

PROSPECTUS

I - GENERAL FEATURES

- ▶ **Name:** AMUNDI EURO LIQUIDITY SRI
- ▶ **Legal form and Member State in which the UCI has been set up:** French Mutual Fund (FCP)
- ▶ **Launch date, approval date and scheduled term:** UCI launched on 01 December 2005, approved on 18 November 2005 with a term of 99 years.

► **Summary of the investment offer:**

Name Unit	ISIN code	Allocation of distributable income	Denomination currency	Minimum initial subscription	Minimum subsequent subscription	Eligible subscribers
BdF-D units	FR0014004TR0	<u>Allocation of net profit:</u> Distribution <u>Allocation of realised net capital gains:</u> Accumulation and/or distribution at the discretion of the Management Company	Euro	1 unit(s)	1 unit(s)	Strictly reserved for Banque de France clients
E-C unit	FR0011799915	<u>Allocation of net profit:</u> Accumulation <u>Allocation of realised net capital gains:</u> Accumulation	Euro	1 unit(s)	1 thousandth of a unit	Legal entities
I2-C units	FR0013095312	<u>Allocation of net profit:</u> Accumulation <u>Allocation of realised net capital gains:</u> Accumulation	Euro	15.000 unit(s)	1 thousandth of a unit	Legal entities and, more specifically, major institutional investors
IC-C units	FR0010251660	<u>Allocation of net profit:</u> Accumulation <u>Allocation of realised net capital gains:</u> Accumulation	Euro	10 unit(s)	1 thousandth of a unit	All subscribers, primarily institutional investors and distribution platforms
M-C units	FR0013221199	<u>Allocation of net profit:</u> Accumulation <u>Allocation of realised net capital gains:</u> Accumulation	Euro	10 unit(s)	1 thousandth of a unit	All subscribers, primarily Italian institutional investors
P-C units	FR0011630557	<u>Allocation of net profit:</u> Accumulation <u>Allocation of realised net capital gains:</u> Accumulation	Euro	1 thousandth of a unit	1 thousandth of a unit	All subscribers
R-C units	FR0013297561	<u>Allocation of net profit:</u> Accumulation <u>Allocation of realised net capital gains:</u> Accumulation	Euro	1 thousandth of a unit	1 thousandth of a unit	Strictly reserved for investors subscribing directly or via intermediaries providing portfolio or mandate management services and/or financial investment consultancy services not authorising them to retain retrocessions, either contractually or pursuant to the MiFID II regulation or national legislation
R1-C units	FR0014005U84	<u>Allocation of net profit:</u> Accumulation <u>Allocation of realised net capital gains:</u> Accumulation	Euro	10 unit(s)	1 thousandth of a unit	reserved for German investors

S - C units:	FR0013518610	<u>Allocation of net profit:</u> Accumulation <u>Allocation of realised net capital gains:</u> Accumulation	Euro	1 thousandth of a unit	1 thousandth of a unit	Reserved for employee savings funds, funds or mandates dedicated to group retirement savings and feeder funds managed by Amundi management companies
Z-C units	FR0014005XM0	<u>Allocation of net profit:</u> Accumulation <u>Allocation of realised net capital gains:</u> Accumulation	Euro	2 unit(s)	1 thousandth of a unit	Strictly reserved for portfolios that are managed by the Amundi group management companies that are previously authorised.

- **Address from which the latest annual and interim reports may be obtained:**

The latest annual report and financial statements along with the breakdown of assets will be sent to unitholders within eight working days upon written request to:

Amundi Asset Management
Customer Services
91-93, Boulevard Pasteur - 75015 Paris, France

For additional information, please contact your usual advisor.

The AMF website (amf-france.org) contains further details on the list of regulatory documents and investor protection regulations.

II - SERVICE PROVIDERS

► Management Company:

Amundi Asset Management, a French simplified joint-stock company (société par actions simplifiée)
Portfolio Management Company operating under AMF approval no. GP 04000036
Registered office: 91-93, Boulevard Pasteur - 75015 Paris, France

► Depositary and Registrar:

CACEIS BANK, a French public limited company (Société Anonyme)
Registered office: 89-91 rue Gabriel Péri, 92120 Montrouge, Nanterre Trade and Companies Register (RCS) No. 692 024 722
Main business: Bank and investment services provider approved by CECEI on 01 April 2005.

With regard to regulatory duties and duties contractually entrusted by the Management Company, the Depositary's main tasks are the custody of the UCI's assets, ensuring that the Management Company's decisions are lawful and monitoring the UCI's cash flows.

The Depositary and Management Company are part of the same group; as such, in accordance with the applicable regulations, they have implemented a policy for identifying and preventing conflicts of interest. If a conflict of interest cannot be avoided, the Management Company and the Depositary shall take all necessary measures to manage, monitor and report this conflict of interest.

The description of the delegated custodial duties, the list of the Depositary's delegates and sub-delegates and information relating to conflicts of interest that may result from these delegations are available on its website at www.caceis.com or free of charge upon written request.

Updated information can be provided to unitholders on request.

► **Institution responsible for the centralisation of subscription and redemption orders appointed by the Management Company:**

CACEIS BANK, a French public limited company (Société Anonyme)
Registered office: 89-91 rue Gabriel Péri, 92120 Montrouge, Nanterre Trade and Companies Register (RCS) No. 692 024 722
Main business: Bank and investment services provider approved by CECEI on 01 April 2005.

The Depositary is also responsible, by delegation of the Management Company, for the UCI's liability accounting, which covers the clearing of subscription and redemption orders for units and managing the unit issue account.

► **Statutory Auditor:**

Deloitte & Associés
Represented by Stéphane Collas
6, place de la Pyramide
92908 Paris-la-Défense Cedex, France

► **Promoters:**

Crédit Agricole Group, the branch office network of the Regional Banks of Crédit Agricole and branches of LCL - Le Crédit Lyonnais in France

The list of promoters is not exhaustive, due mainly to the fact that the UCI is listed on Euroclear. Accordingly, some promoters may not be appointed by or known to the Management Company.

► **Delegated accounting manager:**

CACEIS Fund Administration, Société Anonyme
Registered office: 89-91 rue Gabriel Péri, 92120 Montrouge
CACEIS Fund Administration is a company of the Crédit Agricole Group specialising in the administrative and accounting management of UCIs on behalf of clients inside and outside the Group. CACEIS Fund Administration has accordingly been appointed by Amundi Asset Management as Delegated Accounting Manager for the valuation and accounting of the UCI.

III - OPERATING AND MANAGEMENT ARRANGEMENTS

1. General features

► **Characteristics of units:**

• **Nature of the right attached to the unit class:**

Each unitholder is entitled to joint-ownership of the Fund's assets proportional to the number of units held.

• **Entry in a register or clarification of liability accounting methods:**

In terms of the Fund's liability accounting, the depositary centralises the subscription and redemption orders and operates the unit issuer's account in collaboration with Euroclear France, the company with which the Fund is listed.

Administered registered shares are entered in the liabilities manager's register.

• **Voting rights:**

No voting rights are attached to the units; decisions are made by the Management Company. Note: investors will be notified of changes to the Fund's operating arrangements either individually, through the press or by any other means in accordance with current regulations.

- **Form of units:**

Registered or bearer

- **Decimalisation:**

BdF-D units may be subscribed in thousandths of units, provided that the minimum subscription amounts have been respected. Redemptions are made in thousandths of units.

E-C units may be subscribed in thousandths of shares, provided that the minimum subscription amounts have been respected. Redemptions are made in thousandths of units.

I2-C units may be subscribed in thousandths of units, provided that the minimum subscription amounts have been respected. Redemptions are made in thousandths of units.

IC-C units may be subscribed in thousandths of units, provided that the minimum subscription amounts have been respected. Redemptions are made in thousandths of units.

M-C units may be subscribed in thousandths of units, provided that the minimum subscription amounts have been respected. Redemptions are made in thousandths of units.

P-C units may be subscribed in thousandths of units, provided that the minimum subscription amounts have been respected. Redemptions are made in thousandths of units.

R-C units may be subscribed in thousandths of units, provided that the minimum subscription amounts have been respected. Redemptions are made in thousandths of units.

R1-C units may be subscribed in thousandths of units, provided that the minimum subscription amounts have been respected. Redemptions are made in thousandths of units.

S-C units may be subscribed in thousandths of units, provided that the minimum subscription amounts have been respected. Redemptions are made in thousandths of units.

Z-C units may be subscribed in thousandths of units, provided that the minimum subscription amounts have been respected. Redemptions are made in thousandths of units.

▶ **Financial year end:** last trading day in August

▶ **First financial year end:** last trading day of March 2007

▶ **Accounting currency:** Euro

▶ **Tax treatment:**

The UCI, by its nature, is not subject to taxation. However, unitholders may be taxed on any income distributed by the UCI or, as applicable, when they sell UCI units. The tax regime applicable to amounts distributed by the UCI or to unrealised or realised capital gains or losses will depend on the individual unitholder's tax situation, residence for tax purposes and/or the investment jurisdiction of the UCI.

Investors who have questions about their tax situation should consult a financial advisor or a professional investment consultant. Some income distributed by the UCI to unitholders residing outside France may be subject to withholding tax in France.

US tax considerations

The Foreign Account Tax Compliance Act (FATCA), which is part of the US Hiring Incentives to Restore Employment Act (HIRE), requires that non-US financial institutions (foreign financial institutions, or FFIs) report to the IRS (the US tax authorities) any financial information relating to assets held by US taxpayers⁽¹⁾ residing outside the United States.

In accordance with FATCA regulations, US securities held by any financial institution that does not adhere to or is considered to be non-compliant with the FATCA law will be subject to a withholding tax of 30% on (i) certain income generated from US sources; and (ii) the gross proceeds from the sale or disposal of US assets.

1 According to the US Internal Revenue Code, the term "US Person" means an individual who is a US citizen or resident, a partnership or corporation established in the United States or under the laws of the United States or any State thereof, or a trust if (i) a court within the United States has authority under applicable law to hand down orders or judgments concerning substantially all issues regarding the administration of the trust; and if (ii) one or more US Persons have authority to control all substantive decisions of the trust, or of an estate of a deceased person who was a citizen or resident of the United States.

The UCI falls within the scope of FATCA and, as such, unitholders may be asked to provide certain mandatory information.

The United States has entered into an intergovernmental agreement with several governments in order to implement the FATCA law. In this context, the French and US governments have signed an intergovernmental agreement (IGA).

The UCI complies with the IGA Model 1 agreement between France and the United States of America. It is not anticipated that the UCI (or any sub-fund) will be subject to a FATCA withholding tax.

The FATCA law requires that the UCI collect certain information about the identity (including ownership, holding and distribution details) of account holders who are US tax residents, entities that control US tax residents, and non-US tax residents who do not comply with the FATCA provisions or who fail to provide any of the accurate, complete and precise information required under the intergovernmental agreement (IGA).

For this purpose, all potential unitholders agree to provide the UCI, its delegated entity or the promoter with any information requested (including, but not limited to, their Global Intermediary Identification Number, or GIIN).

In the event of any change in circumstances impacting their FATCA status or their GIIN, potential unitholders shall immediately provide written notice to the UCI, its delegated entity or the promoter.

In accordance with the IGA, this information should be communicated to the French tax authorities, who may in turn share it with the IRS or with other tax authorities.

Investors who fail to document their FATCA status properly, or who refuse to report their FATCA status or to disclose the required information within the prescribed deadline, may be qualified as recalcitrant and be reported to the relevant tax or government authorities by the UCI or their Management Company.

In order to avoid the potential impacts of the foreign passthru payment mechanism and to prevent any withholding on such payments, the UCI or its delegated entity reserves the right to prohibit any subscription to the UCI or the sale of units or shares to any non-participating FFI (NPFFI),⁽¹⁾ particularly when such a prohibition is considered legitimate and justified for the protection of the general interests of investors in the UCI.

The UCI and its legal representative, the UCI's Depository and the transfer agent reserve the right, on a discretionary basis, to prevent or remediate the acquisition and/or direct or indirect holding of units or shares in the UCI by any investor who is in breach of the applicable laws and regulations, or where the latter's involvement in the UCI may have detrimental consequences for the UCI or for other investors, including, but not limited to, FATCA sanctions.

To this end, the UCI may reject any subscription or require the mandatory redemption of units or shares in the UCI in accordance with the provisions set out in the regulations or Articles of Association of the UCI⁽²⁾.

The FATCA law is relatively new and its implementation is ongoing. Although the above information summarises the Management Company's current understanding, this understanding may be incorrect, or the way in which FATCA is implemented could change such that some or all investors are subject to the 30% withholding tax.

The provisions herein are not a complete analysis of all the tax rules and considerations and are not tax-related advice, and they shall not be considered as a complete list of all the potential tax-related risks inherent in subscribing to or holding Fund units. All investors should consult their usual advisors regarding the tax aspects and potential consequences of subscribing, holding or redeeming units or equities by virtue of the laws applicable to such investors and, in particular, by virtue of the rules of disclosure or withholding under FATCA concerning investors in the UCI.

