2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

■ PRESENTATION OF FINANCIAL STATEMENTS

The SICAV's financial statements are prepared and presented in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements for investment funds. The financial statements are prepared under going concern basis for accounting except for the sub-fund Amundi MSCI World ESG Leaders Select.

As indicated in note 15, the sub-fund was liquidated after year-end. As such, the financial statements were prepared under non-going concern basis of accounting. The application of non-going concern basis of accounting has not led to material adjustments to the sub-fund's net asset value.

■ VALUATION POLICY

■ Securities Portfolio

Transferable securities and money market instruments that are quoted or dealt in any stock exchange or traded in any other regulated market are generally valued at the last available market price on the relevant business day. All Russian securities have been fair valued at zero (please refer to note 14).

Non-listed securities, or listed securities for which the price determined according to the above methods is not representative of fair market value are valued in good faith at a prudent estimate of their sale price.

■ Valuation of forward foreign exchange contracts

Outstanding forward foreign exchange contracts are valued at the closing date by reference to the rate of exchange applicable to the outstanding life of the contract. The unrealised appreciation or depreciation on forward foreign exchange contracts is disclosed in the accounts.

■ Valuation of future contracts

During the financial year, the SICAV concluded a series of future contracts. At the end of the year, the outstanding contracts are valued at their net liquidation value based on the closing price of the exchange on which the futures contracts are traded. The change in unrealised net appreciation or depreciation appears in the Statement of Operations and Changes in the Net Assets.

■ Valuation of swaps

Total return swaps are contracts where one party transfers to another party the total performance of a reference asset, including all interest, fee income, market gains or losses, and credit losses. Total return swaps entered into by the sub-funds are in the form of unfunded swaps.

An unfunded swap is a swap where no upfront payment is made by the total return receiver at inception. Swaps are valued at the net present value of their cash flows. The interest receivable on swaps are included in the item "Receivable on swaps" of the Statement of Net Assets and the interest payable are included in the item "Payable on purchase on swaps" of the Statement of Net Assets.

■ DIVIDEND AND INTEREST INCOME

Dividend income is recorded as of the ex-dividend date and net of withholding tax; the figures include also the amount of net dividends received from the counterparties for the securities lent. Interest income is recorded on an accrual basis.

■ CONVERSION OF ITEMS EXPRESSED IN FOREIGN CURRENCIES

Bank deposits, other net assets and the value of portfolio securities denominated in currencies other than the base currency of the sub-fund are converted to the reference currency of the sub-fund at the exchange rate prevailing at the closing date. Income and expenses in a currency other than the base currency of the sub-fund are converted to the base currency of the sub-fund at the exchange rate prevailing at the date of recognition.

The combined financial statements are expressed in Euros (EUR), and are calculated by summing the net assets of each sub-fund.

■ NET REALISED GAIN LOSS ON SALES OF INVESTMENTS

The net profit or loss realised on sales of investment securities is calculated on the basis of the average cost of the securities sold. For forwards foreign exchange contracts, the realised profit or loss is calculated by each forward contract and for financial futures it is first in first out. Equities swaps transactions are computed by taking in consideration both the floating leg which refers to the interest rate of the contracts and the equity leg which refers to the performance of the underlying equity of the contract.

■ TRANSACTION FEES

Transaction fees include fees resulting from the coding of each new trade (buy or sell) by the dedicated service within CACEIS Bank, Luxembourg Branch, forex fees, stock exchange fees, handling charges linked to transactions on portfolio securities and forward foreign exchange contracts. The transaction fees are included in the item "Transactions fees".

■ SECURITIES LENDING AND BORROWING

In securities lending and borrowing transactions, a lender transfers securities or instruments to a borrower, subject to a commitment that the borrower will return equivalent securities or instruments on a future date or when requested by the lender. Through such transactions, a sub-fund may lend securities or instruments with any counterparty that is subject to prudential supervision rules considered by the CSSF as equivalent to those prescribed by EU law.

A sub-fund may lend portfolio securities either directly or through one of the following:

- a standardised lending system organised by a recognised clearing institution;
- a lending system organised by a financial institution that specializes in this type of transaction.

The borrower must provide a guarantee (in the form of collateral) that extends throughout the loan period and is at least equal to the global valuation of the securities lent, plus the value of any haircut considered appropriate in light of the collateral quality.

The figures of the security lending income disclosed in Statement of Operations and Changes in Net Assets are net, representing the gross income after the deduction of the 35% for direct and indirect costs. The gross income and the costs are recorded on a daily accrual basis. The entities involved in the execution of the EPM transactions are Amundi Intermediation, Paris and CACEIS Bank, Luxembourg Branch, which are related parties.

