## What is this product?

### TYPE OF PRODUCT

The product is a sub-fund of Alatus UCITS, an Undertaking for Collective Investment in Transferable Securities (UCITS) incorporated as a variable capital investment company (SICAV) under the laws of Luxembourg.

### TERM

The Sub-Fund is established for an unlimited duration. However, the board of directors may decide to close this product under certain circumstances.

### OBJECTIVES

#### Objectives and investment policy

The investment objective of the Sub-Fund is to provide its investors with returns superior to the equity index STOXX Europe 600 Net Return Index ("the Benchmark") by investing primarily in the publicly traded equities of companies worldwide with a special focus in Europe.

There can be no assurance that the investment objective will be achieved and investment result may vary over time.

The Sub-Fund gives emphasis to investing in companies that are perceived to offer a compelling value investment opportunity and the possibility of significant capital appreciation as a result of proposed business strategies which may substantially increase shareholders value over the medium term.

The Sub-Fund will offer an exposure to any kind of equity and equity-related securities (including but not limited to ordinary or preferred shares, ADR, GDR, convertible bonds, reverse convertible bonds) of companies which are domiciled, headquartered or exercise the predominant part of their economic activity in Europe.

In order to achieve its objective, the Sub-Fund will mainly invest directly in the securities mentioned above and/or in any equities (such as structured products as detailed in the Fund's prospectus).

Despite the geographical focus on Europe, the choice of investments will not be limited neither by geographical area (including emerging markets), nor economic sector, nor in terms of currencies in which investments will be denominated. However, depending on financial market conditions, a particular focus may be placed in a single country, and/or in a single economic sector, and/or in a single currency.

On an ancillary basis, within the limits allowed by the 2010 Act, the Sub-Fund may invest directly in debt securities, money market instruments, and UCIs.

The Sub-Fund will not invest more than 10% of its net assets in UCIs or UCITS.

**Derivatives** For hedging and for any other purposes, the Sub-Fund may use financial derivative instruments within the limits and descriptions set out in the prospectus. The use of derivative instrument may increase leverage and imply additional costs and risks.

**Benchmark** The Sub-Fund is actively managed. The benchmark index of the Sub-Fund is STOXX Europe 600 Net Return Index. It is mentioned only for information purposes and the Sub-Fund does not track the index. The Sub-Fund can deviate significantly from the benchmark index.

**ESG information** The Sub-Fund promotes environmental and social characteristics within the meaning of article 8 of SFDR as further set out in the prospectus.

**Dividend Policy** This Class is cumulative. Dividend distributions are not planned.

**Share Class Currency** The currency of the Class is EUR.

The recommended holding period of this product is determined to allow sufficient time for this product to reach its objectives and avoiding short term market fluctuations.

The return of the product is determined using the Net Asset Value (the "NAV") calculated by FundPartner Solutions (Europe) S.A. (the "Administrative Agent"). This return depends mainly on the market value fluctuations of the underlying investments.

### INTENDED RETAIL INVESTORS

The Sub-Fund is suitable for Retail Investors and Institutional Investors who understand and are able to bear the risks of an investment in the Sub-Fund, including the risk of losing all or substantially all of their investment. The Sub-Fund is compatible with clients looking for growing their capital and who wish to hold their investment over 5 years.

### OTHER INFORMATION

**Depository** Bank Pictet & Cie (Europe) AG, succursale de Luxembourg (the "Depository").

**Investment Manager** Alatus Capital S.A. (the "Investment Manager").

**Asset segregation** The assets and liabilities of each sub-fund are segregated by law, which means that the performance of the assets in other sub-funds does not influence the performance of your investment.

**Dealing** Investors are able to subscribe, redeem or convert their shares on any Valuation Day, this is any Wednesday that is a business day (and if such Wednesday is not a business day, the immediately following business day). Subscription requests can be made to the administrative agent before 4 p. m. (CET) 1 business day before the relevant Valuation Day. Redemption and conversion requests can be made to the administrative agent before 4 p.m. (CET) 6 business days before the relevant Valuation Day.

**Switching** Shareholders may apply for any share of any sub-fund or class to be converted into shares of another sub-fund or class, provided that the conditions for accessing the target class, are fulfilled, on the basis of their respective NAV calculated on the Valuation Day following receipt of the conversion request. The redemption and subscription costs connected with the conversion may be charged to the shareholder as indicated in the prospectus. For details about how to switch between sub-funds or classes, please refer to the prospectus, section which details the switch between sub-funds or classes, which is available at [www.fundsquare.net](http://www.fundsquare.net).

**Additional Information** More detailed information on the Fund, such as the prospectus, other classes, the key information, the latest NAV, the articles of incorporation as well as the latest annual and semi-annual report, can be obtained free of charge, in English, from the Administrative Agent, the distributors, the Management Company or online at [www.fundsquare.net](http://www.fundsquare.net).