Automatic Exchange of Information (CRS regulations):

France has signed multilateral agreements on the automatic exchange of information relating to financial accounts, based on the Common

1 NPFFI or non-participating FFI = a financial institution that refuses to comply with FATCA either by refusing to sign a contract with the IRS or by refusing to identify its clients or report to the authorities.

2 This may also apply to any person (i) who seems to be directly or indirectly in violation of the laws and regulations of any country or any government authority; or (ii) who may, in the opinion of the Fund's Management Company, cause damage to the Fund that it would not have otherwise suffered or incurred.

Reporting Standard (CRS) (“Norme Commune de Déclaration” or NCD in France) as adopted by the Organisation for Economic Co-operation and Development (OECD).

Under the CRS law, the UCI or the Management Company must provide the local tax authorities with certain information about non-resident shareholders in France. This information is then communicated to the relevant tax authorities.

The information communicated to the tax authorities includes details such as name, address, tax identification number (NIF), date of birth, place of birth (if it appears in the records of the financial institution), account number, account balance or, if applicable, account value at the end of the year and the payments recorded on the account during the calendar year.

Each investor agrees to provide the UCI, the Management Company or their distributors with the information and documentation required by law (including, but not limited to, their self-certification) as well as any additional documentation that may reasonably be required in order to comply with their reporting obligations under the CRS.

Further information on the CRS is available on the OECD website and the websites of the tax authorities in the agreement signatory states.

Any unitholder who does not respond to requests for information or documents by the UCI: (i) may be held liable for penalties imposed on the UCI that are attributable to the failure of the shareholder to provide the requested documentation, or attributable to the shareholder providing incomplete or incorrect documentation; and (ii) will be reported to the relevant tax authorities for having failed to provide the necessary information for the identification of their tax residence and their tax identification number.

2. Special provisions

► ISIN code:

BdF-D units	E-C unit:	I2-C units	IC-C units	M-C units	P-C units	R-C units	R1-C units	S - C units	Z-C units
FR0014004T R0	FR00117999 15	FR00130953 12	FR00102516 60	FR00132211 99	FR00116305 57	FR00132975 61	FR0014005U 84	FR00135186 10	FR0014005X M0

► **Classification:** Money market UCI with a standard variable net asset value

► Investment objective:

The Fund's investment objective is to outperform the compounded €STR, the representative index of the money-market rate in the Eurozone, after deducting ongoing charges, whilst incorporating ESG criteria into the Fund's security analysis and selection criteria. However, during periods of negative returns on the money market, the Fund's return may be negatively affected. Furthermore, after deducting ongoing charges, the Fund may underperform the compounded €STR.

► Benchmark index:

The benchmark indicator is the capitalised €STR.

The €STR (Euro Short-Term Rate) represents the overnight euro money-market rate. It is calculated by the European Central Bank and represents the risk-free rate for the eurozone.

The capitalised €STR also takes into account the impact of the reinvestment of interest using the OIS (Overnight Indexed Swap) method.

Benchmark index applicable to the Fund's investment objective:

The administrator of the benchmark index is the ECB (European Central Bank). As a central bank, this administrator benefits from the exemption under Article 2.2 of the benchmark regulation and, as such, does not need to be registered in the ESMA register.

Further information on the benchmark index is available on the website of the benchmark administrator:

https://www.ecb.europa.eu/stats/financial_markets_and_interest_rates/euro_short-term_rate/html/index.en.html

The reference benchmark does not evaluate or include its components according to these environmental and/or social characteristics and is therefore not aligned with the ESG characteristics promoted in the portfolio.

Pursuant to Regulation (EU) 2016/1011 of the European Parliament and of the Council of 08 June 2016, the Management Company has

put in place a procedure for monitoring the benchmark indices used, which sets out the action to be taken in the event that a benchmark materially changes or ceases to be provided.

► Investment strategy:

1. Strategies used

The UCI qualifies as an Article 8 financial product under Regulation (EU) 2019/2088 on sustainability-related disclosures in the financial services sector (the “Disclosure Regulation”). Information on environmental and social characteristics can be found in the appendix to this prospectus.

The principal adverse impacts of investment decisions (within the meaning of Regulation (EU) 2019/2088 on sustainability-related disclosures in the financial services sector (the “Disclosure Regulation”)) are the negative, material or likely-to-be-material effects on sustainability factors that are caused or aggravated by or directly linked to investment decisions. Annex I of the Delegated Regulation supplementing the Disclosure Regulation lists the indicators of the principal adverse impacts.

The mandatory principal adverse impacts of Annex I of the Delegated Regulation are taken into account in the investment strategy through a combination of exclusions (normative and sector-based), integration of the ESG rating into the investment process, engagement and voting.

More detailed information on the principal adverse impacts can be found in the Management Company’s Sustainable Finance Disclosure Statement available on its website:

www.amundi.com.

The Fund comprises high-quality money market instruments and derivatives. It is in line with the principles of Socially Responsible Investment (SRI).

To select eligible stocks within the investment universe, the management team relies on a credit analysis combined with a non-financial analysis based on ESG (Environment, Social and Corporate Governance) criteria. The non-financial analysis process is used to assign an ESG rating ranging from A (best rating) to G (lowest rating).

Sequencing of the stages of the investment process

This investment process includes three successive steps:

- The first step is to monitor the investment universe in advance through a detailed analysis of the issuers. The internal process leads to a preliminary outline of the investment universe focusing on two main areas:

- o A system, notably defining the list of authorised instruments and limits by issuer and instrument type;
- o An eligible investment universe, notably comprising the issuers selected by the Management Company. This assessment is based on a specific appraisal performed by a credit analysis team working independently from the management, following an internal credit quality assessment procedure.

- The second stage involves integrating both financial constraints (regulatory ratios, internal credit assessment process) and non-financial constraints (ESG rating and exclusion) within these analyses.

- The third stage is the construction of the portfolio:

a) Analysis of asset liquidity and liquidity management: this is ensured by using various interest rate instruments available on the markets. The Fund includes assets of varying maturities which are adjusted based on inflows and outflows to ensure its liquidity.

b) Choice of a weighted average maturity: this reflects our forecasts on changes to the €STR and money-market yield curves. Euro fixed income and credit Managers establish together, during a monthly meeting attended by Amundi Asset Management’s strategists, forecasts for changes in interest rates and the European Central Bank’s monetary policy.

c) Selection of issues and the diversification of securities (bonds, negotiable debt securities) from public and private issuers. This selection is made based on compliance with various parameters:

- o studies carried out by the credit analysis team on behalf of the fixed income management team or other market financial institutions.
- o the management team’s assessment of the premium on the securities of this issuer to cover the credit and/or liquidity risk.
- o the more diversification a new issuer can bring to the portfolio, the more interest will be shown in its contribution. Diversification rules governing private issuers are systematically applied to investments according to securities’ rating and maturity.
- o each security held in the portfolio is subject to prior agreement by the Risk Department (which is independent of the Management Company) which defines maximum amounts and maturities for each issuer.
- o moreover, the analysis and stock-picking of securities meet socially responsible investment (SRI) principles which include extra-financial ESG (Environmental, Social and Governance) criteria, in addition to the traditional financial criteria described above.

d) Arbitrage: the Management Company systematically sources investment opportunities among money market instruments and bonds with yields in line with or outperforming the €STR depending on the type of instrument and the security's maturity. The managers rely on a proactive trading team to invest in an issuer or a security with selected counterparties.

e) Management of the portfolio's average ESG rating by optimising the issuers' ESG rating/return profile.

This internal process leads to a preliminary outline of the investment universe focusing on two main areas:

- A system, notably defining the list of authorised instruments and limits by issuer and instrument type;
- An eligible investment universe, notably comprising the issuers selected by the Management Company. This assessment is based on a specific appraisal performed by a credit analysis team working independently from the management, following an internal credit quality assessment procedure.

The Fund's investment strategy is based on the choice of negotiable debt security or bond issuers, which ensures the most regular increase in NAV possible. To this end, the management team selects securities with a maturity of less than 2 years. Fixed-rate securities with a maturity of more than 397 days will be covered by interest-rate risk hedging.

More particularly, the ceilings respected by this fund are as follows:

Weighted Average Maturity ⁽¹⁾ (WAM)	less than or equal to 6 months
Weighted Average Life ⁽²⁾ (WAL)	less than or equal to 12 months
1-day liquidity	more than 7.5% of net assets
7-day liquidity	more than 15% of net assets
Maximum residual life of securities and instruments	2 years Variable-rate money market instruments and fixed-rate money market instruments hedged by a swap are updated in relation to a money market rate or index.
Creditworthiness of instruments	To evaluate the creditworthiness of securities, at the time of their acquisition, the Management Company may rely, although not exclusively, on investment-grade ratings from recognised rating agencies that it deems most appropriate; however, the Management Company strives to avoid any automatic dependence on such ratings throughout the securities' holding period.

Non-financial analysis

1) Types of ESG criteria

- o *Private issuers*

1 WAM = it is used to measure the average term until the maturity of all assets held by the UCI, weighted to reflect the relative weight of each instrument, and considering the maturity of an adjustable-rate security as the remaining period before the next money-market rate revision rather than the remaining term until the initial principal repayments on the instrument. In practice, the WAM is used to measure the sensitivity of a monetary fund to changes in money market interest rates.

2 WAL = this is the weighted average residual life of each asset held by the UCI, i.e. the term left to run until the initial principal repayments on the security (without taking into account interest payments and reductions in the principal value). WAL is used to measure credit risk and liquidity risk.

The analysis of private issuers uses a framework of criteria based on regulations that have universal scope (Global Compact, International Labour Organization, Human Rights, ISO standards, etc.). This framework includes a set of generic criteria applicable to all issuers as well as criteria specific to each sector.

Among the generic criteria, we analyse in particular:

- energy consumption and greenhouse gas emissions, the protection of biodiversity and water, for the environmental aspect;
- human capital development, management of work and restructuring, health and safety, social dialogue, relations with clients and suppliers, local communities and respect for human rights, for the social aspect;
- independence of the Board, quality of audits and controls, remuneration policy, shareholders' rights, global ethics and ESG strategy, for the governance aspect.

Depending on the sector, additional assessments of specific criteria may be carried out with regard to environmental and social aspects, Examples include the production of renewable energy for energy suppliers, ecological vehicles and passenger safety for the automotive industry, or green finance and efforts made to promote greater access to financial services in the banking sector.

o *Public issuers*

The non-financial analysis of States aims to assess and compare the levels of integration of the three ESG criteria in institutional systems and public policies. It is based on around one hundred indicators, divided into 3 aspects: Compliance (e.g. ratification of international treaties), Action (public expenditure related to ESG policies) and Results (quantifiable and measurable).

In the context of socially responsible management (SRI management), the ESG analysis of the investment universe seeks to conduct a more comprehensive assessment of the sector-related opportunities and risks specific to each issuer.

2) ESG approach

To reconcile the search for performance with the development of socially responsible practices, ESG criteria are considered according to a combination of approaches: normative and sector-based exclusions, Best-in-Class and engagement.

1. The Fund applies the Amundi exclusion policy, which includes the following rules:

legal exclusions on controversial weaponry (anti-personnel mines, cluster bombs, chemical weapons, biological weapons and depleted uranium weapons, etc.);

companies that seriously and repeatedly contravene one or more of the ten principles of the Global Compact*, without credible corrective action;

Amundi's sector-based exclusions on Coal and Tobacco; (details of this policy are available in Amundi's Responsible Investment Policy available on www.amundi.fr).

* United Nations Global Compact (UN Global Compact): "The Global Compact calls on businesses to adopt, support and implement within their sphere of influence a set of core values in the areas of human rights, labour and environmental standards, and anti-corruption.

2. . Using a best-in-class approach, the Fund seeks to give priority to issuers that are sector-leading in terms of ESG criteria, as identified by the Management Company's team of non-financial analysts.

The Fund also applies the following ESG integration rules:

- exclusion of issuers rated F and G at the time of purchase; if an issuer's rating is downgraded to F while it is already in the portfolio, the manager will seek to sell the security in question. However, in the interest of holders, holding the securities until maturity is authorised if they cannot be sold under good conditions;

- a so-called "rating upgrade" approach: the weighted average ESG rating of the portfolio must be higher than the weighted average ESG rating of the investment universe of the Fund after elimination of the worst 20% of issuers;

- at least 90% of the securities in the portfolio are ESG rated.

Limit of the approach adopted

The best-in-class approach does not in principle exclude any business sector. All economic sectors are therefore represented with this approach and the UCI may thus be exposed to certain controversial sectors. To limit the potential non-financial risks of these sectors, the UCI also applies the Amundi exclusion policy for coal and tobacco (details of this policy can be found in the Amundi Responsible Investment Policy available on the website at www.amundi.fr) as well as the Group's commitment policy.

