The key information document (KID) is accurate as at 01 January 2023.

What is the product?

Type: This product is a Société d'Investissement à Capital Variable (SICAV).

Term: The fund has been established for an indefinite period of time. The PRIIP Manufacturer reserves the right to liquidate the fund, subject to approval by the Board of Directors.

Objectives: The fund seeks total return, maximizing investment income while preserving capital, by investing, under normal circumstances, at least two-thirds of its total assets in US Dollar-denominated credit debt securities rated investment grade (i.e., Baa or higher by Moody's or BBB or higher by Standard & Poor's) at the time of purchase. The fund will hold United States corporate debt securities, Yankee bond debt securities, agencies, Supranationals and US Dollar-denominated sovereign bonds. The fund promotes environmental and social characteristics but does not have a sustainable investment objective. The fund invests up to one-third of its total assets in debt securities rated below investment grade at the time of purchase and non-US Dollar denominated debt securities as well as foreign agencies, taxable municipals, asset-backed securities and commercial mortgage-backed securities. The fund may invest up to 20% of its total assets in asset-backed securities, including mortgage-backed securities. The fund may invest up to 5% of its total assets in contingent convertible bonds. The fund will invest at least 5% of its total assets in Green, Sustainable, Sustainable-linked and Social Bonds. Through the use of a negative screening process, the fund seeks to exclude certain securities in accordance with its exclusion policy. A copy of the methodology and list of excluded investments (including the revenue thresholds) is available under [allspringglobal.com](https://www.allspringglobal.com). Shareholders may also request a copy from the fund or the Management Company. The fund may use futures, forward contracts, and options or swap agreements, as well as other derivatives, for hedging, efficient portfolio management or investment purposes. The fund focuses on bottom-up credit research with a focus on well-underwritten credits and relative value. Security selection is the primary driver of alpha. The Sub-Investment Manager seeks to balance income while targeting a competitive yield to drive total returns. The fund favours companies with strong or improving ESG positions and incorporates this emphasis into its rigorous fundamental analysis. The fund is actively managed but uses the Bloomberg U.S. Credit Index for performance comparison. The investments of the fund may deviate significantly from the components of and their respective weightings in the benchmark. You may redeem your investment upon demand on each business day when banks in Luxembourg are open for normal business and the New York Stock Exchange is open for trading (a "Business Day"). This share class intends to distribute gross dividends, if any. Shareholders should note that paying dividends gross of expenses may result in the shareholder receiving a higher dividend than they would have otherwise received and therefore may suffer a higher income tax liability as a result. Shareholders should seek their own professional tax advice in this regard.

Intended Investor:

This product is intended for institutional investors of all knowledge and/or experience levels seeking current income as generated by investment grade fixed income securities that are denominated in US Dollars, who have an investment horizon of 5 years or longer and who have a risk tolerance compatible with the product's SRI rating.

Depository: Brown Brothers Harriman (Luxembourg) S.C.A.

Further Information: This document describes a share class of a sub-fund of Allspring (Lux) Worldwide Fund. The assets and liabilities of each sub-fund are segregated and no sub-fund is responsible for the liabilities of another. The prospectus and financial reports are prepared for Allspring (Lux) Worldwide Fund as a whole. You may obtain free copies of these documents in English, French, and German from Allspring (Lux) Worldwide Fund, c/o Brown Brothers Harriman (Luxembourg) S.C.A., 80 Route d'Esch, L-1470 Luxembourg or at [allspringglobal.com](https://www.allspringglobal.com).

Price Publication: Net asset value per share is calculated on each Business Day and is available in local media and/or with the fund's local agent in certain countries and at the registered office of the fund.

WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

Risk indicator

< Lower risk Higher risk >> The risk indicator assumes you keep the product for a minimum of 5 years.

1	2	3	4	5	6	7
---	---	---	---	---	---	---

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as class 3 out of 7, which is a medium-low risk class. This rates the potential losses from future performance at a medium-low level, and poor market conditions are unlikely to impact the capacity of the fund to pay you.

Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

This product does not include any protection from future market performance so you could lose some or all of your investment.

Performance scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product / a suitable benchmark over the last 10 years. Markets could develop very differently in the future.

Recommended minimum holding period: 5 Years

Investment: 10 000 USD

Scenarios		1 Year	5 Years
Minimum: There is no minimum guaranteed return. You could lose some or all of your investment.		(recommended holding period)	
Stress scenario	What you might get back after costs	5 920 USD	7 170 USD
	Average return each year	- 40.77 %	- 6.44 %
Unfavourable scenario	What you might get back after costs	8 050 USD	8 250 USD
	Average return each year	- 19.48%	- 3.78%

What happens if Allspring Global Investments Luxembourg S.A. is unable to pay out?

The value of your investment would not be affected by a default by the PRIIP Manufacturer. The value of your investment is not guaranteed but you will not face financial loss greater than the amount of your investment.

What are the costs?

The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs, and should show you the impact that all costs will have on your investment over time.

Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods:

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

- USD 10 000 is invested.

Investment: 10 000 USD	If you exit after 1 Year	If you exit after 5 Years
Total Costs	57 USD	358 USD
Annual Cost Impact	0.57 %	0.6 %

This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 4.84% before costs and 4.24% after costs.
