## What is this product?

**Type:** Shares of a Sub-Fund of MULTI UNITS FRANCE, a UCITS (Undertaking for Collective Investment in Transferable Securities), established in the form of an SICAV.

**Term:** The Sub-Fund has an unlimited duration. The Management Company may dissolve the Fund by means of liquidation or merger with another fund in accordance with legal requirements.

**AMF classification:** Eurozone country equities

**Objectives:** The Fund is a passively managed, index-based fund.

The objective of the Fund's management is to be exposed with a daily rebalancing to the Spanish stock market by replicating, both upwards and downwards, the development of the Ibex 35® Doble Apalancado Neto strategy index (gross dividends reinvested) (the "Benchmark Index"), denominated in euro (EUR) and which is a strategy with a daily x2 leverage effect, with daily rebalancing, on the Ibex 35® index (gross dividends reinvested) (the "Parent Index"), the main Spanish stock exchange index, while keeping the tracking error (the "Tracking Error") between the performances of the Fund and that of the Benchmark Index to a minimum.

The expected level of the tracking error under normal market conditions is indicated in the Fund prospectus.

Over a period of one working day, any depreciation in the level of the Parent Index shall lead to stronger depreciation of the net asset value of the Fund. However, for a period greater than one working day, due to the daily leverage readjustment conducted in the Benchmark Index, the performance of the Fund will not be equal to double the performance of the Parent Index and may even develop in the opposite direction.

The Bolsa Madrid website (<http://www.bolsamadrid.es/ing/asp/Indices/Resumen.aspx>) provides more detailed information about the Bolsa Madrid indices.

The Fund aims to achieve its objective by means of indirect replication, namely by entering into one or more OTC swaps (financial futures instruments, "FFIs").

The Fund may invest in a diversified portfolio of international shares whose performance will be exchanged against that of the Benchmark Index through FFIs.

The updated composition of the portfolio of securities held by the Fund is mentioned on the website [amundiETF.com](http://amundiETF.com).

In addition, the indicative net asset value appears on the Fund's Reuters and Bloomberg pages and may also be mentioned on the Fund's stock exchange websites.

**Intended retail investors:** This product is intended for investors with an average knowledge of and some experience of investing in funds and who are prepared to take on a high level of risk to their original capital.

The product is not open to residents of the United States of America/"U.S. Person" (the definition of "U.S. Person" is available on the Management Company's website [www.amundi.fr](http://www.amundi.fr) and/or in the prospectus).

**Redemption and transaction:** The Sub-Fund's shares are listed and traded on one or more stock exchanges. Under normal circumstances, you can trade shares during stock exchange trading hours. Only authorised participants (e.g. selected financial institutions) can trade shares directly with the Sub-Fund on the primary market. Further details are provided in the MULTI UNITS FRANCE prospectus.

**Distribution policy:** In accordance with the prospectus, net income and capital gains from sales may be capitalised or distributed at the discretion of the Management Company.

**More information:** Further information regarding this Sub-Fund, including the prospectus and financial reports, is available free of charge on request from: Amundi Asset Management - 91-93 boulevard Pasteur, 75015 Paris, France.

The net asset value of this Sub-Fund is available at [www.amundi.fr](http://www.amundi.fr).

**Depositary:** SOCIETE GENERALE.

## What are the risks and what could I get in return?

### RISK INDICATOR

Lowest risk

Highest risk

The risk indicator assumes you keep the product for one day.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movement in the markets or because we are not able to pay you.

We have classified this product as 7 out of 7, which is the highest risk class. This rates the potential losses from future performance at a very high level, and poor market conditions are very likely to impact our capacity to pay you.

Additional risks: Market liquidity risk could amplify the variation of product performances.

This product does not include any protection from future market performance so you could lose some or all of your investment.

Beside the risks included in the risk indicator, other risks may affect the Sub-Fund's performance. Please refer to the MULTI UNITS FRANCE prospectus.

### PERFORMANCE SCENARIOS

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the Sub-Fund over the last ten years. Markets could develop very differently in the future. The stress scenario shows what you might get back in extreme market circumstances.

**What you get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.**

### What happens if Amundi Asset Management is unable to pay out?

The product is a co-ownership of financial instruments and deposits separate from the Management Company. In the event of default by the Management Company, the assets of the product held by the depository will not be affected. In the event of default by the depository, the risk of financial loss to the product is mitigated due to the legal segregation of the depository's assets from those of the product.

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, and how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- in the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- EUR 10,000 is invested.

\* On the secondary market: the Fund is an ETF, so investors who are not Authorised Participants must, in principle, buy or sell the Fund's shares on the secondary market. On the secondary market, investors may incur brokerage charges and/or transaction charges when they place their orders to buy/sell on the relevant stock exchange. These charges are collected by market intermediaries rather than being deducted by/paid to the Fund or the Management Company. Investors may also pay an additional sum amounting to the difference between the sale price and the purchase price of the Fund's shares (bid-ask spread).

On the primary market: Authorised Participants who subscribe to/redeem their shares directly from the Fund will pay the costs applicable to the Fund's primary market as described in the prospectus.

## How long should I hold it and can I take money out early?

**Recommended holding period:** One day is based on our assessment of the risk and reward characteristics and costs of the sub-fund.

This product is designed for short-term investment; you should be prepared to stay invested for at least 0.00273 years. You can redeem your investment at any time, or hold the investment longer.

**Order schedule:** Redemption orders must be received by 05:00 French time on the Valuation Date. Please refer to the MULTI UNITS FRANCE prospectus for more information about redemptions.
