What is this product?

Type: Shares of a Sub-Fund of Amundi Funds, an Undertaking for Collective Investments in Transferable Securities (UCITS), established as a SICAV.

Term: The term of the Sub-Fund is unlimited. The Management Company may terminate the fund by liquidation or merger with another fund in accordance with legal requirements.

Objectives: The Sub-Fund is a financial product that promotes ESG characteristics pursuant to Article 8 of the Disclosure Regulation.

The Sub-Fund seeks to increase the value of your investment over the recommended holding period, while aiming to contribute reducing the carbon footprint of the portfolio.

Investments: The Sub-Fund invests at least 80% of its net assets in a broad range of equities and equity linked instruments of companies from anywhere in the world. While it may invest in any area of the economy, at any given time its holdings may be focused on a relatively small number of companies with the portfolio constructed in such a way to have a carbon intensity which is aligned with the MSCI World Climate Paris Aligned Net USD Index. The Sub-Fund may invest up to 30% of its net assets in equities of companies that are headquartered in or do substantial business in emerging markets and may seek exposure to real estate up to 10% of its net assets. The Sub-Fund makes use of derivatives to reduce various risks, for efficient portfolio management and as a way to gain exposure (long or short) to various assets, markets or other investment opportunities (including derivatives which focus on equities).

Benchmark: The Sub-Fund is actively managed by reference to and seeks to outperform (after applicable fees) the MSCI World Climate Paris Aligned Net USD Index. The Sub-Fund is mainly exposed to the issuers of the Benchmark, however, the management of the Sub-Fund is discretionary, and will invest in issuers not included in the Benchmark. The Sub-Fund monitors risk exposure in relation to the Benchmark and the extent of deviation from the Benchmark is expected to be significant. The Benchmark is a broad market index, which assesses and includes its constituents according to environment characteristics and therefore is aligned with the environmental characteristics (i.e. reduced carbon intensity) promoted by the Sub-Fund.

Management Process: The Sub-Fund integrates Sustainability Factors in its investment process as outlined in more detail in section "Sustainable Investing" of the Prospectus. The investment manager uses fundamental analysis of individual issuers to identify equities with superior long-term prospects, as well as their ESG, in particular carbon intensity characteristics. The sustainable investment objective is attained by aligning the carbon intensity reduction objectives of the Sub-Fund with the MSCI World Climate Paris Aligned Net USD Index. Further, the Sub-Fund seeks to achieve an ESG score of its portfolio greater than that of the Benchmark. When analysing ESG score against the Benchmark, the Sub-Fund is compared with the ESG score of its Benchmark after 20% of the lowest ESG rated securities have been excluded from the Benchmark.

Intended Retail Investor: This product is intended for investors, with a basic knowledge of and no or limited experience of investing in funds seeking to increase the value of their investment and to receive income over the recommended holding period with the ability to bear losses up to the amount invested.

Redemption and Dealing: Shares may be sold (redeemed) as stated in the prospectus at the respective dealing price (net asset value). Further details are provided in the Amundi Funds prospectus.

Distribution Policy: As this is a non-distributing share class, investment income is reinvested.

More Information: You may get further information about the Sub-Fund, including the prospectus, and financial reports which are available at and free of charge on request from: Amundi Luxembourg S.A. at 5, allée Scheffer 2520 Luxembourg, Luxembourg.