3. Finally, an active engagement policy is conducted to promote dialogue with issuers and support them in the improvement of their socially responsible practices. Engagement activity is conducted in four ways:

Ongoing engagement with companies with the objective of meeting with companies to better understand the ESG issues they face and to encourage companies to increase their consideration of ESG issues and adopt good practice.

Thematic engagement, which aims to better understand issues that are sometimes underestimated and to bring out good practices.

Collaborative engagement, which also mobilises other investors in order to achieve a stronger impact and increase the receptivity and

responsiveness of companies.

Pre-GM voting and dialogue, to build deeper relationships with companies, to initiate their thinking on ESG issues and to contribute to the improvement of their practices.

Internal credit quality assessment procedure

I) Description of the scope of the procedure

The Management Company has set up an internal credit quality assessment procedure for money market UCIs. Its purpose is to establish the principles and methodologies that will ensure that these UCIs invest in assets that have a positive evaluation with regard to credit quality.

The internal credit quality assessment procedure, which is conducted systematically and continuously for all Amundi Group money market management, establishes:

- the principles of prudence, suitability and relevance at all key stages affecting the investment cycle, and
- the analysis methodologies that determine not only the eligibility of purchase loans for the money market UCI, but also monitor the reported downgrading of invested credits in order to avoid keeping outstanding amounts of those likely to default.

II) Description of parties involved in the procedure

The Amundi Group Risk Committee and the Credit Risk Committee that stems from it are responsible for defining the risk policy applicable to all Amundi Group entities (risks taken on behalf of third parties and on their own account). In this context, the Amundi Group Risk Committee has full jurisdiction for the following:

- defining Amundi's policy on risks;
- determining the risk framework for each product or activity;
- approving the risk oversight for management strategies and investment processes;
- approving the methodologies for calculating risk indicators;
- approving credit limits;
- making decisions regarding the use of new financial instruments by the UCIs;
- reviewing the results of checks that are carried out;
- making the necessary decisions to resolve any anomalies detected.

The Group Risk Committee delegates the specific duties entrusted to it to several subcommittees.

The Credit Risk Committee therefore approves the limits per issuer for the UCIs overseen, and the sole-risk and counterparty limits for all UCIs in the Amundi Group. The decisions of the Credit Risk Committee are made by its Chair, based on discussions within the Committee, and are not subject to a vote.

The decisions of the Group Risk Committee and the Credit Risk Committee are enforced through the use of a maximum risk framework for each subsidiary of the Amundi Group, with the understanding that each subsidiary retains its full autonomy and independence to judge the appropriateness of these framework decisions, and can impose additional credit restrictions for money market UCIs, if deemed necessary by the heads and competent bodies defined by the governance of each subsidiary.

The Group Risk Committee and the Credit Risk Committee are chaired by the Deputy CEO in charge of the Business Support and Control Division and, in his or her absence, by the Chief Risk Officer. The other permanent members of the Group Risk Committee are the heads of the following business lines: Investment, Sales (Individual Clients, Institutional Clients), Operations, Services and Information Technology, and Control (Compliance, Audit and Risks, including the heads of the expertise, investment and operational Risk Divisions). The Credit Risk Committee also has permanent guests, these being the head of the credit risk analysis and risk oversight team and the team's analysts.

The Credit Risk Committee is convened every month and, if necessary, at any time on an ad hoc basis, and declares the terms of its approval.

III) Description of the methodology

At all key stages of the investment cycle, at the request of management, an independent credit analysis and credit management team linked to Amundi's Risk team implements the applicable methodologies:

- collection of information,
- analyses and assessments of credit quality, recommendation of the terms of investment (risk code, amount and maximum maturity limits) to the Credit Risk Committee for approval,
- monitoring of credit risks as approved by the Credit Risk Committee, including the supervision of downgrading credit and monitoring of alerts,
- management of cases exceeding the amount and duration limits.

Information used for analysis must be reliable and come from multiple sources:

- primary sources: annual reports and publications on issuers' websites, presentation and meeting notes from one-on-ones, roadshows or net roadshows with issuers,
- market sources: verbal and/or written presentations by rating agencies and/or sell-side analyses, public information published by the media.

The criteria used for analysis are:

- quantitative: published operational and financial data, which is analysed not only when accounts are closed, but also over time in order to evaluate trends, and is reprocessed, if necessary, in order to estimate the most representative profitability, solvency and liquidity ratios possible;
- qualitative: financial access, operations, strategy, management, governance and reputation, which are evaluated in relation to their coherence, credibility or sustainability in the short and medium term.

Based on the methodologies set out in the procedure to be applied, analyses must focus on profitability, solvency and liquidity, using analytical methods specific to the types of issuers and business sectors concerned (Corporate, Financial, Public Administration, etc.), and in accordance with their asset classes/instruments (non-rated, securitisations, covered, subordinated, etc.). Ultimately, they must make it possible to assess the short- and medium-term visibility in terms of the viability of the issuer, both from an intrinsic point of view and within the context in which it operates.

At the end of the analysis, the assessment is represented by a risk code, and the credit management is represented by a set of limits with regard to amount and maximum maturity, which the credit analysis and management team recommends to the Credit Risk Committee.

The risk code represents the credit quality on a scale from 1 (solid) to 6 (low) in terms of a medium- to long-term investment, with monitoring reports and alerts for actions on outstanding amounts in the event of downgrading. The minimum risk code level required for investment in a money market UCI is code 4. However, for very short-term investments (less than six months), credit at risk code 5 (which is at the upper end of the scale) may be exceptionally and selectively authorised.

The amount and maximum maturity limits are calculated taking into account the credit quality, issuer size and the percentage holding of the issuer's consolidated debt. In the event of an overrun, the procedure provided for this purpose is applied in order to remedy the situation:

- either by an immediate sale of excess outstanding amounts, reducing outstanding amounts to within the limits,
- or by a run off of the outstanding amounts, for which the overrun is then monitored, if justified,
- or by an increase in the limit absorbing the overrun, if justified (in particular, depending on the credit quality and the percentage holding of the issuer's total debt).

These decisions are recorded in writing in accordance with Article 7 of the Delegated Regulation (EU) 2018/990.

Individual credit entered into the universe of eligible investments is reviewed at least once a year, and as many times as required by events and/or developments impacting the assessment to be carried out on credit quality.

IV) The framework for reviewing methodology

The credit management methodologies for money market UCIs are reviewed and approved by the Risk Committee and Credit Risk Committee at least once a year and as often as necessary, with a view to adapting them to the current portfolio and external conditions in accordance with the regulatory provisions governing money market UCIs.

2. Description of the assets used (excluding derivatives)

The portfolio includes:

up to 100% of net assets:

- government securities in the form of repurchase agreements or short-term securities.
- Treasury notes or short-term bonds issued by the States
- London CDs
- Floating Rate Notes (FRN) and bonds
- Euro Medium Term Notes (EMTNs)
- Euro Commercial Paper
- US Commercial Paper
- Short-term and medium-term negotiable securities
- Asset-Backed Commercial Paper

Holding of shares or units of other UCIs

The Fund may hold up to 10% of its assets in shares or units of the following short-term and/or standard money market UCIs:

- French or European UCITS
- French or European Alternative Investment Funds (AIFs) that comply with the criteria defined by the French Monetary and Financial Code

These UCIs may invest up to 10% of their assets in UCITS or AIFs. They may be managed by the Management Company or an affiliated company. The risk profile of these UCIs is compatible with that of the Fund.

3. Derivatives used

The use of both hedges and options is an integral part of the investment process due to the advantages they offer in terms of liquidity and/or cost/efficiency ratios. They can be brought in quickly to replace bearer securities, specifically at times of substantial inflows or outflows arising from subscriptions/redemptions or in the case of special circumstances such as significant market fluctuations.

Information about the counterparties of the OTC derivative contracts:

Amundi AM relies on the expertise of Amundi Intermédiation in the context of providing services regarding the selection of counterparties. Amundi Intermédiation provides Amundi AM with an indicative list of counterparties, the eligibility of which is approved beforehand by the Amundi (Group) Credit Risk Committee, concerning the aspects of counterparty risk.

This list is then validated by Amundi AM during ad-hoc "Broker Committees". The purpose of the Broker Committees is to:

- monitor volumes (share broking and net amounts for other products) by intermediary/counterparty, instrument type and market, where applicable;
- express their opinion on the quality of the service provided by the Amundi Intermédiation trading desk;
- carry out a review of the brokers and counterparties, and draw up the list for the coming period. Amundi AM may decide to limit the list or ask to extend it. If Amundi AM proposes to extend the list of counterparties at a committee meeting or subsequently, the Amundi Credit Risk Committee must analyse and approve the list once again.

The Amundi AM Broker Committees are composed of the Investment Directors or their representatives, representatives of the Amundi Intermédiation trading desk, a Head of Operations, a Head of Risk Control and a Head of Compliance.

The manager may invest in the following derivatives:

- Type of markets:
 - regulated
 - organised
 - over-the-counter
- Risks which the manager wishes to address:
 - equity
 - fixed income
 - currency
 - credit
 - other risks
- Types of transactions and description of all operations that must be limited to the achievement of the investment objective:
 - hedging
 - exposure
 - arbitrage
 - other
- Type of instruments used:
 - futures: interest rate
 - options: interest rate

- currency and interest rate swaps
- forward foreign exchange contracts
- other

- Strategy for using derivatives to achieve the investment objective:

- derivatives are used as inexpensive, liquid substitutes for real securities to cover global portfolio exposure to interest rate risk.
- options on forward interest-rate markets consisting of call option positions are used to protect the portfolio against increases in interest rates. Commitments for this type of instrument will not exceed 10% of net assets.
- interest rate swaps are used to reduce the weighted average maturity to offset any changes in interest rates.
- Foreign-exchange swaps are used to hedge securities issued and denominated in a currency other than euro.

4. Embedded derivatives

- Risks which the manager wishes to address:

- equity
- fixed income
- currency
- credit

- Types of transactions and description of all operations that must be limited to the achievement of the investment objective:

- hedging
- exposure
- arbitrage

- Type of instruments used:

- Puttable bonds
- Callable bonds

- Strategy for using embedded derivatives to achieve the investment objective:

- hedging the overall portfolio, particular risks, particular securities
- constructing synthetic exposure to particular assets or particular risks;
- exposure to the credit market (callable and puttable bonds only)

5. Deposits

The UCITS can lodge deposits for a maximum 12-month period. These deposits contribute to achieving the investment objective of the UCITS by allowing it to manage cash flows. They are refundable on request or may be withdrawn at any time. Deposits are made by credit institutions with registered offices in a member state or, if their registered office is in a non-member country, they are subject to prudential rules considered equivalent to those set out in European Union law.

6. Cash borrowings

Cash borrowings are prohibited. However, in situations such as, for example, substantial redemptions or transactions credited to the account that are not settled for technical reasons, the Fund may exceptionally become a temporary debtor. The debtor situation will be resolved as promptly as possible and in line with the best interests of the unitholders.

7. Temporary purchases and sales of securities

- Types of transactions used:

- repurchase and reverse repurchase agreements with reference to the French Monetary and Financial Code
- lending and borrowing of securities with reference to the French Monetary and Financial Code: prohibited
- other

These transactions may be cancelled at any time with two working days' notice.

Repurchase transactions have a temporary maturity of a maximum of seven working days. These assets are held with the Depositary.

- Purpose of the transactions, which must be limited to the achievement of the investment objective:

- cash management
- optimisation of the UCITS' income
- other

- Possible leverage effects: n/a

- Fees: See Costs and Fees section

The Fund's commitments arising from temporary purchases or sales of securities must not exceed 100% of net assets.

The total commitment arising from derivatives, embedded derivatives and temporary acquisition and disposal of securities must not exceed 100% of net assets.

Total exposure to risks arising from these commitments and from open positions in real securities shall not exceed 100% of net assets.

Summary of proportions used:

<u>Types of transactions</u>	<u>Reverse repurchase agreements</u>	<u>Repurchase agreements</u>	<u>Securities lending</u>	<u>Securities borrowing</u>
<u>Maximum proportion of net assets</u>	100%	10%	Prohibited	Prohibited
<u>Expected proportion of net assets</u>	25%	1%	Prohibited	Prohibited

8- Information relating to collateral (temporary purchases and sales of securities and/or OTC derivatives):

Type of collateral:

In the context of temporary purchases and sales of securities and/or OTC derivative transactions, the UCITS may receive securities and cash as collateral.

Securities received as collateral must adhere to the criteria defined by the Management Company. They must be:

- liquid;
- transferable at any time;
- diversified in compliance with the eligibility, exposure and diversification rules of the UCI;
- issued by an issuer that is not an entity of the counterparty or its group.

For bonds, the securities will also be issued by high-quality issuers located in OECD countries with a minimum rating ranging from AAA to BBB- on the Standard & Poor's scale or with another rating deemed equivalent by the Management Company. Bonds must have a maximum maturity of 50 years.

