This document was published on 31/08/23.

KEY
INFORMATION
DOCUMENT

What is this product?

Type: Shares of a Sub-Fund of Amundi Funds Solutions ICAV, an Undertaking for Collective Investments in Transferable Securities (UCITS), established as an ICAV.

Term: The term of the Sub-Fund is unlimited. The Management Company may terminate the fund by liquidation or merger with another fund in accordance with legal requirements.

Objectives: The Sub-Fund is a financial product that promotes ESG characteristics pursuant to Article 8 of the Disclosure Regulation.

The Sub-Fund seeks to increase the value of investment while providing shareholders with permanent partial protection of their investment. Specifically, the Sub-Fund is designed to ensure that the Net Asset Value (the "NAV") per share of a class does not fall below 90% of the highest NAV per share of a class recorded from its launch date. The Sub-Fund does not provide full protection but rather aims to provide permanent partial protection. The Sub-Fund seeks to achieve its investment objective through investment in equities, equity related securities, bonds (government or corporate, fixed or floating rate which may be rated above or below investment grade), convertible bonds which shall not embed derivatives and/or leverage (not contingent convertible securities) and commodities (indirectly through investment in exchange traded commodities or exchange traded funds) (the "Asset Classes").

Investment in the Asset Classes will mainly be achieved through investment in exchange traded funds and other funds such as, but not limited to, investment companies, investment limited partnerships, exchange traded funds and unit trusts ("Underlying Funds").

There is no limit on the number of Underlying Funds in which the Sub-Fund may invest and the Sub-Fund may invest up to 100% in Underlying Funds.

The Sub-Fund will not be confined to any geographical region or industry when making its investments and may invest up to 30% of its NAV in emerging markets.

In normal market conditions, the Sub-Fund will invest up to 30% of its NAV in equities and equity related securities, up to 10% of its NAV in below investment grade bonds and up to 5% of its NAV in commodities.

While the Sub-Fund will typically gain exposure to currencies via currency forwards it may also invest directly in currencies of developed and emerging market countries.

The Sub-Fund may also hold cash and instruments that may be readily converted to cash (including cash deposits, European treasury bills and government bonds, short-term corporate bonds, commercial paper, short term money market instruments and certificates of deposit).

The Sub-Fund makes use of derivatives to reduce various risks, for efficient

portfolio management and as a way to gain exposure to various assets, markets or other investment opportunities (including derivatives which focus on credit, equities, interest rates, foreign exchange and inflation). The Sub-Fund is actively managed, is not managed in reference to a benchmark and has not designated a reference benchmark for the purpose of the Disclosure Regulation. The Sub-Fund integrates sustainability risks and sustainability factors in its investment process as outlined in the section "Overview of Responsible Investment Policy" and "Sustainable Investment Risk" in the Prospectus.

In particular the Sub-Fund integrates sustainability risks in its investment process seeking to measure the ESG performance on an issuer through its ESG rating.

The Sub-Fund seeks to achieve an ESG score of its portfolio greater than that of its investment universe.

The investment manager allocates investments across higher risk investments (investments in the Asset Classes) and lower risk investments (investment in non-emerging market investment grade government bonds, money market funds and instruments that may be readily converted to cash) and derivatives in a flexible manner with the view to maximizing the risk-adjusted performance, diversifying investments among asset classes, geographical areas, currencies and individual financial instruments, according to the investment manager's short/medium-term outlook of the financial markets and financial instruments.

Intended Retail Investor: This product is intended for investors, with a basic knowledge of and no or limited experience of investing in funds seeking to increase the value of their investment while preserving some or all of the capital invested over the recommended holding period and who are prepared to take on a medium level of risk to their original capital.

Redemption and Dealing: Shares may be sold (redeemed) as stated in the prospectus at the respective dealing price (net asset value). Further details are provided in the Amundi Funds Solutions ICAV prospectus.

Distribution Policy: As this is a non-distributing share class, investment income is reinvested.

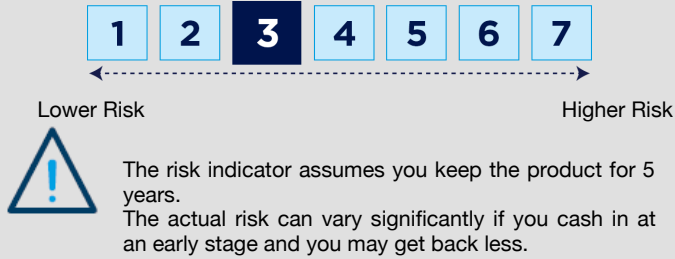

More Information: You may get further information about the Sub-Fund, including the prospectus, and financial reports which are available at and free of charge on request from: Amundi Ireland Limited at AMUNDI IRELAND LIMITED, One George's Quay Plaza, George's Quay, Dublin 2, Ireland.

The Net Asset Value of the Sub-Fund is available on www.amundi.ie.

Depository: Société Générale S.A., Dublin Branch.

What are the risks and what could I get in return?

RISK INDICATOR

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movement in the markets or because we are not able to pay you.

PERFORMANCE SCENARIOS

The scenarios shown are illustrations based on results from the past and on certain assumptions. Markets could develop very differently in the future. The stress scenario shows what you might get back in extreme market circumstances.

What you get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

Recommended holding period : 5 years Investment EUR 10,000			
Scenarios		If you exit after	
		1 year	5 years
Minimum	There is no minimum guaranteed return if you exit before 5 years. You could lose some or all of your investment.		
Stress Scenario	What you might get back after costs Average return each year	€9,000 -10.0%	€9,005 -2.1%
Unfavourable Scenario	What you might get back after costs Average return each year	€9,333 -6.7%	€9,088 -1.9%
Moderate Scenario	What you might get back after costs Average return each year	€10,040 0.4%	€9,732 -0.5%
Favourable Scenario	What you might get back after costs Average return each year	€10,707 7.1%	€11,614 3.0%

We have classified this product as 3 out of 7, which is medium-low risk class. This rates the potential losses from future performance at a medium-low level, and poor market conditions are unlikely impact our capacity to pay you.

Additional risks: Market liquidity risk could amplify the variation of product performances.

The use of complex products such as derivatives can lead to an amplification of securities movements in your portfolio.

You are entitled to receive back at least 90% of your capital. Any amount over this, and any additional return, depends on future market performance and is uncertain.

Beside the risks included in the risk indicator, other risks may affect the Sub-Fund's performance. Please refer to the Amundi Funds Solutions ICAV prospectus.

This product cannot be easily cashed in. If you exit the investment earlier than the recommended holding period you may not have a guarantee and you may have to pay extra costs.

The figures shown include all the costs of the product itself, but may or may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

The performances displayed are the result of simulations for different scenarios of evolution of the markets in which the fund is invested.

What happens if Amundi Ireland Limited is unable to pay out?

A separate pool of assets is invested and maintained for each Sub-Fund of Amundi Funds Solutions ICAV. The assets and liabilities of the Sub-Fund are segregated from those of other sub-funds as well as from those of the Management Company, and there is no cross-liability among any of them. The Sub-Fund would not be liable if the Management Company or any delegated service provider were to fail or default. Should the Guarantor default, file for bankruptcy or in the event of an official directive for resolution action, you may suffer a loss up to the total amount invested.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, and how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- EUR 10,000 is invested.

COSTS OVER TIME

Scenarios	Investment EUR 10,000	
	1 year	If you exit after 5 years*
Total Costs	€149	€747
Annual Cost Impact**	1.5%	1.5%

* Recommended holding period.

** This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 0.94% before costs and -0.54% after costs.

We do not charge an entry fee

If you are invested in this product as part of an insurance contract, the costs shown do not include additional costs that you could potentially bear.
