What is this product?

Type

Aegon Strategic Global Bond Fund is a sub-fund of Aegon Asset Management Investment Company (Ireland) plc.

Term

The term of the Fund is unlimited and therefore there is no maturity date. The Fund Manager / Manufacturer may decide to terminate the Fund unilaterally as set out in the Prospectus of the Funds. Situations that give rise to an automatic termination are not foreseen in the Funds Prospectus, but may be foreseen by laws and regulations applicable to the Fund.

Objective: to maximise total return (income plus capital).

Policy: invests at least two thirds in a wide range of investment grade (lower risk) bonds and high yield (higher risk) bonds issued by companies and governments worldwide.

The Fund may also invest in cash, deposits and money market instruments (a form of debt security).

The Fund is actively managed.

The Fund may invest in emerging markets. In investment terms, this means those economies that are still developing.

The Fund may invest up to 20% in contingent convertible bonds (CoCos) being a type of bond which has the potential to convert to equity dependent/contingent upon a specific event.

Within the limits set out above, the Fund has discretion in its choice of investments and is not restricted by market sector. It may also hold a limited range of other investments and it is not constrained by any benchmark or index.

The Fund may use derivatives (financial contracts whose value is linked to an underlying asset) for investment purposes, to benefit from changes in the price of an underlying asset without actually owning it.

The Fund may use investment techniques to manage risks and costs. These techniques include 'hedging' (using derivatives and other financial contracts to reduce the risk associated with: (i) making investments in other currencies: or (ii) interest rates changing). Up to 50% of the Fund may not be 'hedged' i.e. the Fund is exposed to the risks of investing in another currency for this portion.

The Fund adheres to environmental, social and governance ('ESG') criteria for all of its bond investments (excluding collective investment schemes, index derivatives and ancillary cash) which combines screening such against exclusionary criteria as more fully described in the Fund supplement along with ESG risks. The Fund shall not be permitted to invest in issuers which the Investment Manager considers to have a negative impact on society and/or the environment and excludes such issuers that fall within either the "exclusion list" and "watch list" (the Fund will commit to a strict application of the watch list and treat it as a hard restriction limit) referenced in the Fund Supplement. Investments which pass the screening criteria will form the investment universe. The Investment Manager will use its proprietary ESG framework to assign an ESG category to each bond investment ranging from 1 to 5, with 1 being the highest category and 5 the lowest. The Fund

will invest at least 80% of its assets in those securities with ESG categories 1, 2, or 3, with up to 20% in securities identified as ESG category 4 or unrated. The Fund will not invest in securities with ESG category 5.

The fund promotes E/S (i.e. Environmental and Social) characteristics within the meaning of Article 8 of the Sustainable Finance Disclosure Regulation (SFDR).

Other information: You can buy, sell or exchange the Fund's shares on any business day (see 'Key Information for Buying and Selling' in the Fund Supplement to the Prospectus for more information).

Comparator benchmarks: Bloomberg Barclays Global Aggregate Total Return Index (EUR Hedged). Comparison against this index will allow investors to compare the Fund's performance against that of a representative but not identical universe of the Fund's potential investments. Comparison against this index will also allow investors to judge the active nature of the Fund against performance of an index which could reflect the performance of equivalent passive funds.

Lipper Global Bond Global CHF Peer Group. Comparison of the Fund against this Peer Group will give investors an indication of how the Fund is performing compared with Funds investing in a similar but not identical investment universe and income orientation. The composition of this peer group is maintained externally and the investment manager makes no guarantees to its accuracy.

Note: the currency of this share class is different from the base currency of the Fund. We use investment techniques which aim to eliminate the impact of exchange rate changes between the share class currency and the currency of the Fund. Aegon Asset Management Investment Company (Ireland) plc operates two different methods of hedging share classes. Full details of these can be found in the Prospectus. Income the Fund receives will be reinvested and automatically reflected in the value of your shares.

Intended retail investor

The Fund is designed for retail and institutional investors seeking pooled exposure to global bond markets and who are comfortable with a medium level of investment risk. Share prices will fluctuate and may fall significantly in value. It is important to understand that the Fund should be viewed as a medium to long term investment. The Fund may not be appropriate for investors who plan to invest in the short term.

The Depositary of the Fund is Citibank Depositary Services Ireland Limited.

Recommended holding period: 3 years

Investors can subscribe and redeem daily. The Company may levy an initial charge of up to 5% of the Net Asset Value per Share in connection with the subscription of Class A, D, G and X Shares of the Fund. This fee will be retained for the benefit of the Global Distributor. There can also be a Repurchase Charge of up to 3% of the redemption amount on Classes A, D, G and X Shares classes. The Fund may suffer dilution (reduction in the value of the assets as a result of the costs incurred in dealing in its underlying investments and of any spread between the buying and the selling prices of such investments which is not reflected in the issue or redemption price paid by or to Shareholders). With a view to countering this (which, if it is significant, disadvantages existing or continuing Shareholders), the Manager may make an adjustment (Dilution Adjustment) to the Share price on a daily and quarterly basis.