The criteria described above are detailed in a Risk Policy available on the Management Company's website at www.amundi.com and may be subject to change, particularly in the event of exceptional market circumstances.

The discounts that may be applied to the collateral received will take into account the credit quality, the price volatility of the securities and the results of the stress tests performed.

Reuse of cash received as collateral:

Cash received as collateral, subject to a limit of 10% of the net assets, may be reinvested in deposits or securities issued or guaranteed by a public or parapublic entity of a member country of the European Union or an authorised non-member country, in accordance with the Risk Policy of the Management Company.

Reuse of securities received as collateral:

Not authorised: Securities received as collateral may not be sold, reinvested or provided as collateral.

► Risk profile:

Your money shall be invested primarily in financial instruments selected by the Management Company. These financial instruments are subject to market fluctuations.

The main risks related to this type of investment are:

Interest rate risk: The value of interest rate instruments may fall due to changes in interest rates. This is measured by the Weighted Average Maturity.

In periods when interest rates are rising, the net asset value may fall marginally.

The main specific management-related risks are:

credit risk: the risk of a fall in value of the securities of a private or public issuer or the default of the latter, which could lead to a fall in the net asset value.

Other risks are:

capital risk: investors are warned that their capital invested is not guaranteed and may not be recovered.

counterparty risk: the UCITS uses securities financing transactions and/or OTC derivatives transactions. These transactions, entered into with a counterparty, expose the UCITS to a risk of the counterparty defaulting and/or not executing the swap, which may have a significant impact on the UCITS' net asset value. This risk may not necessarily be offset by the collateral received.

liquidity risk linked to temporary purchases and sales of securities: the UCITS may be exposed to trading difficulties or a temporary inability to trade certain securities in which the UCITS invests or in those received as collateral, in the event of a counterparty defaulting on securities financing transactions.

legal risk: the use of temporary purchases and sales of securities may lead to a legal risk, particularly relating to contracts.

sustainability risk: the risk relating to an environmental, social or governance event or situation which, if it occurs, could have an actual or potential material adverse effect on the value of the investment.

► Target investors and typical investor profile:

The E-C unit is intended for legal entities and more particularly for investors seeking to outperform the euro money-market over a minimum investment term of more than one month.

The IC-C unit is intended for all investors and, more specifically, for institutional investors and distribution platforms.

The I2-C unit is intended for legal entities and, more specifically, major institutional investors.

The P-C unit is intended for all subscribers.

The M-C unit is intended for all subscribers, and more specifically for Italian institutional investors.

The R-C unit is strictly reserved for investors subscribing directly or via intermediaries providing portfolio management services under mandate and/or financial investment consultancy services that do not authorise them to retain retrocessions, either contractually or pursuant to the MiFID II regulation or national legislation.

The S-C unit is reserved for employee savings funds, funds or mandates dedicated to group retirement savings and feeder funds managed

by the Amundi management companies.

The Z-C unit is strictly reserved for portfolios that are managed by the Amundi group management companies and previously authorised.

The R1-C unit is reserved for German investors.

The BdF-D unit is strictly reserved for Banque de France clients.

The recommended investment period is more than 1 month.

The amount that is reasonable to invest in this UCITS depends on the personal situation of the investor. To determine this amount, investors should consider their personal assets, their current financial needs and the recommended investment period as well as their willingness to accept risks or their wish to invest cautiously. It is also highly recommended that investors sufficiently diversify their investments so as not to be exposed solely to the risks of this UCITS.

This Fund's units cannot be offered or sold directly or indirectly in the United States of America (including its territories and possessions) to the advantage of a U.S. Person as defined in U.S. "Regulation S" adopted by the Securities and Exchange Commission ("SEC").(*)⁽¹⁾

► **Date and frequency of NAV calculation:**

The NAV is established one calendar day before the centralisation of subscription and redemption orders

The Fund's net asset value on a given date is calculated based on the previous day's price. In the case of an exceptional market event, it may be recalculated in order to ensure that no market timing opportunities arise.

► **Subscription and redemption procedures:**

Subscription and redemption requests are cleared daily at 12:25 p.m. or at 15:00 p.m. for requests concerning feeder UCIs and Amundi Group FOFs only, with the exception of Sundays, French public holidays and/or EURONEXT (D) closing days. These requests are executed based on the net asset value established on D (including Sundays, public holidays and/or EURONEXT closing days) and calculated on D, with the exception of Sundays, public holidays and/or EURONEXT closing days when it is calculated on trading day D-1.

BdF units are closed to all new subscriptions as of 07 December 2021. However, coupon reinvestments in these units are still accepted.

Orders will be executed in accordance with the table below:

¹ The term "U.S. Person" means: (a) any individual residing in the United States of America; (b) any entity or company organised or incorporated under the laws of the United States; (c) any estate of which the executor or the administrator is a U.S. Person; (d) any trust of which any trustee is a U.S. Person; (e) any branch or subsidiary of a non-US entity located in the United States of America; (f) any non-discretionary account (other than an estate or trust) held by a financial intermediary or any other fiduciary organised, incorporated, or (if an individual) resident in the United States; (g) any discretionary account (other than an estate or trust) held by a financial intermediary or any other fiduciary organised, incorporated, or (if an individual) resident in the United States; and (h) any entity or company, if it is (i) organised or incorporated under the laws of any non-U.S. jurisdiction and (ii) formed by a U.S. Person principally for the purpose of investing in securities not registered under the U.S. Securities Act of 1933, as amended, unless it is organised or incorporated and owned by Accredited Investors (as defined in Rule 501(a) of the Act of 1933, as amended) who are not individuals, estates or trusts.

D	D	D: the net asset value calculation day	D	D	D
Clearing before 12.25 p.m. of subscription orders ¹	Clearing before 12.25 p.m. before 4.00 p.m. ¹	Execution of the order on D at the latest	Publication of the net asset value	Settlement of subscriptions ²	Settlement of redemptions ²

¹Unless a specific deadline is agreed with your financial institution.

²Depending on the particularities of certain registration constraints, the delays could be greater

The Fund's net asset value, on which subscription and redemption orders are executed, is calculated based on the previous day's price (D-1) and will be published from 12:25 on D. However, the net asset value may be recalculated up until the execution of orders, in order to take into account any exceptional market event occurring in the interim.

The persons wishing to acquire or subscribe units will be required to certify, at the time of any acquisition or subscription of units of the Fund, that they are not "U.S. Persons". Any unitholder who becomes a US Person must immediately notify the Fund's management company of the change.

- ▶ **Institutions authorised to receive subscriptions and redemptions by delegation of the Management Company: CACEIS BANK, the branch office network of the Regional Banks of Crédit Agricole and branches of LCL (Le Crédit Lyonnais) in France.**

Investors should note that orders sent to promoters other than the aforementioned institutions should take into account the fact that the cut-off time for clearing orders applies to those promoters with CACEIS Bank.

As a result, these promoters may apply their own deadline, earlier than the time mentioned above, to allow them to meet their order transmission deadline to CACEIS Bank.

- ▶ **Location and terms of publication or communication of net asset value:**

The UCITS' NAV is available on request from the Management Company and on its website: www.amundi.com.

- ▶ **Characteristics of units :**

- **Minimum amount of the initial subscription:**

BdF-D units: 1 unit(s)

E-C units: 1 unit(s)

I2-C units: 15,000 unit(s)

IC-C units: 10 unit(s)

M-C units: 10 unit(s)

P-C units: 1 thousandth of a unit

R-C units: 1 thousandth of a unit

R1-C units: 10 unit(s)

S-C units: 1 thousandth of a unit

Z-C units: 2 unit(s)

- **Minimum amount of a subsequent subscription:**

BdF-D units: 1 unit(s)

E-C units: 1 thousandth of a unit

I2-C units: 1 thousandth of a unit

IC-C units: 1 thousandth of a unit

M-C units: 1 thousandth of a unit

P-C units: 1 thousandth of a unit

R-C units: 1 thousandth of a unit

R1-C units: 1 thousandth of a unit

S-C units: 1 thousandth of a unit

Z-C units: 1 thousandth of a unit

- **Decimalisation:**

BdF-D units: Units may be subscribed in thousandths of units, provided that the minimum subscription amounts have been respected. Redemptions are made in thousandths of units.

E-C units: Units may be subscribed in thousandths of units, provided that the minimum subscription amounts have been respected. Redemptions are made in thousandths of units.

I2-C units: Units may be subscribed in thousandths of units, provided that the minimum subscription amounts have been respected. Redemptions are made in thousandths of units.

IC-C units: Units may be subscribed in thousandths of units, provided that the minimum subscription amounts have been respected. Redemptions are made in thousandths of units.

M-C units: Units may be subscribed in thousandths of units, provided that the minimum subscription amounts have been respected. Redemptions are made in thousandths of units.

P-C units: Units may be subscribed in thousandths of units, provided that the minimum subscription amounts have been respected. Redemptions are made in thousandths of units.

R-C units: Units may be subscribed in thousandths of units, provided that the minimum subscription amounts have been respected. Redemptions are made in thousandths of units.

R1-C units: Units may be subscribed in thousandths of units, provided that the minimum subscription amounts have been respected. Redemptions are made in thousandths of units.

S-C units: Units may be subscribed in thousandths of units, provided that the minimum subscription amounts have been respected. Redemptions are made in thousandths of units.

Z-C units: Units may be subscribed in thousandths of units, provided that the minimum subscription amounts have been respected. Redemptions are made in thousandths of units.

- **Initial net asset value:**

BdF-D units: EUR 100.00

E-C units: EUR 20,000.00

I2-C units: EUR 10,000.00

IC-C units: EUR 200,000.00

M-C units: EUR 200,000.00

P-C units: EUR 10,000.00

R-C units: EUR 10,000.00

R1-C units: EUR 1,000.00 (the net asset value was divided by 100 on 10 October 2023).

S-C units: EUR 1,000.00

Z-C units: EUR 1,000,000.00

- **Currency of units:**

BdF-D units: Euro

E-C units: Euro

I2-C units: Euro

IC-C units: Euro

M-C units: Euro

P-C units: Euro

R-C units: Euro

R1-C units: Euro

- **Allocation of realised net capital gains:**

BdF-D units: Accumulation and/or distribution at the discretion of the Management Company
E-C units: Accumulation
I2-C units: Accumulation
IC-C units: Accumulation
M-C units: Accumulation
P-C units: Accumulation
R-C units: Accumulation
R1-C units: Accumulation
S-C units: Accumulation
Z-C units: Accumulation

- **Distribution frequency**

BdF-D units : annual
E-C units: not applicable
I2-C units: not applicable
IC-C units: not applicable
M-C units: not applicable
P-C units: not applicable
R-C unit: not applicable
R1-C units: not applicable
S-C units: not applicable
Z-C units: not applicable

- ▶ **Costs and fees:**

- **Subscription and redemption fees:**

Subscription and redemption fees are levied by addition to the subscription price paid by the investor or subtraction from the redemption price. The fees charged by the UCI serve to offset the costs incurred by the UCI to invest and divest investors' monies. Fees not accruing to the UCITS, are allocated to the Management Company, the promoter, etc.

Fees paid by the investor, charged at subscription and redemption	Basis	Interest rates
Subscription fees not accruing to the UCI	Net asset value x Number of units	Bdf-D units: None
		E-C units: maximum 1.00%
		I2-C units: maximum 1.00%
		IC-C units: maximum 1.00%
		M-C units: maximum 1.00%
		P-C units: maximum 1.00%
		R-C units: maximum 1.00%
		R1-C units: None
		S-C units: maximum 10.00%
		Z-C units: maximum 3.00%
Subscription fees accruing to the UCI	Net asset value x Number of units	None
Redemption fees not accruing to the UCI	Net asset value x Number of units	Bdf-D units: None
		E-C units: None
		I2-C units: None
		IC-C units: None
		M-C units: None
		P-C units: None
		R-C units: None
		R1-C units: None
		S-C units: None
		Z-C units: maximum 3.00%
Redemption fees accruing to the UCI	Net asset value x Number of units	None

BdF units are closed to all new subscriptions as of 07 December 2021. However, coupon reinvestment is accepted within this unit.

- Administrative and management fees:

These fees cover all the charges invoiced directly to the UCI, excluding transaction charges.

Part of the management fee may be passed on to the promoters with whom the Management Company has entered into marketing agreements. These promoters may or may not belong to the same group as the Management Company. These fees are calculated on the basis of a percentage of the financial management fees and are invoiced to the Management Company.

Transaction costs include intermediary costs (brokerage, stock market taxes, etc.) as well as turnover fees, if any, that may be charged by the Depositary and the Management Company.

