## Objectives and Investment Policy

The fund's objective is to participate in the performance of Allianz Global Metals and Mining Share Class F (EUR) (the "Master Fund"). To achieve this objective we will invest as much of the fund's assets as possible, but at least 95%, in the Master Fund.

We follow an active management approach with the aim to outperform the Benchmark. We will acquire assets that are constituents of the Benchmark and we may use our discretion to invest in assets not included in the Benchmark. In selecting and weighting the fund's assets we deviate materially from the Benchmark.

The Master Fund aims to generate Long-term capital growth by investing in global equity markets with a focus on natural resources-related companies. Min. 70% of Master Fund assets are invested in Equities as described in the Master Fund's investment objective. Max. 30% of Master Fund

assets may be invested in Equities other than described in the investment objective. Master Fund assets may be invested completely in Emerging Markets. Max. 15% of Master Fund assets may be held directly in deposits and/or may be invested in Money Market Instruments and/or (up to 10% of Master Fund assets) in money market funds for liquidity management. The Master Fund classifies as "equity-fund" according to German Investment Tax Act (GITA) since at least 70% of Master Fund assets are permanently physically invested in an Equity Participation according to Art. 2 Section 8 GITA.

The Fund's performance will be very similar to the performance of the Master Fund.

### Why is the fund in this category?

Funds of category 6 have shown in the past a high volatility. The volatility describes how much the value of the fund went up and down in the past. The units of a fund of category 6 might be subject to high price fluctuations based on the historical volatilities observed.

The following material risks are not fully captured by the risk and reward indicator:

We invest almost exclusively in the Master Fund. We can redeem shares in the Master Fund on any business day, thereby acquiring sufficient liquid assets to fund your share redemptions. If the Master Fund suspends the redemption of shares, we may also suspend the redemption of shares. This means that you would not be able to redeem your shares and you would not get back your money until the suspension of redemption is cancelled.
