	3	4	5	6	7
---	---	---	---	---	---	---

Lower risk

Higher risk

The risk indicator assumes you keep the product for 5 years. The actual risk can vary significantly if you sell it at an earlier stage. The value of investments and the income from them can go down as well as up, and you may get back less than you invested.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 4 out of 7, which is a medium risk class. This rates the potential losses from future performance at a medium level, and poor market conditions could impact our capacity to pay you.

Where the currency of the country where you are resident is different to the currency of the product, **please be aware of currency risk**. You will receive payments in a different currency, so the final return you will get depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

Further information on risks is detailed in the prospectus available at www.abrdn.com or on request from the management company.

This product does not include any protection from future market performance or any capital guarantee against credit risk, so you could lose some or all of your investment.

Performance Scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product / a suitable benchmark over the last 10 years. The scenarios shown are illustrations based on results from the past and on certain assumptions. Markets could develop very differently in the future.

Recommended holding period:		5 years	
Example Investment:		10,000 EUR	
		If you exit after 1 year	If you exit after 5 years
Scenarios			
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs	1,930 EUR	1,710 EUR
	Average return each year	-80.7%	-29.7%
Unfavourable	What you might get back after costs	7,390 EUR	8,480 EUR
	Average return each year	-26.1%	-3.2%
Moderate	What you might get back after costs	10,660 EUR	14,490 EUR
	Average return each year	6.6%	7.7%
Favourable	What you might get back after costs	16,180 EUR	17,260 EUR
	Average return each year	61.8%	11.5%

The figures shown include all the costs of the product itself, and includes the costs of your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

The stress scenario shows what you might get back in extreme market circumstances.

The unfavourable scenario occurred for an investment between April 2015 and March 2020. The moderate scenario occurred for an investment between January 2018 and December 2022. The favourable scenario occurred for an investment between February 2016 and January 2021.

What happens if the Company is unable to pay out?

There is no financial compensation scheme for retail investors in SICAVs domiciled in Luxembourg. In the absence of a compensation scheme applicable to investments in the Fund, investors may face a financial loss of up to their entire investment amount.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario
- 10,000 EUR is invested.

	If you exit after 1 year	If you exit after 5 years
Total costs	93 EUR	695 EUR
Annual cost impact (*)	0.9%	1.0% each year

* This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 8.7% before costs and 7.7% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	We do not charge an entry fee for this product.	0 EUR
Exit costs	We do not charge an exit fee for this product.	0 EUR
Ongoing costs taken each year		
Management fees and other administrative or operating costs	0.92% of the value of your investment per year. This is an estimate based on actual costs over the last year and includes any known future changes.	92 EUR
Transaction costs	0.01% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	1 EUR
Incidental costs taken under specific conditions		
Performance fees	There is no performance fee for this product.	

How long should I hold it and can I take money out early?

Recommended holding period: 5 years

This product has no required minimum holding period but you should have an investment time horizon of at least 5 years. You may buy or sell shares in the product, without penalty, on any normal business day as set out in the prospectus. Please contact your broker, financial adviser or distributor for information on any costs and charges relating to the purchase or sale of the shares.

How can I complain?

If you wish to complain, you may do so by letter to abrDN Investments Luxembourg S.A. Shareholder Service Centre, c/o International Financial Data Services (Luxembourg) S.A., 49 Avenue J.F. Kennedy, L-1855 Luxembourg, Luxembourg; by email to asi_luxembourgcs@statestreet.com; or by telephone 00 352 464 010 820 or 01224 425255 (from the UK).