In addition to these fees, there may be:

- *performance fees. These reward the Management Company when the UCI exceeds its objectives. They are therefore charged to the UCI ;*
- *fees related to the temporary purchases and sales of securities.*

	Fees charged to the UCI	Basis	Rate structure
P1 — P2	Financial management fees <hr/> Operating fees and other services	Net assets	BdF-D units: 0.45% maximum, incl. taxes
			E-C units: 0.50% maximum, incl. taxes
			I2-C units: 0.50% maximum, incl. taxes
			IC-C units: 0.50% maximum, incl. taxes
			M-C units: 0.50% maximum, incl. taxes
			P-C units: 0.50% maximum, incl. taxes
			R-C units: 0.50% maximum, incl. taxes
			R1-C units: 0.50% maximum, incl. taxes
			S-C units: 0.10% maximum, incl. taxes
			Z-C units: 1.00% maximum, incl. taxes
P3	Maximum indirect fees (fees and management fees)	Net assets	Not significant
P4	Turnover fees Received by the Depositary ***** Charged by the Management Company on foreign exchange transactions and by Amundi Intermediation on any other instrument and transactions.	Deducted from each transaction or operation	Flat fee of between EUR 0 and EUR 113 inclusive of tax, depending on the stock market. ***** Fixed amount of €1 per contract (futures/options) + percentage fee ranging from 0% to 0.10% depending on the instrument (securities, currency etc.)
P5	Performance fees	Net assets	BdF-D units: None
			E-C units: Maximum 30.00% p.a. of the performance above that of the benchmark index, calculated using the 'reference assets' methodology
			I2-C units: Maximum 30.00% p.a. of the performance above that of the benchmark index, calculated using the 'reference assets' methodology
			IC-C units: Maximum 30.00% p.a. of the performance above that of the benchmark index, calculated using the 'reference assets' methodology
			M-C units: Maximum 30.00% p.a. of the performance above that of the benchmark index, calculated using the 'reference assets' methodology
			P-C units: Maximum 30.00% p.a. of the performance above that of the benchmark index, calculated using the 'reference assets' methodology
			R-C units: Maximum 30.00% p.a. of the performance above that of the benchmark index, calculated using the 'reference assets' methodology
			R1-C units: None
			S-C units: Maximum 30.00% p.a. of the performance above that of the benchmark index, calculated using the "reference assets" methodology.
			Z-C units: Maximum 30.00% p.a. of the performance above that of the benchmark index, calculated using the "reference assets" methodology.

The following costs may be added to the fees invoiced to the UCI, as listed above:

- exceptional legal costs associated with the recovery of the UCI's debts;
- costs related to fees payable by the Management Company to the AMF in connection with its management of the UCI.

Operating and management fees are charged directly to the UCI's Income Statement.

- Performance fee:

The calculation of the performance fee applies to each unit concerned and on each calculation date of the Net Asset Value. It is based on a comparison (hereinafter the "Comparison") between:

- The net assets of the unit (before deduction of the performance fee) and
- The reference assets (hereinafter the "Reference Assets"), which represent and replicate the net assets of the unit (before deduction of the performance fee) on the first day of the observation period, adjusted for subscriptions/redemptions at each valuation, to which the performance of the benchmark index (the compounded €STR) is applied.

As such, from 01 July 2022, the Comparison is performed over a maximum observation period of five years, for which the anniversary date corresponds to the calculation date of the last net asset value in June. All observation periods that begin on or after 01 July 2022 shall follow the new procedures below:

Over the unit's lifetime, a new maximum observation period of five years will begin:

- If the annual provision is paid on an anniversary date.
- If a cumulative underperformance is recorded at the end of a period of five years.

In this case, any underperformance in excess of five years will no longer be considered during the new observation period; conversely, any underperformance generated over the last five years will continue to be considered.

The performance fee shall represent 30% of the difference between the net assets of the unit (before deduction of the performance fee) and the Reference Assets, provided that the following cumulative conditions are met:

- This difference is positive.
- The relative performance of the unit against the Reference Assets since the start of the observation period, as defined above, is positive or zero.

Underperformance over the preceding five years must be offset before a provision can be recorded again.

This fee will be subject to a provision when the Net Asset Value is calculated.

For the current observation period, the rate of the performance fee is:

- 10% for E-C units;
- 10% for I2-C units;
- 10% for IC-C units;
- None for M-C units;
- 10% for P-C units;
- 10% for R-C units;
- 10% for S-C units;
- 10% for Z-C units.

For redemptions during the observation period, the apportioned share of the provision made, which corresponds to the number of units redeemed, accrues to the Management Company. This amount may be paid to the Management Company on each anniversary date.

If, during the observation period, the net assets of the unit (before deduction of the performance fee) are lower than the Reference Assets, the performance fee will be nil and will be subject to a provision reversal when the Net Asset Value is calculated. Provision reversals are capped at the level of previous allocations.

During the observation period, all provisions as defined above become payable to the Management Company on the anniversary date.

The Management Company will receive the performance fee even if the unit's performance over the observation period is negative, provided that the unit outperforms the Reference Assets.

The three examples below outline the conditions applicable to observation periods of five years:

In the case of unrecovered underperformance:

In the case of recovered underperformance:

In the case of unrecovered underperformance where a new observation period opens in a year of underperformance:

For more information, please refer to ESMA's guidelines on performance fees in UCITS (undertakings for collective investment in transferable securities) and certain types of AIFs (alternative investment funds), ref. 34-39-968, as amended, as well as the related Q&As published by ESMA.

Repurchase transactions:

In terms of repurchase transactions, Amundi Asset Management, a subsidiary of Amundi, has entrusted Amundi Intermédiation, in the context of service provision, on behalf of the UCI, with executing transactions, undertaking in particular:

- consultancy services related to selecting counterparties;
- market contracts set up requests;
- qualitative and quantitative monitoring of collateralisation (diversification, ratings, liquidity controls, etc.) of repurchase agreements.

Income from such transactions is returned to the UCI. These transactions generate costs that are paid by the UCI. Amundi Intermédiation may not charge more than 50% of the income generated by these transactions.

Such transactions carried out by Amundi Intermédiation, a company that is part of the same group as the Management Company, creates a potential conflict of interest.

Selection of intermediaries:

Policy for selecting counterparties of OTC derivative contracts or of temporary sales of securities

The management company implements a counterparty selection policy, especially when it enters into temporary purchases and sales of securities and certain derivatives.

Amundi Intermédiation presents Amundi Asset Management with an indicative list of counterparties whose eligibility has been previously validated by the Amundi Group's Credit Risk Committee, on the aspects of counterparty risk. This list is then validated by Amundi Asset Management during ad-hoc meetings of "Broker Committees". The purpose of the Broker Committees is to:

- monitor volumes (brokerage on equities and net amount for other products) by intermediary/counterparty, by type of instrument and by market if applicable;
- give an opinion on the quality of the trading desk service provided by Amundi Intermédiation;
- carry out a review of the brokers and counterparties, and to draw up the list for the coming period. Amundi Asset Management may decide to narrow down the list or ask to broaden it. Any proposal by Amundi Asset Management to broaden the list of counterparties, during a committee meeting or subsequently, is submitted again to Amundi's Credit Risk Committee for analysis and approval.

The Amundi Asset Management Broker Committees are composed of the Investment Directors or their representatives, representatives of the Amundi Intermédiation trading desk, a Head of Operations, a Head of Risk Control and a Head of Compliance.

The assessment of counterparties to justify their inclusion in the Amundi Intermédiation shortlist involves several teams giving their opinion based on different criteria:

- counterparty risk: the Amundi Credit Risk team, under the supervision of the Amundi Group's Credit Risk Committee, is responsible for assessing each counterparty on the basis of specific criteria (ownership structure, financial profile, governance etc.);
- quality of order execution: the operational teams in charge of order execution within the Amundi Group assess execution quality based on a series of elements depending on the type of instrument and the markets concerned (quality of trading information, prices obtained, settlement quality);
- quality of post-execution processing.

The selection is based on the principle of selectivity of the best counterparties in the market and aims to select a limited number of financial institutions. The vast majority chosen are financial institutions from an OECD country with a minimum rating of AAA to BBB- on the Standard&Poor's rating scale at the time the transaction is set up, or with a rating deemed equivalent by the management company.

Broker selection policy

At Broker Committee meetings, the Management Company also draws up a list of approved brokers based on recommendations from Amundi Intermédiation. The Management Company may extend or adjust this list, as necessary, in accordance with pre-determined selection criteria.

The selected brokers will be monitored regularly in accordance with the Management Company's Performance Policy.

The assessment of brokers to justify their inclusion in the Amundi Intermédiation shortlist involves several teams giving their opinion based on different criteria:

- the pool is limited to brokers offering delivery versus payment as a transaction settlement method or cleared/listed derivatives;
- quality of order execution: the operational teams in charge of order execution within the Amundi Group assess execution quality based on a series of elements depending on the type of instrument and the markets concerned (quality of trading information, prices obtained, settlement quality);
- quality of post-execution processing.

Commission in kind: the Management Company does not receive any commission in kind.

IV – COMMERCIAL INFORMATION

Circulation of Fund information:

The prospectus, the latest annual report and interim statements are available from the Management Company:

Amundi Asset Management

Customer Services

91-93, Boulevard Pasteur - 75015 Paris, France

The UCI's NAV is available on request from the Management Company and on its website: www.amundi.com

Unitholders are informed of any changes affecting the UCI in accordance with the procedures defined by the French Market Regulator (AMF): individual information or by any other method (financial notice, interim report etc.).

Financial notices may be published in the press and/or on the Management Company's website: www.amundi.com in the News-and-documentation/Financial-Notices section.

Disclosure of the UCI portfolio composition:

The Management Company may disclose, directly or indirectly, the composition of the UCI's assets to unitholders of the UCI who qualify as professional investors governed by the Autorité de contrôle prudentiel et de résolution (French Prudential Supervision and Resolution Authority — ACPR), the Autorité des marchés financiers (French Financial Markets Authority — AMF) or equivalent European authorities, solely for the purposes of calculating the regulatory requirements related to the Solvency II directive. If applicable, this information must be disclosed once more than 48 hours has passed since the publication of the net asset value.

Compliance of the Fund with the criteria relative to the Environmental, Social and Governance (ESG) objectives methods:

The Management Company provides investors, on its website www.amundi.com and in the annual report of the Fund (for financial years starting on or after 01 January 2012), with information on how the ESG criteria are taken into account in the Fund's investment policy.

Regulation (EU) 2019/2088 on sustainabilityrelated disclosures in the financial services sector (the "Disclosures Regulation")

As a financial market participant, the management company of the UCI is governed by Regulation (EU) 2019/2088 of 27 November 2019 on sustainabilityrelated disclosures in the financial services sector (the "Disclosures Regulation").

This Regulation lays down harmonised rules for financial market participants on transparency with regard to the integration of sustainability risks (Article 6 of the Regulation), the consideration of negative sustainability impacts, the promotion of environmental or social characteristics in the investment process (Article 8 of the Regulation) and sustainable investment objectives (Article 9 of the Regulation).

Sustainability risk is defined as an environmental, social or governance event or condition that, if it occurs, could cause an actual or a potential negative material impact on the value of the investment.

Sustainable investment means an investment in an economic activity that contributes to an environmental objective, as measured, for example, by key resource efficiency indicators on the use of energy, renewable energy, raw materials, water and land, on the production of waste, and greenhouse gas emissions, or on its impact on biodiversity and the circular economy; or an investment in an economic activity that contributes to a social objective, in particular an investment that contributes to tackling inequality or that fosters social cohesion, social integration and labour relations; or an investment in human capital or economically or socially disadvantaged communities, provided that such investments do not significantly harm any of those objectives and that the investee companies follow good governance practices, in particular with respect to sound management structures, employee relations, staff remuneration and tax compliance.

Regulation (EU) 2020/852 (the so-called "Taxonomy Regulation") on establishing a framework to support sustainable investment and amending the Disclosure Regulation.

The Taxonomy aims to identify economic activities that are considered environmentally sustainable. The Taxonomy identifies these activities according to their contribution to six broad environmental objectives: (i) climate change mitigation, (ii) climate change adaptation, (iii) sustainable use and protection of water and marine resources, (iv) transition to the circular economy (waste, prevention and recycling), (v) pollution prevention and control, (vi) protection of healthy ecosystems.

For the purpose of establishing the environmental sustainability of an investment, an economic activity is considered environmentally

sustainable if it makes a substantial contribution to one or more of the six environmental objectives, does not significantly harm one or more of the environmental objectives ("do no significant harm" or "DNSH" principle), is carried out in accordance with the minimum safeguards set out in Article 18 of the Taxonomy Regulation, and complies with the technical review criteria that have been established by the European Commission under the Taxonomy Regulation.

In accordance with the current state of the Taxonomy Regulation, the Management Company currently ensures that investments do not significantly undermine any other environmental objective by implementing exclusionary policies in relation to issuers with controversial environmental and/or social and/or governance practices.

Notwithstanding the above, the "do no significant harm" principle only applies to those investments underlying the UCI that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining part of this UCI do not take into account the EU criteria for environmentally sustainable economic activities.

V – INVESTMENT RULES

The UCI adheres to the investment rules laid down by the French Monetary and Financial Code that are applicable to its category.

