Lyxor MSCI Semiconductors ESG Filtered UCITS ETF - Acc (the "Fund")

ISIN: LU1900066033 - A sub-fund of the investment company named MULTI UNITS LUXEMBOURG (the "Company") domiciled in Luxembourg. Managed by Lyxor International Asset Management S.A.S. ("LIAM")

Objectives and investment policy

The Fund is an index-tracking UCITS passively managed. .

The investment objective of the Fund is to track both the upward and the downward evolution of MSCI ACWI Semiconductors & Semiconductor Equipment ESG Filtered Net Total Return Index (the "Benchmark Index") denominated in US Dollars, while minimizing the volatility of the difference between the return of the Fund and the return of the Benchmark Index (the "Tracking Error"). The anticipated level of Tracking Error in normal market conditions is indicated in the prospectus.

The Benchmark Index aims to represent the performance of a select set of companies from the semiconductors and semiconductor equipment industries that excludes companies involved in certain controversial businesses or with relatively low Environmental, Social and Governance (ESG) controversies and ratings scores.

The ESG rating methodology is based on ESG key issues including but not limited to water stress, carbon emissions, labor management or business ethics. The Benchmark Index uses a "Best-in-class" approach, i.e., bottom quartile companies by ESG industry-adjusted rating are excluded from the theme universe. Limits of the methodology of the Benchmark Index are described in the prospectus of the Fund through risk factors, such as the market risk linked to controversies and the risks linked to ESG methodologies and to ESG score computation. MSCI's website (www.msci.com) contains more detailed information about the MSCI indexes. The Benchmark Index is a net total return index. A net total return index calculates the performance of the Benchmark Index constituents on the basis that any dividends or distributions are included in the Benchmark Index returns after withholding tax retention. The Fund seeks to achieve its objective via indirect replication by entering into an over-the-counter swap contract (financial derivative instrument, the "FDI"). The Fund may also invest in a diversified portfolio of international equities, whose performance will be exchanged against the performance of the benchmark Index via the FDI.

Updated composition of the Fund holdings is available on www.lyxoretf.com. In addition, the indicative net asset value is published on the Reuters and Bloomberg pages of the Fund, and might also be mentioned on the website of the stock exchanges where the Fund is listed.

The share currency is the Euro (EUR).

- **Invested financial instruments:** International equities, FDI
- **Dividend policy:** the Fund's amounts available for distribution (if any) shall not be distributed to Shareholders, but reinvested.
- **Net Asset Value:** is calculated daily provided that the relevant stock exchanges are open for trading and orders can be covered.
- **Redemptions:** investors are able to redeem their shares on the primary market every valuation day before 18:30 Europe/Luxembourg and sell their shares on the secondary market at any time during trading hours on the Fund listing places.

Risk and reward profile

The risk-return category shown above is based on the historical performance of the assets included in the Fund or the performance of its benchmark index or the computed performance of a portfolio model. This risk estimate may therefore not represent a reliable indicator of future risk, and may be subject to change over time. The lowest category does not mean risk free investment. Resulting from its exposure to the Benchmark Index, the Fund has been classified within category 6. Category 6 indicates that it is possible to suffer a severe loss of capital under normal market conditions ; the value of your investment may change substantially and have quite large daily upside or downside variation.

Main risks not covered by the above indicator which could lead to a decrease in the net asset value of the Fund and which the Fund is authorized to disclose in this document (for more details about risks, please refer to the Risk Profile section of the prospectus):

- **Counterparty risk:** The Fund is exposed to the risk that any counterparty with which it has concluded an agreement or a transaction could become insolvent or otherwise default and more particularly when it has concluded financial derivative instruments over-the-counter or securities lending transactions. If such an event occurs, the net asset value of the Fund may decrease significantly. According to the regulation applicable to the Fund, such risk cannot exceed 10% of the Fund's total assets per counterparty.
- **Risk of Financial derivative Instruments:** The Fund invests in financial derivative instruments. These financial derivative instruments can induce different types of risks such as (but not limited to) leverage risk, high volatility risk, valuation risk or liquidity risk. If this risk occurs, the net asset value of the Fund may decrease significantly.
- **Operational risk:** In the event of an operational failure of the management company or one of its representatives, investors could experience loss, delay in processing subscriptions, conversions, redemptions orders or other type of disruptions.
- **Liquidity risk:** In certain circumstances, for example in case of low trading volume on financial markets, any buy or sale trade on financial instruments held by the Fund or having an impact on its value may lead to important variations of their valuations. In such circumstances, the net asset value of the Fund could be negatively affected.

Charges for this Fund

The charges you pay are used to pay the costs of running the Fund including the costs of marketing and distributing it. These charges reduce the potential growth of your investment. For any additional information regarding charges, please refer to the relevant charges section of the Fund prospectus, available at www.lyxoretf.com.

One-off charges taken before or after you invest

Entry Charge:	Not Applicable for secondary market investors*
Exit Charge:	Not Applicable for secondary market investors*

This is the maximum that might be taken out of your money before it is invested and before the proceeds of your investment are paid out.

***Secondary Market:** because the Fund is an ETF, Investors who are not Authorized Participants will generally only be able to buy or sell shares on the secondary market. Accordingly, investors will pay brokerage fees and/or transaction costs in connection with their dealings on stock exchange(s). These brokerage fees and/or transaction costs are not charged by, or payable to, the Fund nor the Management Company but to the investor own intermediary. In addition, the investors may also bear the costs of "bid-ask" spreads; meaning the difference between the prices at which shares can be bought and sold.

Primary Market: Authorized Participants dealing directly with the Fund will pay related primary market transaction costs.

For more information, please see the relevant sections in the Prospectus of the Fund.

Charges taken from the Fund over a year.

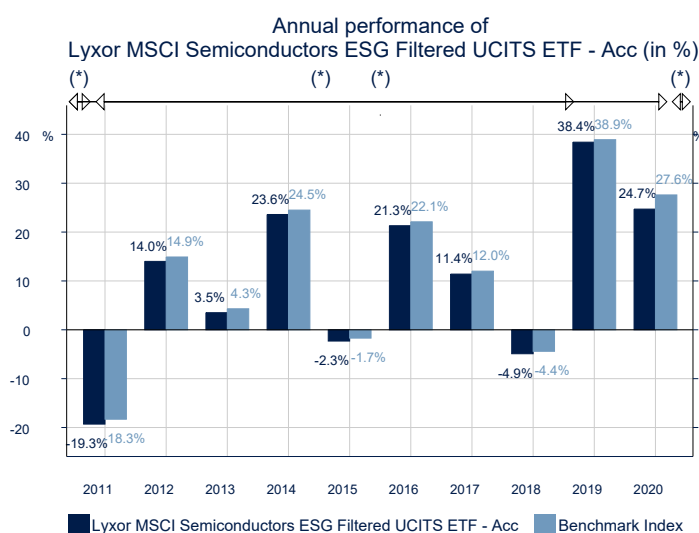

Ongoing charge:	0.45 %.
------------------------	---------

The rate of ongoing charges is based on the last year's expenses (including taxes, if any), for the year ending December 2020 and may vary from year to year. It excludes performance fees and portfolio transaction costs, except in the case of an entry/exit charge paid by the Fund when buying or selling units or shares of underlying collective investment schemes.

Charges taken from the Fund under certain specific conditions

Performance fee:	None.
