INTERIM REPORT AND UNAUDITED FINANCIAL STATEMENTS

For the financial period ended 30 June 2024

Background to the ICAV (continued)

The Euro ("EUR") is the currency in which the ICAV and all Sub-Funds measure their performance and report their results with the exception of the Global Multi-Asset Growth Fund who measures performance and reports their results in U.S. Dollar ("USD").

Select Investment Grade Bond Investment Objectives and Policies

Investment Objective

The Sub-Fund seeks to increase the value of investment and to provide income over the recommended holding period.

Investment Policies

The Sub-Fund seeks to achieve its investment objective by investing mainly in Euro denominated Investment Grade corporate and government bonds (fixed or floating rate), that are listed or traded on a Permitted Market.

The Sub-Fund may invest up to 10% of its assets in Euro denominated Investment Grade Emerging Markets corporate bonds. The maturity of the above listed instruments will be no longer than 10 years.

The Fund may also hold cash and instruments that may be readily converted to cash (including cash deposits, European treasury bills and government bonds, short-term corporate bonds, commercial paper, short term Money Market Instruments and certificates of deposit).

Sabadell Urquijo Acumulación Investment Objectives and Policies

Investment Objective

The Sub-Fund seeks to increase the value of investment over the recommended holding period. Investors should be aware that there is no guarantee that the Sub-Fund will achieve its investment objective.

Investment Policies

The Sub-Fund seeks to achieve its investment objective through investment on a multi asset basis in the following asset classes: (i) equities; (ii) Equity Related Securities; (iii) bonds (fixed or floating rate which may be rated above or below Investment Grade); (iv) commodities (indirectly through investment in Exchange Traded Commodities or exchange traded funds); and (v) real estate (indirectly through investment in eligible real estate investment trusts (the "Asset Classes").

While the Sub-Fund can invest directly in the Asset Classes, it shall mainly invest through Underlying Funds.

The Sub-Fund will not be confined to any geographical region or industry when making its investments and may invest without limit in Emerging Markets (which in the case of investment in securities that are listed/traded on the Moscow exchange, subject to a maximum investment of 5% of Net Asset Value) and below Investment Grade securities.

In normal market conditions, the Sub-Fund will, in aggregate, invest up to 40% of its Net Asset Value in equities (including Emerging Markets equities), below Investment Grade bonds, Emerging Markets bonds, commodities (which shall for the purpose of this limit exclude gold), and real estate. The balance will be invested in other assets within the Asset Classes.

While the Sub-Fund will typically gain exposure to currencies via currency forwards it may also invest directly in currencies of developed and Emerging Markets countries, in order to allow the Sub-Fund to benefit from perceived mispricing of such currencies against the base currency of the Sub-Fund.

The Sub-Fund may also hold cash and instruments that may be readily converted to cash (including cash deposits, European treasury bills and government bonds, short-term corporate bonds, commercial paper, short term Money Market Instruments and certificates of deposit.

The Sub-Fund aims to achieve equity-like returns by investing in the Asset Classes but with reduced volatility over the longer term. In order to seek to achieve this, in normal market conditions, the Sub-Fund will, in aggregate, invest between 40% and 80% of its Net Asset Value in equities (including Emerging Markets equities), below Investment Grade bonds, Emerging Markets bonds, commodities (which shall for the purpose of this limit exclude gold), and real estate. The balance will be invested in other assets within the Asset Classes.

While the Sub-Fund will typically gain exposure to currencies via currency forwards it may also invest directly in currencies of developed and Emerging Markets countries, in order to allow the Sub-Fund to benefit from perceived mispricing of such currencies against the base currency of the Sub-Fund.

The Sub-Fund may also hold cash and instruments that may be readily converted to cash (including cash deposits, European treasury bills and government bonds, short-term corporate bonds, commercial paper, short term Money Market Instruments and certificates of deposit.

Global Multi-Asset Growth Objectives and Policies

Investment Objective

The Sub-Fund seeks to increase the value of investment and to provide income over the recommended holding period. Investors should be aware that there is no guarantee that the Sub-Fund will achieve its investment objective.

Investment Policies

The Sub-Fund seeks to achieve its investment objective by investing mainly in a broad range of global equities, equity related securities and government and corporate Investment Grade bonds (fixed or floating rate).