The UCI may invest up to 100% of its net assets in money market instruments issued or guaranteed individually or jointly by the following public or para-public entities only: the European Union; national, regional or local authorities of the member states or their central banks; the European Central Bank; the European Investment Bank; the European Investment Fund; the European Stability Mechanism; the European Financial Stability Facility; the central authorities or central banks of the OECD countries, as well as China, Hong Kong and Singapore; the International Monetary Fund; the International Bank for Reconstruction and Development; the Council of Europe Development Bank; the European Bank for Reconstruction and Development; the Bank for International Settlements, or international financial institutions or organisations to which one or more member states belong (the Asian Investment Infrastructure Bank, African Development Bank, Asian Development Bank, Inter-American Development Bank, Andean Development Corporation and International Financial Corporation).

VI – GLOBAL RISK

Global risk ratio calculation method:

Commitment

VII - ASSET VALUATION AND ACCOUNTING RULES

Principle

General accounting conventions are applied in compliance with the following principles:

- continuity of operations,
- consistency of accounting methods from one year to the next,
- independence of financial years.

The method for recognising assets in the accounts is the historic cost method, except for portfolio valuation.

Asset valuation rules

The net asset value of the units is calculated taking into account the following valuation rules:

- Transferable securities traded in a regulated market (French or foreign), are valued at market price. Market price valuation is carried out under conditions specified by the Management Company. Transferable securities contributed to or held by the UCI are valued at the market price of the reference rate selected.

Differences between the reference rate used to recalculate the NAV and the historic costs of the transferable securities in the portfolio are recognised in an account entitled 'Estimation differences'.

- Treasury bills and commercial paper are valued at market price;
- Negotiable debt securities with a maturity of greater than or equal to one year are valued at market price;
- Negotiable debt securities with a maturity of less than or equal to one year are valued using the following model: updating the future cash flows, based on a reference rate, plus, where appropriate, a differential representing the specific characteristics of the issuer of the security or of a population of issuers that are similar in terms of credit quality, sector and/or geographical location.
- UCI units or shares are valued on the basis of the last officially published net asset value.
- Transferable securities for which a price has not been recorded as of the valuation date or for which the price has been corrected are valued at their probable trading value, as estimated by the Management Company. The Statutory Auditor is informed of these valuations and their justification when conducting audits.
- Securities not traded in a regulated market are valued by the Management Company at their probable trading value. Their valuation is based on their assets and yield, taking into account the prices used in recent major transactions. Investment fund units or shares are valued at the last known net asset value or, if necessary, based on available estimates under the control and responsibility of the Management Company.
- Cash, deposits and financial instruments held in the portfolio and denominated in foreign currencies are converted into the accounting currency of the UCI using the exchange rate on the valuation date.
- Transferable securities, which are covered by a temporary disposal or acquisition contract, are valued in accordance with the legislation in force, and the methods for application are determined by the Management Company.

Securities received under repurchase agreements are recorded in the buy portfolio under the heading “Debt representing securities received as part of repurchase agreements” at the amount stated in the contracts, plus any interest receivable. Securities lent under repurchase agreements are posted in long portfolios at their stock market price. Interest receivable and payable for repurchase transactions is calculated pro rata. Liabilities representing securities lent under repurchase agreements are posted in short portfolios at the value set forth in the agreement, plus any accrued interest due. On settlement, the interest received and paid is shown as debt revenues.

- Transactions on firm forward financial agreements or options traded in organised markets (French or foreign) are valued at market value according to procedures specified by the Management Company. Contracts on forward markets are valued at the settlement price.

Valuation of collateral:

Collateral is valued daily at market price (mark-to-market method).

The discounts that may be applied to the collateral received will take into account the credit quality, the price volatility of the securities and the results of the stress tests performed.

Margin calls are made daily, unless otherwise stipulated in the framework contract covering these transactions or if the Management Company and the counterparty have agreed to apply a trigger threshold.

- - Futures, options or swap transactions on OTC markets as authorised under the laws and regulations governing UCIs are valued at market value or at an estimated value under arrangements specified by the Management Company. Interest rate and/or currency swap contracts are valued at their market value based on the price calculated by discounting future cash flows (principal and interest), at the market interest rates and/or currency rates. This price is adjusted for credit risk.

Recognition method

Securities entering and leaving the portfolio are recognised excluding costs.

Revenues are accounted for using the accrued revenue method.

Revenues consist of:

- income from transferable securities,
- dividends and interest received on foreign securities, at the foreign currency rate,
- remuneration from cash assets in foreign currencies, revenues from securities repurchase agreements and other investments.

The following deductions are made from these revenues:

- management fees,
- financial expenses and charges on other investments.

Off-balance sheet commitments

Futures contracts are entered at their market value as off-balance sheet commitments at the settlement price. Options are converted into their underlying equivalent. OTC interest rate swaps are valued on the basis of the nominal value, plus or minus the corresponding estimation difference.

Income accruals account

Income accrual accounts ensure fair allocation of income among unitholders, regardless of the subscription or redemption date.

VIII - REMUNERATION

The Management Company has adopted the remuneration policy of the Amundi Group, to which it belongs.

The Amundi Group has implemented a remuneration policy adapted to its organisation and its activities. This policy is designed to regulate practices regarding the different remunerations of employees authorised to make decisions, exercise control functions or take risks within the Group.

This remuneration policy has been defined with regard to the Group's economic strategy, objectives, securities and interests, to the management companies which are part of the Group, to the UCIs managed by the Group's companies and their unitholders. The objective of this policy is to discourage excessive risk-taking by specifically running contrary to the risk profile of the UCIs' managed.

Furthermore, the Management Company has implemented suitable measures in order to prevent conflicts of interest.

The remuneration policy is adopted and overseen by the Board of Directors of Amundi, the parent company of the Amundi Group.

The remuneration policy is available on the website www.amundi.com or free of charge on written request from the Management Company.

Prospectus updated on: 10 October 2023

Pre-contractual disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name:
AMUNDI ACTIONS USA ISR

Legal entity identifier:
969500BDZ40WMMH5QA64

Environmental and/or social characteristics

Does this financial product have a sustainable investment objective?

Yes

X

No

It will make a minimum of **sustainable investments with an environmental objective:**

_____ %

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It will make a minimum of **sustainable investments with a social objective:** _____ %

It **promotes Environmental/Social (E/S) characteristics** and while it does not have as its objective a sustainable investment, it will have a minimum proportion of 25 % of sustainable investments

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

It promotes E/S characteristics, but **will not make any sustainable investments**

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

What environmental and/or social characteristics are promoted by this financial product?

The management team incorporates sustainability factors into its investment process by taking into account the ESG rating of issuers in the portfolio composition.

The ESG analysis of issuers seeks to assess their ability to manage the potential adverse impact of their activities on sustainability factors. The aim of the analysis is to evaluate their ESG performance by assigning them an ESG rating ranging from A (best rating) to G (worst rating), so that a broader risk assessment may be carried out.

This analysis includes a set of generic criteria applicable to all issuers as well as criteria specific to each sector, based on a "best-in-class" approach.

The upstream ESG analysis methodology and the consideration of the overall ESG rating in the portfolio composition (by excluding the worst-rated issuers and focusing on those with

the best ratings) ensures that these three aspects (environmental, social and governance) remain in the spotlight.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

● ***What sustainability indicators are used to measure the attainment of each of the environmental or social characteristics promoted by this financial product?***

The sustainability indicator is the average ESG rating of the portfolio, which must be higher than the ESG rating of the investment universe (the average rating of the investment universe being calculated after eliminating at least 20% of the worst-rated issuers).

Amundi has developed its own internal ESG rating process based on the "best-in-class" approach. Ratings are adapted to each sector in order to assess the dynamics in which the companies operate.

Amundi's seven ESG ratings used to determine the ESG score range from A (the best score in the investment universe) to G (the worst score). On the Amundi ESG rating scale, securities on the exclusion list are rated G. For corporate issuers, ESG performance is broadly assessed according to the relevant criteria by comparison with the average performance for their business sector, by combining the three ESG aspects:

- the environmental aspect: this examines the issuer's ability to mitigate its direct and indirect impact on the environment by limiting its energy consumption, reducing its greenhouse gas emissions, combating resource depletion and protecting biodiversity;
- the social aspect: this measures how an issuer operates on the basis of two distinct concepts: the issuer's strategy for developing its human capital and its respect for human rights in general;
- the governance aspect: this assesses the issuer's ability to lay the foundations for an effective corporate governance framework and to generate value over the long term.

The ESG rating methodology applied by Amundi is based on 38 criteria that are either generic (common to all companies regardless of their line of business) or sector specific, weighted by sector and considered in terms of their impact on reputation, operational efficiency and regulations in respect of an issuer. Amundi's ESG ratings may be expressed globally based on the three E, S and G aspects or individually based on any of the environmental or social factors.

● ***What are the objectives of the sustainable investments that the financial product partially intends to make and how does the sustainable investment contribute to such objectives?***

The objective of sustainable investments at Amundi is to invest in companies and/or economic players with business models and activities that contribute to supporting positive environmental or social objectives, by meeting two criteria:

1. They follow good environmental and social practices; and
2. They do not produce products or provide services that are harmful to the environment or society.

For a company and/or economic player to be deemed to contribute to the above objective, it must be the "best" in its business sector for at least one of its material environmental or social factors.

The definition "best" is based on Amundi's proprietary ESG methodology, which seeks to measure a company's ESG performance. To be considered the "best", a company must be scored the highest among the top three ratings (A, B or C, on a rating scale from A to G) in its sector for at least one major environmental or social factor. Major environmental and social factors are identified at the sector level. The identification of major factors is based on Amundi's ESG analysis framework, which combines non-financial data and a qualitative analysis of the associated sector-based and sustainability themes. Factors identified as major account for more than 10% of the overall ESG score. For the health sector for example, these major factors are: emissions and energy, biodiversity and pollution, working conditions, product and customer responsibility, and community engagement and human rights. For a more complete overview of the sectors and factors, please refer to Amundi's ESG Regulatory Statement available at www.amundi.fr.

The sustainability of an investment is assessed at company level. To be deemed a sustainable investment, a company must meet the above objectives and must not have significant exposure to activities that are considered to be incompatible with the long-term sustainable development goals (i.e. production and distribution of carbon-intensive energy, tobacco, weapons, gambling, coal, aviation, meat production, fertiliser and pesticide production, manufacture of single-use plastics).

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● ***How do the sustainable investments that the financial product partially intends to make, not cause significant harm to any environmental or social sustainable investment objective?***

To ensure that sustainable investments do not cause significant harm ("do no significant harm" or "DNSH"), Amundi uses two filters:

- The first DNSH filter is based on monitoring the mandatory indicators for the principal adverse impacts set out in Table 1 of Annex I of the RTS
 - Where reliable data are available (e.g. the greenhouse gas or GHG intensity of companies) through a combination of indicators (e.g. carbon intensity) and specific rules or thresholds (e.g. that the carbon intensity of the company is not in the bottom decile for the sector).
 - Amundi already takes into account specific principal adverse impacts in its exclusion policy as part of its Responsible Investment Policy. These exclusions, which are applied in addition to the tests detailed above, cover the following topics: exclusions on controversial weapons, violations of United Nations Global Compact principles, coal, unconventional fuels and tobacco.

Moreover, companies and economic players exposed to severe controversies related to working conditions, human rights, biodiversity and pollution are not considered sustainable investments.

- The objective of the second filter is to verify that a company does not perform poorly from an overall environmental or social standpoint compared to other companies within its sector. This corresponds to an environmental or social score of E or higher using Amundi's ESG rating scale.

This approach is specific to investments in securities. With respect to investments in funds managed by third-party managers, Amundi relies on the policies applied by the external manager.

– ***How have the indicators for adverse impacts on sustainability factors been taken into account?***

At Amundi, the adverse impact indicators are taken into account as detailed in the first DNSH filter above.

The first DNSH filter is based on monitoring the mandatory indicators for the principal adverse impacts set out in Table 1 of Annex I of the RTS, where reliable data are available through a combination of indicators and the following specific rules or thresholds:

- Have a CO₂ intensity that is not in the bottom decile of companies in its sector (only applies to high-intensity sectors), and
- Have a Board of Directors, the diversity of which is not in the bottom decile of companies in its sector, and
- Not be the subject of controversies concerning working conditions and human rights,
- Not be the subject of controversies concerning biodiversity and pollution.

Amundi already takes into account specific principal adverse impacts in its exclusion policy as part of its Responsible Investment Policy. These exclusions, which are applied in addition to the tests detailed above, cover the following topics: exclusions on controversial weapons, violations of United Nations Global Compact principles, coal, unconventional fuels and tobacco.

