The AMF ("Autorité des Marchés Financiers") is responsible for supervising Amundi Asset Management in relation to this Key Information Document.

Amundi Asset Management is authorised in France under number GP-04000036 and regulated by the AMF.

Key Information Document production date: 02/04/2024.

What is this product?

Type: Units of AMUNDI ACTIONS PME, a UCITS (Undertaking for Collective Investment in Transferable Securities), established in the form of an FCP.

Term: The Fund has an unlimited duration. The Management Company may dissolve the Fund by means of liquidation or merger with another fund in accordance with legal requirements.

AMF Classification ("Autorité des Marchés Financiers"): Securities from European Union countries

Objectives: By subscribing to AMUNDI ACTIONS PME, you are investing in shares of small and medium-sized enterprises and/or mid-sized enterprises with registered offices in the European Union or in the European Economic Area. The target exposure to the equity markets of your fund will be between 90% and 110%; exposure to these markets may nevertheless deviate from this range in a non-substantial way.

The management objective of the fund is to participate in the development of the market for small and medium-sized enterprises and mid-sized enterprises, mainly in the Eurozone, by selecting the securities which, according to the Management Company, have the greatest potential for appreciation in the medium term.

To achieve this, the management team mainly selects small- and mid-cap companies (employing less than 5000 people and having an annual turnover not exceeding EUR 1,500 million or a balance sheet total not exceeding EUR 2,000 million; these criteria are assessed when the Fund acquires the securities, not throughout its lifetime), whose growth profile is deemed attractive or that are undervalued by the market. The geographical and sectoral distribution of the selected companies may change at any time according to the anticipated yield prospects.

Forward financial instruments may also be used for hedging and/or exposure and/or arbitrage purposes.

AMUNDI ACTIONS PME is eligible for the French Equity Savings Plan (PEA) and the French SME Equity Savings Plan (PEA-PME).

The UCI is managed on an active and discretionary basis. It is not managed in reference to an index.

The UCI is classified Article 8 within the meaning of Regulation (EU) 2019/2088 on sustainability-related disclosures in the financial services sector (known as the "Disclosure Regulation").

Environmental, social and governance criteria (ESG) contribute to the investment manager's decision-making process, without being a key factor in this decision making.

Intended retail investors: This product is intended for investors with a basic knowledge and no or limited experience of investing in funds, who are seeking to increase the value of their investment over the recommended holding period and who are able to bear a loss of up to the full amount invested.

The product is not open to residents of the United States of America/"U.S. Person" (the definition of "U.S. Person" is available on the Management Company's website www.amundi.fr and/or in the prospectus).

Redemption and transaction: Units may be sold (redeemed) daily as stated in the prospectus at the respective dealing price (net asset value). Further details are provided in the AMUNDI ACTIONS PME prospectus.

Distribution Policy: As this is a non-distributing unit class, investment income is reinvested.

More information: Further information regarding this Fund, including the prospectus and financial reports, is available free of charge on request from:

Amundi Asset Management - 91-93 boulevard Pasteur, 75015 Paris, France.

The Net Asset Value of the Fund is available on www.amundi.fr.

Depository: CACEIS Bank.

What are the risks and what could I get in return?

RISK INDICATOR

The risk indicator assumes you keep the product for five years.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movement in the markets or because we are not able to pay you.

We have classified this product as 4 out of 7, which is a medium risk class. This rates the potential losses from future performance at a medium level, and poor market conditions could impact our capacity to pay you.

Additional risks: Market liquidity risk could amplify the variation of product performances.

The use of complex products such as derivatives can lead to increased movement of securities in your portfolio.

This product does not include any protection from future market performance so you could lose some or all of your investment.

Beside the risks included in the risk indicator, other risks may affect the Fund's performance. Please refer to the AMUNDI ACTIONS PME prospectus.

What happens if Amundi Asset Management is unable to pay out?

The product is a co-ownership of financial instruments and deposits separate from the Management Company. In the event of default by the Management Company, the assets of the product held by the depositary will not be affected. In the event of default by the depositary, the risk of financial loss to the product is mitigated due to the legal segregation of the depositary's assets from those of the product.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

COSTS OVER TIME

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, and how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- in the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

- EUR 10,000 is invested.

Investment EUR 10,000		
Scenarios	If you exit after	
	1 year	5 years*
Total costs	€678	€1,817
Annual Cost Impact**	6.9%	3.1%

* Recommended holding period.

** This illustrates how costs reduce your return each year over the holding period. For example, it shows that if you exit at the recommended holding period, your average return per year is projected to be 9.37% before costs and 6.26% after costs.

These figures include the maximum distribution fee that the person selling you the product may charge (5.00% of amount invested/EUR 500). This person will inform you of the actual distribution fee.
