AMUNDI FUNDS INDEX EQUITY NORTH AMERICA - AE A Sub-Fund of the SICAV AMUNDI FUNDS ISIN codes: (A) LU0389812347, (D) LU0389812420

This UCITS has appointed Amundi Luxembourg SA, an entity part of Amundi group, as its Management Company

Objectives and Investment Policy

The objective of the Sub-Fund is to synthetically and/or physically replicate and slightly outperform the reference indicator MSCI North America, which is designed to measure the performance of the Northern American large and medium capitalization equity market.

The Sub-Fund aims to achieve a level of divergence between the price behaviour of the Sub-Fund and the price behaviour of the reference indicator ("tracking error") that will normally not exceed 2% on an annual basis and 0.5% on a daily basis. The exposure to the index will be achieved through a physical replication, with a direct investment in all the Index constituents. However, in order to deal with inflows and outflows and also with some equity local market specificities (market access, liquidity, local tax), the manager will be able to combine the physical replication with a synthetic replication through derivatives such as amongst other Futures. In case of synthetic replication, the Sub-Fund may hold deposits while keeping full exposure to the index. Additional information concerning the reference indicator's underlying components are available on www.msci.com.

The accumulation share automatically retains, and re-invests, net investment incomes within the Sub-Fund when the distribution share pays dividends in September of each year.

The minimum recommended holding term is 5 years.

Shares may be sold or redeemed (and/or converted) on any dealing day (except otherwise stated in the prospectus) at the respective dealing price (net asset value) in accordance with the articles of incorporation. Further details are provided in the prospectus of the UCITS.
