## WHAT IS THIS PRODUCT?

## Type

This Product is an undertaking for collective investment in transferable securities (UCITS). It is a sub-fund of AMSelect, an open-ended investment company (société d'investissement à capital variable "SICAV") governed by the provisions of Part I of the Luxembourg Law of 17 December 2010 (the "2010 Law") relating to undertakings for collective investment as well as by UCITS Directive 2009/65.

## Term

This Product has no maturity date.

BNPP AM Luxembourg is not entitled to terminate the Product unilaterally. The board of directors of the SICAV has the authority to decide on the merger, split, liquidation or the closure of the sub-fund. Furthermore, the SICAV may be wound up by decision of an extraordinary general meeting of shareholders.

## Objectives

The Product is actively managed. The benchmark, made of 30 % of the MSCI All Country World and 70% of the Bloomberg Global Aggregate Excluding Securitized Index Hedged in Euro, is used for performance comparison only. The Product is not benchmark constrained and its performance may deviate significantly from that of the benchmark. The Product seeks to increase the value of its assets over the medium term by investing globally in equity, debt of both corporate and governmental issuers. The universe includes developed, emerging countries and High Yield fixed income.

The Product may also invest in, or be exposed to, the following asset classes up to the percentages of assets indicated : Equity (50%), Below investment grade bonds (non-emerging countries) 20%, Emerging market bonds (30%), Non-rated bonds (10%), Convertible bonds (15%), including contingent convertible bonds up to 10% (used for diversification or for seeking additional returns), UCITS and other UCIs (10%). The Product can invest in ABS/MBS up to 10% of its net asset ant any time. The Product may invest up to 20% of its asset in China onshore securities. It may invest in China A Shares, bonds and other debt securities denominated in RMB through (i) the QFI status granted to the investment manager (ii) Bond Connect. It may also invest in China A Shares through the Shanghai-Hong Kong Stock Connect programme, the Shenzhen-Hong Kong Stock Connect programme.

The Product does not invest in securities rated below CCC+, as well as in distressed securities at moment of purchase. Any portfolio security that falls below the Product's minimum credit criteria will be sold if it is in the interest of the shareholders.

The Product uses a risk-managed approach to seek additional performance opportunities, and pursues a flexible asset allocation strategy (bottom-up and top-down approach).

Environmental, social and governance (ESG) criteria contribute to, but are not a determining factor in, the manager's decision making.

A dividend may be distributed.

Investors are able to redeem on a daily basis (on Luxembourg bank business days) as described in the prospectus.

## Intended retail investors

This Product is designed for investors who have neither financial expertise nor any specific knowledge to understand the Product but nevertheless may bear a total capital loss. It is suited for clients who seek growth of and/or income from capital. Potential investors should have an investment horizon of at least 3 years.

## Practical Information

■ Depositary: BNP PARIBAS, Luxembourg Branch

■ This key information document is prepared for the aforementioned share class and describes a sub-fund of AMSelect. Further information about the Product is contained in the prospectus and periodical reports which are issued at the level of the SICAV. Under the 2010 Law, there is segregated liability between sub-funds, meaning that the assets of the sub-fund will not be available to meet a claim of a creditor or another third-party made against another sub-fund.

■ Investors may switch between sub-funds of the SICAV. Please see the prospectus or contact your financial adviser for details.

■ Further information about the Product including the latest prospectus, Articles of Association, key information document, net asset values, latest published prices of share(s), periodical report, investment description, may be obtained free of cost, in English, from BNPP AM Luxembourg or online at <https://www.bnpparibas-am.com>.

## WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

## Risk Indicator

The risk indicator assumes you keep the Product for 3 years.

The summary risk indicator is a guide to the level of risk of this Product compared to other Products. It shows how likely it is that the Product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this Product as 3 out of 7, which is a medium-low risk class. The risk category is justified by the investment in different asset classes with a standard asset mix that is a good balance between risky assets and less risky assets.

**Be aware of currency risk. If the currency of your account is different from the currency of this Product, the payments you will get depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.**

Other risks materially relevant to the Product not included in the summary risk indicator:

- **Credit risk:** the risk that the creditworthiness of an issuer may deteriorate or that it may default, potentially causing the value of the associated instruments to fall.
- **Operational risk:** in the event of an operational breakdown within the management company, one of its representatives or the depositary, investors could face various disruptions (late payment, delivery etc.).

For additional details regarding the risks, please refer to the prospectus.

This Product does not include any protection from future market performance so you could lose some or all of your investment.

## Performance Scenarios

The figures shown include all the costs of the Product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The unfavourable, moderate and favourable scenarios presented represent examples using the best and worst performance, as well as the average performance of the Product and/or appropriate benchmark over the last 10 years. The markets could develop very differently in the future. The stress scenario shows what you might get back in extreme market circumstances.

Recommended holding period: 3 years	If you exit after 1 year	If you exit after 3 years
Example Investment: EUR 10,000		

### Scenarios

## WHAT HAPPENS IF BNPP AM LUXEMBOURG IS UNABLE TO PAY OUT?

The SICAV is incorporated as a separate entity distinct from BNPP AM Luxembourg. In the event BNPP AM Luxembourg would default, the assets of the Product/SICAV, held by a depositary, would not be affected by this default.

In case of default of the depositary, the risk of financial loss of the Product/SICAV is mitigated by the legal segregation of the assets of the depositary from those of the Product/SICAV.

## WHAT ARE THE COSTS?

The person advising on or selling you this Product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

### Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the Product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- in the first year, you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the Product performs as shown in the moderate scenario.
- EUR 10,000 is invested.

	If you exit after 1 year	If you exit after 3 years
<b>Total Cost</b>	427.07 EUR	715.04 EUR
<b>Annual Cost Impact (*)</b>	4.31%	2.38% each year

(\*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 3.77% before costs and 1.39% after costs.