The Sub-Fund may also invest up to 20% of its Net Asset Value in below Investment Grade government and corporate bonds fixed or floating rate) and up to 10% of its Net Asset Value in convertible bonds, which shall not embed FDI and/or leverage (the Sub-Fund shall not however invest in contingent convertible securities).

Such securities are listed or traded on a Permitted Market and may be from anywhere in the world, including up to 50% of its Net Asset Value in Emerging Markets. The Sub-Fund will not invest more than 5% of its Net Asset Value in securities that are listed/traded on the Moscow exchange.

Multi-Asset Vario Objectives and Policies

Investment Objective

The Sub-Fund sought to increase the value of investment while closely monitoring the targeted yearly risk budget over the recommended holding period. Investors should be aware that there is no guarantee that the Sub-Fund will achieve its investment objective.

Investment Policies

The Sub-Fund sought to achieve its investment objective by investing mainly in government and corporate Investment Grade bonds (fixed or floating rate) as well as up to 20% of its Net Asset Value in a broad range of global equities and Equity Related Securities.

The Sub-Fund may also invest up to 20% of its Net Asset Value in below Investment Grade government (fixed or floating rate) and up to 10% of its Net Asset Value in convertible bonds, which shall not embed FDI and/or leverage (the Sub-Fund shall not however invest in contingent convertible securities).

Such securities are listed or traded on a Permitted Market and may be from anywhere in the world, including up to 30% of its Net Asset Value in Emerging Markets, subject to a limit of 10% of its Net Asset Value in Mainland China through the Bond Connect.

The Sub-Fund may also have indirect exposure to commodities (up to 10% of its Net Asset Value) through investment in other collective investment schemes and Exchange Traded Commodities and real estate (up to 10% of its Net Asset Value) through investment in eligible real estate investment trusts.

The Sub-Fund may also hold instruments that may be readily converted to cash (including Treasury Bills and Government Bonds, short-term Corporate Bonds, Commercial Paper, short term Money Market Instruments and Certificates of Deposit) and up to 20% of its Net Asset Value in cash (including cash deposits).

Protect 90 Objectives and Policies

Investment Objective

The Sub-Fund seeks to increase the value of investment, while providing Shareholders with permanent partial protection of their investment. Specifically, the Sub-Fund is designed to ensure that the Net Asset Value per Share of a Class does not fall below 90% of the highest Net Asset Value per Share of a Class recorded, commencing from the launch date of the Sub-Fund.

Protect 90 Objectives and Policies (continued)

Investment Objective (continued)

The Sub-Fund does not provide full capital protection but rather aims to provide permanent partial protection on a Class by Class basis of 90% of the highest Net Asset Value per Share of the relevant Class achieved on any day recorded, commencing from the launch date of the Sub-Fund. Depending on the performance of the Sub-Fund, the Repurchase Proceeds payable to a Shareholder of such Class upon a redemption of its Shares may be less than the amount originally invested by such Shareholder but will be at least 90% of the highest ever Net Asset Value achieved by those Shares.

Shareholders benefit from a daily protection representing 90% of the highest-ever Net Asset Value per Share of a Class recorded since the Sub-Fund launch date regardless of their subscription date. A legally enforceable agreement has been put in place between the ICAV and the Protection Provider (the "Protection Agreement") under which the Protection Provider undertakes to pay the outstanding amount in order for the relevant Class to reach the Floor NAV (the "Protection Amount").

When the protection feature is triggered, the Directors shall call upon the Protection Provider to pay to the Sub-Fund the Protection Amount and shall terminate the Sub-Fund in accordance with the Instrument of Incorporation. The initial term of the Protection Agreement is five years beginning from the launch of the Sub-Fund.

Investment Policies

The Sub-Fund seeks to achieve its investment objective through investment on a multi asset basis in the following asset classes: (i) equities; (ii) Equity Related Securities; (iii) bonds (government or corporate, fixed or floating rate which may be rated above or below Investment Grade); (iv) convertible bonds which shall not embed FDI and/or leverage (the Sub-Fund shall not however invest in contingent convertible securities); and (v) commodities (indirectly through investment in Exchange Traded Commodities or exchange traded funds) (the "Asset Classes").

The Sub-Fund will not be confined to any geographical region or industry when making its investments and may invest up to 30% of its Net Asset Value in Emerging Markets.