2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**■ DIVIDEND POLICY**

Distributing shares will distribute all or part of the net investment income received by the relevant sub-fund, and may also distribute capital gains (both realised and unrealised) and capital. When a dividend is declared, the NAV of the relevant class is reduced by the amount of the dividend. Dividends may be declared yearly, quarterly or monthly, as indicated by a share class suffix (QD, MD, YD). Such shares set a target dividend amount, which is communicated in advance. This is an amount that the sub-fund aims to pay, but does not guarantee. Target dividends may be stated as a specific currency amount or as a percentage of NAV. In order to meet a targeted dividend amount, a sub-fund may end up paying out more money than it actually earned in dividends, meaning that the Shareholders are getting some of their capital back as a dividend.

For more information on dividend calendar and objectives, go to amundi.com and/or amundi.etf.com.

Distribution shares with no share class suffix (QD, MD, YD) declare an annual dividend in November.

Additional dividends may be declared as determined by the Board.

Dividends on distributing shares are either automatically reinvested or paid according to the bank account details Amundi has on file for the Shareholders' account. For each share class, dividends are paid in the currency of the share class. The Shareholders can request to have their dividends converted to a different currency. If the currency is one that the sub-fund accepts, there is typically no currency conversion charge. In other cases the Shareholders will be typically charged applicable currency conversion costs.

Unclaimed dividend payments will be returned to the sub-fund after five years. Dividends are paid only on shares owned as at the record date.

No sub-fund will make a dividend payment if the assets of the SICAV are below the minimum capital requirement, or if paying the dividend would cause that situation to occur.

■ ABBREVIATIONS

In the Securities Portfolio, XX XX/XXA refers to Perpetual Bonds.

3 - MANAGEMENT AND ADMINISTRATIVE FEES

Amundi Luxembourg S.A is entitled to receive from the SICAV the Management Fees calculated for each sub-fund. These fees are calculated and accrued on each Dealing Day and are payable quarterly in arrears. Amundi Luxembourg S.A is responsible for the payment of fees to Investment managers, service providers and Distributors.

The administrative fee is a fee expressed as a percentage of the NAV of the sub-funds and classes of shares, payable quarterly in arrears to Amundi Luxembourg S.A. and calculated each day.

As at 30 September 2023, the management fees and applicable administrative fees per annum are as follows:

4 - TAXE D'ABONNEMENT

The SICAV is normally subject to a subscription tax ("taxe d'abonnement"). However all sub-funds meet the exemption criteria to be exempt of the taxe d'abonnement pursuant to article 175 (e) of the 2010 law as (i) they have listed at least one share class on regulated stock exchange and (ii) their exclusive object is to replicate the performance of one or more indices.

The SICAV is not currently subject to any other Luxembourg taxes on income or capital gains.

While the above tax information is accurate to the best of the Board's knowledge, it is possible that a tax authority may impose new taxes (including retroactive taxes).

12 - SWING PRICING

On business days when it believes that trading in a sub-fund's shares will require significant purchases or sales of portfolio investments, the Board may adjust the sub-fund's NAV to more closely reflect the actual prices of the underlying transactions, based on estimated dealing spreads, costs, and other market and trading considerations. In general, the NAV will be adjusted upward when there is strong demand to buy sub-fund shares and downward when there is strong demand to redeem sub-fund shares. For any given business day the adjustment will normally not be larger than 2% of the NAV, but the Board can raise this limit when necessary to protect the interests of shareholders.

As at 30 september 2023, the swing pricing adjustment has been applied for some sub-funds. The Net Asset Value per share after application of swinging pricing is detailed in the Financial details.

The swing factor is the amount by which the NAV is swung when the swing pricing process is triggered after net subscriptions or redemptions exceed the swing threshold. The factors to consider when setting the swinging factor include net broker commissions paid by the sub-fund and fiscal charges (e.g. stamp duty and sales tax).

During the year-ended 30 September 2023, the maximum swing factor has been applied to the following sub-funds:

13 - SUSTAINABLE FINANCE DISCLOSURE REGULATION (“SFDR”)

Information on environmental and/or social characteristics and/or sustainable investments are available under the (unaudited) Sustainable Finance Disclosure Regulation section and its relevant annexes where applicable.

14 - VALUATION OF RUSSIAN SECURITIES

As a consequence of the Russian invasion on Ukraine on 24 February 2022 and its impact on the Russian markets and securities, the Board of Directors and the Management Company decided from the end of February to continuously review and fair value Russian equities (including ADR/GDR) and bonds.

Fair valuation takes into consideration the sanctions regimes in force and their impact on the tradability and settlement process of the concerned securities.

As at the time of writing, the fair valuation process in respect of these securities remains in place.

A limited number of trades on such securities, carried out immediately before the invasion, remained unsettled at fiscal year-end 30/09. The cash-flows linked to unsettled trades were fully offset afterwards.

The Board of Directors and the Management Company are undertaking actions to resolve the issues in the interest of the fund and its shareholders, having regard to the unprecedented nature of the situation and continue to monitor the evolution of the situation.

Here below is the list of Russian securities which have been fair valued at zero as of 30 September 2023, in the following sub-funds:
