Why is the fund in this category?

We may invest directly or indirectly a significant portion of the fund into bonds or money markets instruments. If the issuer may fall into insolvency or may suffer economical problems the interest and/or the capital of these assets may not or may not be completely paid and/or the price of the assets may drop.

A significant portion of the Fund may be invested in emerging market assets. Emerging markets generally carry greater political, legal, counterparty and operational risk. In exceptional circumstances the Fund may encounter difficulties when buying and selling these investments.

Due to the fact that the Sub-Fund may invest into the China A-Shares market via both, Shanghai-Hong Kong Stock Connect and/or Shenzhen-Hong Kong Stock Connect, various additional risks which include but are not limited to regulatory risks and suspension risks may thereby be caused and should be emphasised to the general investment and equity related risks.
