The Sub-Fund is neither liable for other funds' assets nor liable for liabilities of the management company, this applies also to liabilities of the management company arising from legal transactions which it concludes for the collective account of the Sub-Fund's investors.

Therefore, neither an insolvency of the management company nor of the Sub-Fund's appointed depository will result in an investor losing money in the Sub-Fund.

In case of insolvency of the management company, the Sub-Fund's depository will either liquidate the Sub-Fund and distribute the proceeds to Sub-Fund's investors or entrust its management to another management company.

HOW LONG SHOULD I HOLD IT AND CAN I TAKE MONEY OUT EARLY?

Recommended holding period: 3 years

Due to its investment strategy, the Sub-Fund's value may vary considerably over the short time. You should therefore stay invested for at least 3 years to profit from gains on the longer term. If you disinvest earlier, there is a higher risk that you might get back only poor returns, or not even the sum you invested. The

Sub-Fund is open-ended which means you can redeem money back at every NAV calculation and without having to pay penalties. If applicable to your Sub-Fund you will pay the exit fees only. The detailed procedure to redeem from the Sub-Fund is described in the Prospectus.