In normal market conditions, the Sub-Fund will invest up to 30% of its Net Asset Value in equities and Equity Related Securities. The Sub-Fund may invest up to 10% of its Net Asset Value in below Investment Grade bonds, and up to 5% of its Net Asset Value in commodities.

INTERIM REPORT AND UNAUDITED FINANCIAL STATEMENTS

For the financial period ended 30 June 2024

Investment Manager's Report

Market Environment 2024:

YTD Summary: Companies exposed to artificial intelligence continued to outperform other areas of the market. A strong earnings season for US tech companies meant that global growth stocks were once again the top performing asset class. Large caps outperformed small caps. Commodities lagged in first half year of 2024. Sovereign bonds produced negative returns in 2024.

Equity market

Japan equities were the top performer in 2024 due to a strong first quarter. US equities rallied double digits on strong revenues especially of tech in the second quarter. This performance was concentrated in the US and value stocks outperformed growth stocks over the quarter in Europe, Japan and the UK. Moves by the Chinese authorities to support the real estate sector provided a boost to Chinese equity markets. This development, combined with strong performance from the artificial intelligence exposed Taiwanese stock market, helped Asia ex-Japan equities deliver strong returns. The weight of Asian markets in the broader emerging market universe also meant that, despite lacklustre returns in Latin America, emerging market equities underperformed their developed market counterparts despite a strong second quarter.

Fixed Income

The European Central Bank (ECB) became the latest developed market central bank to cut interest rates. This move was heavily signalled prior to its June meeting, but stickier-than expected services inflation meant that the ECB was keen to stress that the path to any further policy normalisation is heavily data dependent. Nevertheless, all mayor sovereign bonds delivered negative returns. European high yield and US high yield were the top performing fixed income sectors, delivering positive returns. Both sectors were supported by strong coupon payments and the ancillary benefit of being less sensitive to the moderately higher sovereign yields experienced in Europe and the UK.

Select Investment Grade Bond

Performance: June 30th, 2024

• Amundi Fund Solutions ICAV – Select Investments Grade Bond: 1.32%

The Portfolio is managed as a buy and maintain strategy with no hedging allowed ($100\% \in$). Nevertheless, the focus was on maintaining yield while reducing risk and sector concentration. The portfolio holds on average 50—55 EUR senior investment grade corporate bonds, with an average maturity that is reducing over time. Currently it stands at 3.1 years and the current portfolio will come to maturity to March 2028. The performance was mainly driven by Carry and Credit spreads, while the push back in interest rates in early O1 detracted from positive performance.

A large exposure in REITs was the top positive contributor followed by media and basic industry. In terms of geography, the corporate exposure in Germany delivered positive performance, followed by the Sweden and France. Top performers include names in real estate such as HEIBOS, Aroundtown and CPI (sold, because of downgrade to HY) – all of which have been reduced or sold in February. Other performers include the internet company PROSUS and DXC Technology. Negative contributors included longer dates bonds Tachem, SSE electricity, and IREN which again were sold in February.

The turnover of the portfolio was similar as in the last years. Today, the portfolio offers a yield to maturity of 3.4% with maturity of 3 years, all bonds are IG with <20% in BBB- and <5% in EM IG.

Global Multi Asset Growth

Performance: June 30th, 2024

- Amundi Fund Solutions ICAV Multi Asset Growth: 6.81%
- Benchmark: 70% MSCI ACWI & 30% Bloomberg Global Aggregate Bond Index: 10.06%

MorningStar® (out of 413 peers) has rated the strategy with two stars. The fund has underperformed its benchmark (focus of the portfolio management). The second goal to produce equity like returns with lower volatility. The strategy underperformed the MSCI ACWI® Index, too. The volatility target has been higher than its benchmark, but lower than the equity index. The fund has underperformed in 2024, despite a positive performance in March.

The macro pillar (out of four pillars) produced positive returns. The off benchmark Gold allocation was the top performer of the strategy. The overweight position in Japanese equities also contributed to positive performance.

The selection pillar was the top detractor of performance, as in 2023. The value tilt within the US equity selection (as in 2023) was the main driver of under performance. The European Equity stock selection also detracted. The hedging costs of US equities was also responsible for the significant underperformance versus benchmark & peers (88th percentile).

