Allianz Euro Rentenfonds Share Class A (EUR)

Managed by Allianz Global Investors GmbH, part of Allianz Global Investors

ISIN: DE0008475047
WKN: 847504

Objectives and Investment Policy

The fund seeks to generate returns in line with the Euro bond markets it invests in.

We follow an active management approach with the aim to outperform the Benchmark. We will acquire assets that are constituents of the Benchmark and we may use our discretion to invest in assets not included in the Benchmark. In selecting and weighting the fund's assets we deviate materially from the Benchmark.

The Fund follows the SRI Strategy and promotes investments that take into consideration environmental, social and corporate governance criteria with simultaneous application of certain minimum exclusion criteria for direct investments.

We invest mainly in bonds that have good credit ratings and are issued by borrowers from industrialised countries. These bonds have an average duration (remaining maturity) of between

three and eleven years. The foreign currency risk against the euro is limited to a maximum of 5% of the fund's assets. Min. 90% of Fund portfolio (excluding cash, deposits and non-rated derivatives) shall be evaluated by an SRI Rating.

Benchmark: J.P. MORGAN EMU Investment Grade Total Return (in EUR).

You may redeem shares of the fund usually on each business day.

We usually distribute the income of the fund on a yearly basis.

Derivatives may be used to a large extent to offset exposure to price fluctuations (hedging), to take advantage of price differences between two or more markets (arbitrage) or to multiply gains although it may also multiply losses (leverage).