– How are the sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

The OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights are integrated into Amundi's ESG rating methodology. Our proprietary ESG rating tool assesses issuers using data available from our data providers. For example, the model includes a dedicated criterion called "Community engagement and human rights". This applies to all sectors together with other human rights criteria, including socially responsible supply chains, working conditions and labour relations. In addition, controversy monitoring is carried out at least once a quarter and includes companies that have been flagged for human rights violations. When controversies arise, analysts assess the situation and assign it a rating (using our proprietary scoring methodology) to determine the best course of action. Controversy ratings are updated quarterly to keep track of developments and remediation efforts.

The EU Taxonomy sets out a "do no significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives. It is accompanied by specific EU criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

Does this financial product consider principal adverse impacts on sustainability factors?

Yes, the financial product takes into account all of the mandatory principal adverse impacts set out in Table 1 of Annex I of the RTS applicable to the strategy of the financial product. It relies, directly or indirectly, on a combination of exclusion policies (norm-based and sector-based), the integration of ESG ratings within the investment process, and engagement and voting approaches:

- **Exclusion:** Amundi has defined rules for norm-based exclusions based on activity and sector, covering some of the main negative sustainability indicators listed in the SFDR Regulation.
- **Integration of ESG factors:** Amundi has adopted the minimum ESG integration standards applied by default to its actively managed open-ended funds (exclusion of

G-rated issuers and weighted average ESG score above the applicable reference benchmark). The 38 criteria used in Amundi's ESG rating approach have also been designed to take into account the key impacts on sustainability factors, as well as the quality of mitigation measures taken in this regard.

- **Engagement:** Engagement is an ongoing, targeted process aimed at influencing the activities or behaviour of companies. The aim of engagement can be divided into two categories: engaging with an issuer to improve how it integrates the environmental and social aspects, and engaging with an issuer to improve its impact on environmental, social and human rights issues or other sustainability issues of importance to wider society and the global economy.
- **Voting:** Amundi's voting policy is based on a holistic analysis of all the long-term issues that could influence value creation, including material ESG issues. For more information, please see Amundi's Voting policy.¹
- **Controversy monitoring:** Amundi has developed a controversy monitoring system that uses three external data providers to systematically monitor the development of controversies and their level of severity. This quantitative approach is reinforced by an in-depth assessment of each severe controversy by ESG analysts, followed by a periodic review of any developments. This approach is applied to all Amundi funds.

For details on how to use the mandatory indicators for the principal adverse impacts, please refer to Amundi's ESG Regulatory Statement available at www.amundi.fr

No

What investment strategy does this financial product follow?

The strategy is to invest in US large and mid-caps in order to achieve performance that is at least equal to that of the S&P500 index while integrating ESG criteria into the securities analysis and selection process.

The investment strategy guides investment decisions based on factors such as investment objectives and risk tolerance.

- **What are the binding elements of the investment strategy used to select the investments to attain each of the environmental or social characteristics promoted by this financial product?**

The UCI first applies Amundi's exclusion policy, which includes the following rules:

- legal exclusions on controversial weapons (anti-personnel mines, cluster bombs, chemical weapons, biological weapons, depleted uranium weapons etc.);
- companies that seriously and repeatedly contravene one or more of the ten principles of the Global Compact, without credible corrective action;
- the Amundi Group sector exclusions on coal and tobacco; (details of this policy can be found in the Amundi Responsible Investment Policy available at www.amundi.fr).

The UCI also applies the following rules:

- exclusion of issuers rated E, F or G at purchase;
- the "rating improvement" approach: the weighted average ESG rating of the portfolio must be higher than the weighted average ESG rating of the investment universe of the UCI after eliminating the 20% lowest-rated issuers;

¹ <https://about.amundi.com/files/nuxeo/dl/0522366c-29d3-471d-85fd-7ec363c20646>

- the coverage rate is 90% (in accordance with AMF regulations).

The Fund has received the government-backed SRI label. As such, it is committed to monitoring the following four E, S and G indicators:

- Environment: carbon intensity;
- Human rights: decent work and freedom of association;
- Social: diversity of managers (women in managerial positions),
- Governance: independence of the board of directors.

For these four indicators, the Fund's objective is to improve the first two indicators; the Fund is thus committed to ensuring that the portfolio's rating for the first two indicators is higher than the rating of the investment universe for the same indicators.

Good governance practices include sound management structures, employee relations, remuneration of staff and tax compliance.

● ***What is the committed minimum rate to reduce the scope of the investments considered prior to the application of that investment strategy?***

There is no committed minimum rate to reduce the scope of these investments.

● ***What is the policy to assess good governance practices of the investee companies?***

To assess good governance practices of the companies, Amundi has developed an ESG rating methodology. Amundi's ESG rating is based on a proprietary ESG analysis framework, which takes into account 38 general and sector-based criteria, including governance criteria. For the governance aspect, we assess the issuer's ability to provide an effective corporate governance framework that ensures that it will achieve its long-term objectives (e.g. that maintains the issuer's value over the long term). The governance sub-criteria taken into account are: the board structure, audit and control, remuneration, shareholders' rights, ethics, tax practices and ESG strategy. Amundi's ESG rating scale consists of seven ratings, ranging from A to G, where A is the best rating and G is the worst. G-rated companies are excluded from the investment universe.

Each corporate security (shares, bonds, single-issuer derivatives, ETF shares and ESG bonds) included in the portfolios has been assessed for good governance practices by applying a filter for compliance with United Nations Global Compact (UNGC) principles to the issuer in question. The assessment is ongoing. Every month, Amundi's ESG Rating Committee reviews the lists of companies that do not comply with the UNGC and are therefore downgraded to a G rating. Investment is systematically withdrawn from G-rated securities within a period of 90 days.

This approach is supplemented by Amundi's Management Policy (engagement and voting) relating to governance.

This approach is specific to investments in securities. With respect to investments in funds managed by third-party managers, Amundi relies on the policies applied by the external manager.

What is the asset allocation planned for this financial product?

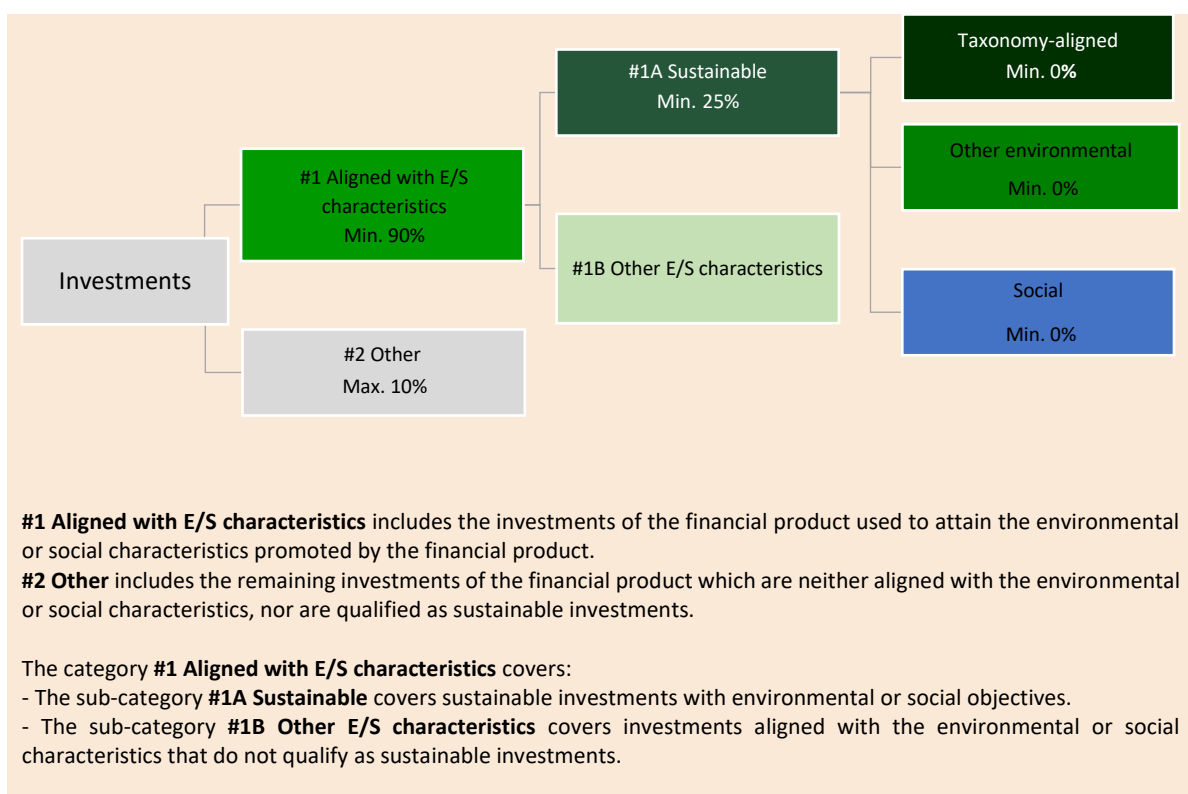

At least 90% of the UCI's securities and instruments undergo ESG analysis and are therefore aligned with the environmental or social characteristics promoted, in line with the binding

Asset allocation describes the share of investments in specific assets.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies;
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy;
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

elements of the investment strategy. In addition, the UCI undertakes that sustainable investments will account for at least 25% of net assets.

● **How does the use of derivatives attain the environmental or social characteristics promoted by the financial product?**

Derivatives are not used to attain the ESG objective of the UCI.

● **To what minimum extent are sustainable investments with an environmental objective aligned with the EU Taxonomy?**

There is currently no minimum commitment to sustainable investments with an environmental objective aligned with the EU Taxonomy.

As illustrated below, there is no commitment to making Taxonomy-compliant investments in fossil gas and/or nuclear energy. However, as part of the investment strategy, investments may be made in companies that are also active in these sectors. Such investments may or may not be aligned with the Taxonomy.

● **Does the financial product invest in fossil gas and/or nuclear energy related activities that comply with the EU Taxonomy²?**

- Yes:
- In fossil gas In nuclear energy
- No

² Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

The two graphs below show in green the minimum percentage of investments that are aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.*

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● **What is the minimum share of investments in transitional and enabling activities?**

There is no minimum share of investments in transitional and enabling activities.

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under the EU Taxonomy.

 **What is the minimum share of sustainable investments with an environmental objective that are not aligned with the EU Taxonomy?**

The UCI does not currently have any minimum commitment to sustainable investments with an environmental objective not aligned with the EU Taxonomy.

 **What is the minimum share of socially sustainable investments?**

The UCI does not have a minimum share of sustainable investments with a social objective.

 **What investments are included under "#2 Other", what is their purpose and are there any minimum environmental or social safeguards?**

"#2 Other" consists of cash and instruments used for liquidity and portfolio risk management purposes. The category may also include securities without an ESG rating for which data needed to measure the attainment of environmental or social characteristics are not available.

There are no minimum environmental or social safeguards.

Is a specific index designated as a reference benchmark to determine whether this financial product is aligned with the environmental and/or social characteristics that it promotes?

The reference benchmark does not evaluate or include its components according to these environmental and/or social characteristics and is therefore not aligned with the ESG characteristics promoted in the portfolio.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

- ***How is the reference benchmark continuously aligned with each of the environmental or social characteristics promoted by the financial product?***

N/A

- ***How is the alignment of the investment strategy with the methodology of the index ensured on a continuous basis?***

N/A

- ***How does the designated index differ from a relevant broad market index?***

N/A

- ***Where can the methodology used for the calculation of the designated index be found?***

N/A

UCI NAME: AMUNDI EURO LIQUIDITY SRI

MUTUAL FUND (FCP)

REGULATIONS

SECTION 1 - ASSETS AND UNITS

Article 1 - Co-ownership units

The joint ownership rights are expressed as units, each unit corresponding to an identical share of the Fund's assets. Unitholders are entitled to joint-ownership of the Fund's assets in proportion to the number of units held.

The term of the Fund is 99 years from its launch, unless it is wound up early or extended pursuant to these Regulations.

Unit classes: the features of the various classes of units and their access conditions are set out in the Fund's prospectus.

The different unit classes may:

- have different rules for allocating income (distribution or accumulation);
- be denominated in different currencies;
- incur different management fees;
- carry different subscription and redemption fees;
- have different nominal values.
- be systematically hedged against risk, either partially or in full, as set out in the Prospectus. Such hedging is done using financial instruments that reduce the impact of the hedging transactions for the UCI's other unit classes to a minimum;
- be reserved for one or more distribution networks.

The Management Company may, after having informed the unitholders and the Depositary, consolidate or split the number of units.

Units may be subdivided on the decision of the Management Company's Board of Directors in tenths, hundredths, thousandths, ten-thousandths or one hundred-thousandths called fractions of units. The provisions in the Regulations governing the issuance and redemption of units shall also apply to fractions of a unit, the value of which will always be proportional to that of the unit they represent. All other provisions regarding units shall automatically apply to fractions of a unit unless provided otherwise.

Finally, the Management Company's Board of Directors may, at its sole discretion, divide units by creating new units which are allocated to bearers in exchange for the former units.