The positioning of the fund has not significantly changed since the 4th quarter of 2023. The fund underweights equities (still ~4%). Modified & credit spread duration do not significantly deviate from the benchmark. The overweight in subordinated bonds has been reduced. Commodities has been slightly increased.

The fund continue to underperform in 2024, despite having an aggressive positioning. The defensive allocation was the main driver for the significant underperformance performance of 2023. On top of the difficult market environment, the portfolio managers had to cope with significant outflows during the first two quarters (90% of the assets have been redeemed).

Macro & satellite pillars were the main detractors (long duration, European equities overweight & currency as long JPY/short US\$). The selection pillar (especially Asia ex Japan funds) contributed to performance. The off-benchmark cash allocation also detracted from positive performance.

The fund will be closed in July 2024.

Sabadell Urguijo Crecimiento

Performance: June 30th, 2024

- Amundi Fund Solutions ICAV Sabadell Urquijo Crecimiento: 6.92%
- Benchmark: 60% MSCI ACWI and 40% Bloomberg Euro Aggregate Bond Index: 8.14%

The fund started mixed into 2024, after the significant underperformance of 2023. The fund has underperformed its benchmark, but has outperformed peers (€ moderate allocation-global - 1M 6th percentile, 3M 53rd percentile, 6M 20th percentile, YTD 20th percentile). On top of the difficult market environment, the portfolio managers had to cope with significant outflows in the first two quarters (90% of the assets have been redeemed).

Macro & satellite pillars were the main detractors (long duration, European equities overweight & the betting of steepening of the curve of the CA\$). The selection pillar (especially Euro fixed income funds) contributed to performance. The off benchmark gold allocation also helped performance.

The fund will be closed in July 2024.

Protect 90

Performance: June 30th, 2024

• Amundi Fund Solutions ICAV – Protect 90 Class EUR A2: 1.27%

The strategy has achieved its goal to protect capital in the challenging envitroment in 2024 (especially the weak performance of government bonds). The portfoliomanager have increased risk in the first quarter by increasing the allocation of equities. The second quarter;s performance has been mixed, The fund's performance in April was disappointing, due the increase of risk budget. Nevertheless, the fund rebounded (recovered all losses) in June, mainly because of the allocation to US equities. The allocation to US & global equities were the main contributor for the positive performance in 2024. Euro government bonds & US inflation linked bonds detracted from performance.

There were major allocation changes in 2024. The risk profile has changed to a risk-on direction:

- Equity allocation increased (from 10% to ~14%)
- Bond allocation increased (from 60% to 67%, shifted from government bonds to corporate bonds)
 - o Duration: slightly above 2 years no change
- Reduction of cash (from 33% to ~17%)
- Median investment grade rating (BBB+) up a notch

INTERIM REPORT AND UNAUDITED FINANCIAL STATEMENTS

For the financial period ended 30 June 2024

Notes to the Financial Statements

1. The ICAV

Amundi Fund Solutions ICAV (the "ICAV") is an open-ended umbrella Irish collective asset management vehicle with variable capital and segregated liability between Sub-Funds. The financial statements of the Amundi Fund Solutions ICAV have been prepared in accordance with the ICAV Acts 2015 - 2021 (as amended), and the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011 (as amended) and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019 (the "Central Bank UCITS Regulations").

2. Basis of presentation

The condensed financial statements of the ICAV are prepared under the going concern basis and on the historical cost basis, except that financial instruments classified as at fair value through profit or loss are held at fair value.

The condensed financial statements have been prepared in accordance with International Accounting Standard (IAS) 34 Interim Financial Reporting and should be read in conjunction with the annual audited financial statements for the year ended 31 December 2023, which have been prepared under International Financial Reporting Standards ("IFRS") as adopted by the European Union ("EU").

As the Sub-Funds' investors are mainly from the Eurozone, subscriptions and redemptions are denominated in Euros ("EUR") for all Sub-Funds with the exception of Global Multi-Asset Growth Fund which is denominated in United States Dollar ("USD") as the majority of its investors are from the United States of America. All financial information presented in EUR or USD are rounded to the nearest EUR or USD.

3. Significant accounting policies

The same accounting policies, presentation and methods of computation are followed in these condensed financial statements as were applied in the preparation of the ICAV's financial statements for the financial year ended 31 December 2023.