This key information document describes the Class of one sub-fund of the Fund. For more information about other sub-funds, please refer to the prospectus and periodic reports that are prepared for the entire Fund.

## What are the risks and what could I get in return?

### Risk indicator

← Lower risk Higher risk →

The risk indicator assumes you keep the product for 5 years.

The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you. The essential risks of the investment fund lie in the possibility of depreciation of the securities in which the fund is invested.

### Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable proxy over the last 10 years. Markets could develop very differently in the future.

Recommended holding period (RHP): Example investment		5 years EUR 10,000		
		If you exit after 1 year	If you exit after 5 years	
<b>Scenarios</b>				
<b>Minimum</b>	<b>There is no minimum guaranteed return. You could lose some or all of your investment.</b>			
<b>Stress scenario</b>	<b>What you might get back after costs</b> Average return each year	EUR 6,360 -36.4%	EUR 2,070 -27.0%	
<b>Unfavourable scenario</b>	<b>What you might get back after costs</b> Average return each year	EUR 7,890 -21.1%	EUR 9,550 -0.9%	This type of scenario occurred for an investment in the product between December 2021 and December 2023.
<b>Moderate scenario</b>	<b>What you might get back after costs</b> Average return each year	EUR 10,710 7.1%	EUR 14,090 7.1%	This type of scenario occurred for an investment in the product between April 2014 and April 2019.
<b>Favourable scenario</b>	<b>What you might get back after costs</b> Average return each year	EUR 13,760 37.6%	EUR 18,350 12.9%	This type of scenario occurred for an investment in the product between August 2016 and August 2021.

The stress scenario shows what you might get back in extreme market circumstances.

## What happens if FundPartner Solutions (Europe) S.A. is unable to pay out?

The Management Company is not making any payment to you in relation to the Sub-Fund and you would still be paid in case of a default from the Management Company.

The Sub-Fund's assets are held with a separate company, the Depository, so the Sub-Fund's ability to pay out would not be affected by the insolvency of the Management Company. However, in the event of the Depository's insolvency, or its delegates, the Sub-Fund may suffer a financial loss. However, this risk is mitigated to a certain extent by the fact the Depository is required by law and regulation to segregate its own assets from the assets of the Sub-Fund. The Depository will also be liable to the Sub-Fund or its investors for any loss arising from, among other things, its negligence, fraud or intentional failure properly to fulfill its obligations (subject to certain limitations).

If the Sub-Fund is terminated or wound up, the assets will be liquidated and you will receive an appropriate share of any proceeds but you may lose part or all of your investment.

There is no compensation or guarantee scheme protecting you from a default of the Depository.

## What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

### Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- EUR 10,000 is invested
- Maximum entry costs of 3.00% and exit costs of 1.00% are charged. This is a maximum and the person selling you this product will inform you of the actual charge, which may be zero.

Investment of EUR 10,000	If you exit after 1 year	If you exit after 5 years
<b>Total costs</b>	EUR 238	EUR 1,641
<b>Annual cost impact (*)</b>	2.4%	2.4%

(\*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 9.5% before costs and 7.1% after costs.

### Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	We do not charge an entry fee for this Class. The person selling you this product may charge up to 3.00%.	Up to EUR 300
Exit costs	We do not charge an exit fee for this Class. The person selling you this product may charge up to 1.00%.	Up to EUR 101
Ongoing costs taken each year		
Management fees and other administrative or operating costs	1.72% of the value of your investment per year. This is an estimate based on actual costs over the last year.	EUR 172
Transaction costs	0.15% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	EUR 15
Incidental costs taken under specific conditions		
Performance fees	20% of the increase of the NAV over the performance of the equity index STOXX Europe 600 Net Return Index, subject to the high water mark, as defined in the prospectus. The actual amount will vary depending on how well your investment performs. The aggregated cost estimation above includes the average over the last 5 years.	EUR 51

Conversions between sub-funds are subject to a commission of maximum 1.00% of the NAV of the shares to be converted.

## How long should I hold it and can I take my money out early?

### Recommended holding period (RHP): 5 years.

The RHP was chosen to allow sufficient time for this product to reach its objectives and avoiding short term market fluctuations.

Investors are able to subscribe, redeem or convert their shares on any Valuation Day, this is any Wednesday that is a business day (and if such Wednesday is not a business day, the immediately following business day). Subscription requests can be made to the administrative agent before 4 p. m. (CET) 1 business day before the relevant Valuation Day. Redemption and conversion requests can be made to the administrative agent before 4 p.m. (CET) 6 business days before the relevant Valuation Day.

## How can I complain?

In the event a natural or legal person wishes to file a complaint with the Fund in order to recognize a right or to redress a harm, the complainant should address a written request that contains description of the issue and the details at the origin of the complaint, either by email or by post, in an official language of their home country to the following address:

FundPartner Solutions (Europe) S.A.,  
15 Avenue J.F. Kennedy,