Article 2 - Minimum asset amount

Units may not be redeemed if the Fund's assets fall below €300,000; where net assets remain below that level for thirty days, the Management Company will take the necessary measures to wind up the relevant UCI, or to perform one of the transactions listed in Article 411-16 of the AMF General Regulations (transfer of the UCI).

Article 3 - Issue and redemption of units

Units can be issued at any time at the request of the unitholders. They will be issued at their net asset value plus, where applicable, the subscription fee.

Redemptions and subscriptions are performed under the terms and conditions set out in the prospectus.

Fund units may be listed for trading in compliance with the regulations in force.

Subscriptions must be paid up in full on the day of the net asset value calculation. They may be paid in cash and/or financial instruments. The Management Company has the right to refuse the securities offered, provided it informs the purchaser of its decision within seven days

of their remittance. If accepted, contributed securities will be valued according to the rules set out in Article 4, and the subscription will take place based on the first net asset value following acceptance of the securities concerned.

Redemptions may be made in cash and/or in kind. If the redemption in kind corresponds to a representative pro rata share of the assets in the portfolio, then the written agreement signed by the outgoing unitholder alone must be obtained by the Fund or the Management Company. Where the redemption in kind does not correspond to a representative pro rata share of the assets in the portfolio, all the unitholders must indicate in writing their agreement authorising the outgoing unitholder to redeem their units against particular assets, as explicitly set out in the agreement.

Notwithstanding the foregoing, when the Fund is an exchange-traded fund, redemptions on the primary market may, with the management company's consent and in compliance with the interests of shareholders, be made in kind under the conditions set out in the Fund's prospectus or regulations. The assets are then delivered by the issuing account holder under the conditions set out in the Fund's prospectus.

The redeemed assets are generally valued according to the rules set out in Article 4 and the redemption in kind is made on the basis of the first net asset value following acceptance of the securities concerned.

Redemptions will be settled by the issuing account holder within a maximum of five days following the unit's valuation.

If the unitholder is a feeder UCI, redemptions may be made wholly or partially in kind when the feeder UCI has made a specific request to be reimbursed in securities. This redemption will occur in proportion to the assets held in the portfolio of the Master UCI. They shall be settled by the issuing account holder within a maximum of five days following the unit's valuation.

If however, under exceptional circumstances, the reimbursement requires the prior sale of Fund assets, this period may be extended but shall not exceed 30 days.

Except in the event of an inheritance or an inter vivos gift, the disposal or transfer of units between unitholders, or from unitholders to a third party will be considered as a redemption followed by a subscription. If a third party is involved, the amount of the disposal or the transfer must, if applicable, be made up by the beneficiary in order to reach the minimum subscription level required by the prospectus.

Pursuant to Article L. 214-8-7 of the French Monetary and Financial Code, the redemption of units by the Fund, like the issuance of new units, may be temporarily suspended by the Management Company when exceptional circumstances require it and the interest of the unitholders demands it.

If the net asset value of the Fund is lower than the amount specified by the Regulations, no units may be redeemed.

Minimum subscription conditions could be set according to the procedures stipulated in the prospectus.

The Fund may cease to issue units pursuant to the third paragraph of Article L. 214-8-7 of the French Monetary and Financial Code, either temporarily or permanently, fully or partially, in situations that objectively require the closure of subscriptions, such as reaching the maximum number of units issued, the maximum amount of assets or the end of a fixed subscription period. Existing unitholders will be informed by any means of the triggering of this tool, as well as of the threshold and the objective situation that led to the decision to carry out full or partial closure. In the case of partial closure, this information, communicated by any means, will explicitly specify the terms under which existing unitholders may continue to subscribe during the partial closure. The unitholders are also informed by any means of the Fund or Management Company's decision to either end the full or partial closure of subscriptions (when falling below the trigger threshold), or not to end it (in the event of a change to the threshold or to the objective situation that led to the implementation of the tool). A change to the objective situation invoked or to the trigger threshold for the tool must always be made in the interest of the unitholders. The information by any means shall specify the exact reasons for these changes.

Clauses resulting from the US Dodd-Frank Act:

The Management Company may limit or prevent the direct or indirect holding of Fund units by any person who is a "Non-Eligible Person" as defined below.

A Non-Eligible Person is:

- a U.S. Person as defined in U.S. Regulation S of the Securities and Exchange Commission ("SEC"); or
- any other person (a) who seems to be directly or indirectly in violation of the laws and regulations of any country or any government authority, or (b) who may, according to the Fund's management company, cause damage to the Fund that it would not have otherwise suffered or incurred.

To this end, the Fund's management company may:

(i) refuse to issue any unit if it seems that as a result of such issuance said units would or could be held directly or indirectly by or on behalf of a Non-Eligible Person;

(ii) at any time request that a person or entity whose name is listed in the unitholders' registry provide it with information, and a statement to that effect, indicating that such person would deem necessary to determine whether the actual beneficiary of the units is a Non-Eligible Person or not; and

(iii) carry out, within a reasonable timeframe, a mandatory redemption of all the [units/shares] held by a unitholder/shareholder if it seems that the latter is (a) a Non-Eligible Person and, (b) such person is the sole or joint beneficiary of the units. During such timeframe, the actual beneficiary of [the units/shares] may present comments to the competent body.

This may also apply to any person (i) who seems to be directly or indirectly in violation of the laws and regulations of any country or any government authority, or (ii) who may, according to the Fund's management company, cause damage to the Fund that it would not have otherwise suffered or incurred.

The mandatory redemption will be carried out at the latest known net asset value less any applicable costs, fees and dues, which will remain payable by the Non-Eligible Person.

Article 4 – NAV calculation

The net asset value of the units is calculated in accordance with the valuation rules set out in the prospectus.

Contributions in kind may only consist of the securities, instruments or contracts that are eligible to form the UCI's assets; contributions and redemptions in kind are valued using the same valuation rules as for the calculation of the net asset value.

SECTION 2 – FUND OPERATIONS

Article 5 – The Management Company

The Management Company manages the Fund in accordance with the strategy defined for the Fund.

The Management Company will at all times act in the sole interest of the unitholders and it alone is entitled to exercise the voting rights attached to the Fund units.

Article 5a – Operating rules

The instruments and deposits eligible to form part of the UCI's assets are described in the prospectus, as are the investment rules.

Article 6 – The Depositary

The Depositary performs the duties for which it is responsible under the legal and regulatory provisions in force and those contractually entrusted to it by the Management Company.

It must ensure that decisions taken by the Management Company are lawful. As applicable, it shall take any prudential measures that it deems useful.

It shall notify the French Market Regulator (AMF) of any disputes with the Management Company.

If the Fund is a feeder UCI, the Depositary has entered into an information exchange agreement with the Depositary of the master UCI (or has drawn up appropriate specifications, where applicable, when it is also the Depositary of the master UCI).

Article 7 – The Independent Auditor

The Management Company appoints an Independent Auditor for a term of six financial years, after obtaining the agreement of the AMF. It certifies that the accounts are true and fair. The Independent Auditor's appointment may be renewed.

The Independent Auditor is required to notify the AMF as soon as possible of any fact or decision concerning undertakings for collective investments in transferable securities of which the Independent Auditor has become aware in the performance of the audit and that might:

1. Constitute violation of the legal or regulatory provisions applicable to such undertakings and that might have material effects on the financial position, results or assets;
2. Adversely affect the conditions or the continuity of its operations;
3. Trigger the expression of reservations or refusal to certify the accounts.

Asset valuations and the determination of exchange rates used in currency conversions, mergers or demergers shall be audited by the Independent Auditor.

It appraises any contribution or redemption in kind under its responsibility, excluding redemptions in kind for an exchange-traded fund on the primary market.

It shall verify the composition of the assets and other items prior to publication.

The Independent Auditor's fees shall be determined by mutual agreement between the Independent Auditor and the Management Company on the basis of a schedule of work specifying the measures deemed necessary.

The Independent Auditor shall certify the circumstances underlying any interim dividend distributions.

If the Fund is a feeder UCITS:

- the Independent Auditor has entered into an information exchange agreement with the Independent Auditor of the master UCITS.
- where it is also the Independent Auditor of the master UCITS, it shall prepare an appropriate work programme.

Its fees are included in the management fees.

Article 8 – Management report and accounts

At the end of each financial year, the Management Company shall prepare the summary documents and draw up a report on the management of the Fund during the year just ended.

The Management Company prepares an inventory of the Fund's assets at least half-yearly, which will be audited by the Depositary.

The Management Company keeps these documents available for consultation by the unitholders for a period of four months from the year-end and informs them of their income entitlement. These documents are either sent by post at the express request of the unitholders, or made available to them at the Management Company's offices.

SECTION 3 - ALLOCATION OF PROFITS

Article 9: Allocation of distributable sums

Distributable income consists of:

1. The net profit plus any amounts carried forward and plus or minus the balance of income accruals;
2. Realised capital gains, net of fees, less any realised capital losses, net of fees recorded during the financial year, plus any net capital gains of the same nature recorded during prior financial years which have not been distributed or accumulated and plus/minus the balance of capital gains accruals.

The sums mentioned under 1 and 2 may be distributed, in whole or in part, independently from one another.

Distributable income is paid out within a maximum of 5 months following the financial year-end.

The net profit of the Fund for the period is the total amount of interest, arrears, dividends, premiums and bonuses, Directors' fees and yields from the securities that make up the Fund's portfolio, plus the product of any amount held in cash, minus management fees and interest on loans.

The Management Company shall determine the allocation of the distributable income.

For each class of units, as applicable, the Fund may select for each of the sums mentioned under 1 and 2 one of the following options:

- Full accumulation: distributable sums will be fully accumulated, with the exception of those amounts which are subject to compulsory distribution by law;
- Full distribution: the distributable sums are distributed in full, after rounding;
- For the Funds which prefer to maintain the freedom to capitalise and/or distribute and/or carry forward any distributable sums, the Management Company decides each year on the appropriation of distributable amounts mentioned under 1 and 2.

If applicable, the Management Company may decide, during the fiscal year, to pay one or more interim dividends within the limits of the net income of each of the amounts mentioned under 1 and 2 recognised as at the date of the decision.

The specific terms of allocation of income are described in the Prospectus.

SECTION 4 - MERGER - DEMERGER - DISSOLUTION - LIQUIDATION

Article 10 - Merger - Demerger

The Management Company may either transfer all or some of the Fund assets into the fund of another UCITS or split the Fund into two or more other mutual funds.

These merger or demerger transactions can only be carried out after the unitholders have been informed. After each transaction, new certificates will be issued stating the number of units held by each unitholder.

Article 11 - Dissolution - Extension

If the level of the Fund's assets remains below the level specified in Article 2 above for a period of thirty days, the Management Company shall inform the French Market Regulator (AMF) and shall wind up the Fund, except in the event of a merger with another mutual fund.

The Management Company may wind up the Fund early; it shall notify the unitholders of this decision and no application for subscription or redemption shall be accepted after such an announcement.

The Management Company may also wind up the Fund if it receives an application to redeem all its units, if the Depositary ceases to operate and no other Depositary has been appointed, or on expiry of its term, if it is not extended.

The Management Company will write to the French Market Regulator (AMF) to notify it of the wind-up date and procedure selected. It will then send the Independent Auditors' report to the French Market Regulator (AMF).

The Management Company may decide, with the Depositary's consent, to extend the Fund's term. The decision must be taken at least three months before expiry of the Fund's anticipated term and the unitholders and the French Market Regulator (AMF) notified.

Article 12 - Liquidation

In the event that the Fund is wound up, the Management Company or the person nominated to that effect shall act as the liquidator, failing which a liquidator shall be appointed by the court at the request of any interested party. They shall therefore be vested with extensive powers to realise the assets, pay any creditors, and distribute the available balance between the unitholders, in the form of either cash or securities.

The Independent Auditor and the Depositary will continue to perform their duties until the liquidation is complete.

SECTION 5 – DISPUTES

Article 13 – Jurisdiction – Address for service

Any disputes relating to the Fund arising during the Fund's life or during its liquidation, whether between unitholders, or between unitholders and the Management Company or the Depositary, shall be brought before the competent courts.

SECTION 6 – SPECIFIC PROVISIONS FOR FUNDS APPROVED UNDER REGULATION (EU) 2017/1131, KNOWN AS THE “MMF REGULATION”

Article 14 – Characteristics of the Fund

Money market UCI with a standard variable net asset value

Article 15 – Investment policy

The Fund makes use of the exemption provided for in point 7 of Article 17 of Regulation (EU) 2017/1131. It may therefore invest, in accordance with the principle of risk distribution, up to 100% of its assets in various money market instruments issued or guaranteed individually or jointly by a list of entities specified in the prospectus.

Article 16 – Credit quality of selected instruments

In accordance with the provisions of Regulation (EU) 2017/1131, the Management Company has set up an internal credit quality assessment procedure applied as part of the Fund's investment policy. This procedure is described in the prospectus.

Rules updated: 10 October 2023