Standards and amendments to existing standards

There are no standards, interpretations or amendments to existing standards that are not yet effective that would be expected to have a significant impact on the ICAV.

INTERIM REPORT AND UNAUDITED FINANCIAL STATEMENTS

For the financial period ended 30 June 2024

Notes to the Financial Statements (continued)

6 Number of Shares in Issue and Net Assets Attributable to Redeemable Participating and Non-Participating Shareholders (continued)

Capital management:

The authorised share capital of the ICAV is 500,000,000,000 participating Shares of no par value. Non-participating Shares do not entitle the holders thereof to any dividend and on a winding up entitle the holders thereof to receive the consideration paid therefor but do not otherwise entitle them to participate in the assets of the ICAV. The Directors have the power to allot shares in the capital of the ICAV on such terms and in such manner as they may think fit.

The ICAV's objectives in managing the redeemable shares are to ensure a stable base and to manage liquidity risk arising from redemptions.

The ICAV's capital is represented by the redeemable shares outstanding. The ICAV is not subject to other externally imposed capital requirements.

The dealing day for each share class for all four Sub-Funds is each Business Day or such other days as the Directors may determine and notify to Shareholders in advance provided that there shall be at least two Dealing Days per month. All Classes of Shares shall be issued at the Net Asset Value per Share calculated at the Valuation Point being 10:00pm (Irish time) on each Dealing Day, or such other time or Business Day as the Directors may determine and notify in advance to Shareholders, provided that there shall always be a Valuation Point for every Dealing Day.

Protect 90 Fund

Shareholders benefit from a daily protection representing 90% of the highest-ever Net Asset Value per Share of a class recorded since the Sub-Fund launch date regardless of their subscription date. A legally enforceable agreement has been put in place between the ICAV and the Protection Provider (the "Protection Agreement") under which the Protection Provider undertakes to pay the outstanding amount in order for the relevant class to reach the Floor NAV (the "Protection Amount").

When the protection feature is triggered, the Directors shall call upon the Protection Provider to pay to the Sub-Fund the Protection Amount and shall terminate the Sub-Fund in accordance with the Instrument of Incorporation. The initial term of the Protection Agreement is five years beginning from the launch of the Sub-Fund.

Thereafter, the Protection Agreement shall be renewed automatically for further one year periods. Both the ICAV and the Protection Provider may provide written notice to the other party of its intention not to renew the Protection Agreement at least three months prior to the end of either, the initial five year term or a subsequent one year term.

Investors should note that the Floor NAV and the Protection Agreement do not provide complete capital protection and only aim to provide a payment equal to a minimum of 90% of the highest Net Asset Value per Share achieved from the launch of the Sub-Fund onwards. It is important to note that, while a redeeming Shareholder will receive an amount equal to the Net Asset Value per Share on redemption, each share may benefit from limited capital protection only, regardless of the Net Asset Value per Share at which such share was purchased by the Shareholder.

7. Tax

Under current law and practice, the ICAV qualifies as an investment undertaking as defined in Section 739B of the Taxes Consolidation Act, 1997, as amended. On that basis it is not chargeable to Irish tax on its income or capital gains.

However, Irish tax may arise on the happening of a "chargeable event" in the ICAV. A chargeable event includes any distribution payments to shareholders or any encashment, redemption, cancellation or transfer of shares, and the holding of shares at the end of each eight-year period beginning with the acquisition of the shares.

INTERIM REPORT AND UNAUDITED FINANCIAL STATEMENTS

For the financial period ended 30 June 2024

Notes to the Financial Statements (continued)

7. Tax (continued)

No Irish Tax will arise on the ICAV in respect of chargeable events in respect of:

- A shareholder who is neither Irish resident nor ordinarily resident in Ireland for tax purposes, at the time of the chargeable event, provided that appropriate valid declarations in accordance with the provisions of the Taxes Consolidation Act, 1997, as amended, are held by the ICAV.
- Certain exempted Irish resident shareholders who have provided the ICAV with the necessary signed statutory declarations.

Dividends and capital gains (if any) received on investments made by the ICAV may be subject to withholding taxes imposed by the country from which the investment income or capital gains are received and such taxes may not be recoverable by the ICAV.

There were three distributions made during the financial period on the Select Investment Grade Bond Fund, for which no tax has been applied or due.

