WHAT IS THIS PRODUCT?

Type: Algebris Financial Credit Fund (the "Fund") is a sub-fund of Algebris UCITS Funds PLC (the "UCITS"), a public limited company incorporated with limited liability in Ireland with registered number 509801 and established as an umbrella fund with segregated liability between sub-funds and as an undertaking for collective investment in transferable securities pursuant to the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011, as amended. The Investment Manager of the Fund is Algebris (UK) Limited (the "Investment Manager"). Segregated liability between sub-funds means that the assets and liabilities of each sub-fund are segregated by Irish law. The prospectus and periodic reports are prepared for Algebris UCITS Funds plc at umbrella level.

Objectives: The Fund aims to achieve a high level of income and modest capital appreciation.

The Fund intends to invest in the financial sector globally, primarily in debt securities (for example, government bonds and corporate bonds) with fixed and variable interest rates, which may be rated investment or below investment grade.

You can buy or sell shares daily (but not on weekends or bank holidays in the UK or Ireland). For more information please refer to the section entitled "Dealings in the Fund" in the Supplement.

The Fund may also invest in convertible securities (bonds that can be converted into shares), hybrid securities (instruments that combine the characteristics of bonds and shares), preference shares, contingent convertible instruments (**CoCo-Bonds**) (bonds that can be converted into shares or their principal amount may be written down if a pre-specified trigger event occurs), subordinated debt and exchange traded funds (**ETFs**) (securities that track an index, a commodity or a basket of assets like an index fund, but trades like a stock on an exchange). During times of high levels of market movements (volatility) the Fund may invest substantially in deposits. The Fund does not intend to invest directly in ordinary shares, however may acquire and hold ordinary shares where such ordinary shares are acquired by way of conversion from another security held by the Fund. The Fund may also enter into financial derivative instruments (**FDI**) for hedging and efficient portfolio management purposes and not for speculative or investment purposes, including options (securities that give the right to buy or sell another asset), swaps (an instrument that swaps the performance of one asset for another), forward contracts (contracts to exchange foreign currencies at an agreed date in the future) and futures (contracts to exchange a predetermined quantity of another asset at a certain price on a certain future date). In addition, certain financial instruments such as convertible securities and CoCo-Bonds may have embedded leverage or embed a derivative component. The Fund may invest in these securities for speculative or investment purposes.

The Fund is actively managed without reference to any benchmark meaning that Algebris (UK) Limited has full discretion over the composition of the Fund's portfolio, subject to the stated investment objectives and policies.

Any income that may arise in the Fund will be reinvested in the Fund.

Hedging: The Fund's base currency is Euro and the Fund may use currency hedging (the technique of buying or selling currencies to minimise fluctuations in non-Euro currency investments resulting from foreign exchange movements). There is no guarantee that this will be successful.

Intended Retail Investors: The Fund is suitable for all investors seeking to achieve a high level of income and modest capital growth and who are prepared to accept a moderate level of volatility with a medium to long-term investment horizon. The investors must be able to bear the economic risk of the loss of their investment.

Term: The Fund has no maturity date at which the Fund will automatically terminate. The Investment Manager is not entitled to terminate the Fund unilaterally nor can the Fund be automatically terminated. More details on the circumstances whereby the Fund may terminate are detailed in the prospectus of the UCITS (the "Prospectus") under the heading "Termination".

Depository of the Fund: BNP Paribas, Dublin Branch.

The prospectus, the half-yearly reports and annual reports of the Fund can be obtained free of charge in English from your financial advisor or distributor.

Other practical information such as the latest share prices are available free of charge at <https://www.algebris.com/funds/>.

You may switch your shares in the Fund to shares in other sub-funds in which you are eligible to invest. Further information is available from BNP Paribas Fund Administration Services (Ireland) Limited.

WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

RISK INDICATOR

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

The risk indicator assumes you keep the product for 5 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less. You may not be able to cash in early. You may not be able to sell your product easily or you may have to sell at a price that significantly impacts on how much you get back.

We have classified this product as 3 out of 7, which is a medium-low risk class.

This rates the potential losses from future performance at a medium-low level, and poor market conditions are unlikely to impact the capacity of the fund to pay you.

Be aware of currency risk. In some circumstances, you may receive payments in a different currency, so the final return you will get may depend on the exchange rate between the two currencies. This risk is not considered in the indicator.

The Fund is subject to the following Risk Factors relating to (without limitation):

- Credit and interest rate
- CoCo-Bonds
- Emerging markets
- Currency
- Sustainability
- Derivatives

This product does not include any protection from future market performance so you could lose some or all of your investment.

PERFORMANCE SCENARIOS

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances

Recommended Holding Period: 5 Years Investment: 10,000 EUR			
Scenarios		Year	5 Years (Recommended Holding Period)
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress scenario	What you might get back after costs	2,890 EUR	3,710 EUR
	Average return each year	- 71.11 %	- 18.01 %
Unfavourable scenario	What you might get back after costs	7,930 EUR	8,560 EUR
	Average return each year	- 20.67%	- 3.07%
Moderate scenario	What you might get back after costs	10,250 EUR	12,420 EUR
	Average return each year	2.46%	4.43%
Favourable scenario	What you might get back after costs	12,010 EUR	14,090 EUR
	Average return each year	20.09%	7.10%

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

WHAT HAPPENS IF ALGEBRIS INVESTMENTS (IRELAND) LIMITED IS UNABLE TO PAY OUT?

Although the assets of the Fund are held in safekeeping and segregated from the assets of the Management Company or of the Depositary, in the event of the insolvency of either of those providers, you may suffer a financial loss. There is no compensation or guarantee scheme in place which may offset, all or any of, this loss.

WHAT ARE THE COSTS?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

COSTS OVER TIME

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product performs. The amounts shown here are illustrations based on an example investment amount and different possible investment periods:

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- EUR 10,000 is invested.

Investment: 10,000 EUR Scenarios	If you exit after Year	If you exit after 5 Years (Recommended Holding Period)
Total Costs	491 EUR	1,552 EUR
Annual Cost Impact (*)	4.91 %	2.49 %

*This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 6.92% before costs and 4.43% after costs. We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.