8. Fair Value Hierarchy

IFRS 13- Fair Value Measurement, establishes a three-tier fair value hierarchy that prioritises the inputs to valuation techniques to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurement) and lowest priority to unobservable inputs (Level 3 measurement). Investments measured and reported at fair value are classified and disclosed in one of the following fair value hierarchy levels based on the significance of the inputs used in measuring their fair value:

Level 1- Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;

Level 2- Quoted prices in markets that are not active or financial instruments for which all significant inputs are observable, either directly or indirectly. Fair value is determined through the use of models or other valuation methodologies;

Level 3- Prices or valuations that require inputs that are both significant to the fair value measurement and are unobservable. Unobservable inputs are developed based on the best information available in the circumstances and reflect the Sub-Funds' own assumptions about how market participants would be expected to value the asset or liability.

An investment is always categorised as Level 1, 2 or 3 in its entirety. In certain cases, the fair value measurement for an investment may use a number of different inputs that fall into different levels of the fair value hierarchy. In such cases, an investment's level within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement. The ICAV's financial instruments are measured at fair value and it is usually possible to determine their fair values within a reasonable range of estimates. Fair value estimates are made at a specific point in time, based on market conditions and information about the financial instrument. These estimates are subjective in nature and involve uncertainties that may require significant judgement (e.g., interest rates, volatility, estimated cash flows etc.) Actual results could differ from these estimates.

As at 30 June 2024, there were no securities categorised as Level 3, and therefore no table has been presented.

As there were no Level 3 securities held in the Sub-Funds during the financial period, a table of movements in Level 3 investments is not required to be presented.

There were no transfers between levels during the financial period.

Supplementary Information

Remuneration policies

Amundi Ireland Limited remuneration policy is compliant with the requirements detailed in the European Directive 2014/91/EU that came into force on 18 March 2016. The remuneration policy is based on Amundi group remuneration framework, and it is reviewed annually and approved by the Board of Amundi Ireland Limited. The policy is subject to independent review by the internal Compliance function.

The remuneration policy and practices objectives are consistent with and promote sound and effective risk management, aligning remuneration with long-term performance and risks in order to avoid conflicts of interest. Fixed remuneration components are linked to the roles covered, the professional services rendered and the scope of responsibilities, reflecting the level of academic qualification, market pay levels, experience and skills required for each position, as well as the level of excellence demonstrated. Variable remuneration is designed to promote a sustainable long-term development of the Management Company and a solid and effective risk management system. Variable remuneration awards consider the performance of the employee, her/his business unit and Amundi group as a whole, and it is based on both financial and non-financial criteria.

Amundi Ireland Limited and Amundi group have defined all identified staff having authority or influence on the funds Amundi manages, and who consequently are likely to have an impact on the performance or the risk profile of the funds.

Note on UCITS requirement

The Sabadell Urquijo Acumulación and Sabadell Urquijo Crecimiento Sub-Funds, as an investor in an Underlying Fund, will indirectly bear a pro rata portion of any fixed management fees payable to an Underlying Fund's manager, and an indirect pro rata portion of any fixed management fees of any collective investment schemes in which the Underlying Funds may invest. It is currently expected that the weighted average management fees payable to an Underlying Fund manager or the manager of collective investment schemes in which the Underlying Fund invests, may range up to 2% of an Underlying Fund's assets.

In addition, a performance fee may be payable to managers of certain Underlying Funds or of the collective investment schemes in which the Underlying Fund invests, and it is currently expected that these will usually range from 0%-20% of the outperformance over a benchmark or hurdle. Such fees are deducted from the assets of the relevant Underlying Funds or collective investment schemes in which the Underlying Fund invests and thereby reducing the actual performance of such Underlying Funds.

The fees payable to the managers of the Underlying Funds and collective investment schemes in which the Underlying Fund invests and described above are estimates only and may vary from time to time without notice to Shareholders.

Securities Financial Transactions Regulations

The following disclosure follows the requirements of EU Securities Financing Transactions Regulation ("SFTR") which came into effect on 13 January 2017.

A Securities Financing Transaction ("SFT") is defined as per Article 3(11) of the SFTR as:

- A repurchase transaction;
- Securities or commodities lending and securities or commodities borrowing;
- A buy-sell back transaction or sell-buy back transaction; or
- A margin lending transaction.

As at 30 June 2024 there were no SFT type transactions held by the ICAV.
