What is this product?

TYPE OF PRODUCT

The product is a sub-fund of Arabesque Q3.17 SICAV, an Undertaking for Collective Investment in Transferable Securities (UCITS) incorporated as a variable capital investment company (SICAV) under the laws of Luxembourg.

TERM

The Sub-Fund is established for an unlimited duration. However, the board of directors may decide to close this product under certain circumstances.

OBJECTIVES

Objectives and investment policy

The objective of the Sub-Fund is long-term capital appreciation through investments into a sustainable Sharia-compliant equity universe (Arabesque Investment Universe) and cash instruments. The Arabesque Investment Universe is determined on a quarterly basis.

As a general rule, past results offer no guarantee of future performance. There can be no guarantee that the Sub-Fund's objectives will be achieved.

The Arabesque Investment Universe contains Sharia-compliant equities and equity-related securities (equity securities) from companies worldwide that have passed a systematic selection process. The ESG (Environmental, Social, Governance) assessment utilizes a Best in Class approach per sector to exclude companies with inferior scores. Companies that are in breach of the principles of UN Global Compact (human rights, labour rights, anti-corruption, environment) are excluded as well. The Arabesque Investment Universe is furthermore screened by liquidity parameters such as market capitalization, daily turnover and free float.

The Sub-Fund will seek to be mainly invested in:

- equities and equity related securities (such as, but not limited to, ordinary shares, certificates, ADR (American Depositary Receipt), GDR (Global Depositary Receipt), notes) issued by companies worldwide that are contained in the Arabesque Investment Universe; and/or
- cash equivalents (such as Sharia-compliant money market instrument, Sharia-compliant money market undertakings for collective investment).

Depending on market conditions and the Fund Manager's conviction, it is understood that investments in equities and equity related securities may vary between 0% and 100% of the net assets of the Sub-Fund. It is indeed possible that under exceptional market conditions and for a limited amount of time the allocation to cash and cash equivalents represents more than 49% of the net assets.

For treasury purposes, the Sub-Fund may hold, on an ancillary basis (i.e. up to 49% of its net assets), Sharia-compliant or non-interest bearing bank term deposits, Sharia-compliant money market instruments and/or Sharia-compliant money market UCIs.

The choice of investments will neither be limited by geographical area (including emerging markets), by economic sector nor in terms of currencies in which investments will be denominated. However, depending on financial market conditions, a particular focus can be placed in a single country and/or in a single economic sector and/or in a single currency.

Under normal market conditions, the maximum position size of any single stock should be 1% of the market value of the Sub-Fund's net assets, without being a constraint.

Benchmark The Sub-Fund is actively managed. The Sub-Fund has no benchmark index and is not managed in reference to a benchmark index.

ESG information The Sub-Fund promotes certain characteristics and, among other, characteristics environmental or social characteristics or a combination thereof, within the meaning of article 8 of SFDR but does not have a sustainable investment objective. The Fund Manager integrates Sustainability Risks and opportunities into its research, analysis and investment decision-making processes.

Dividend Policy This Class distributes income. Dividend distributions are planned.

Share Class Currency The currency of the Class is USD.

The recommended holding period of this product is determined to allow sufficient time for this product to reach its objectives and avoiding short term market fluctuations.

The return of the product is determined using the Net Asset Value (the "NAV") calculated by FundPartner Solutions (Europe) S.A. (the "Administrative Agent"). This return depends mainly on the market value fluctuations of the underlying investments.

INTENDED RETAIL INVESTORS

The product is suitable for retail investors with limited knowledge of the underlying financial instruments and no financial industry experience. The product is compatible with investors who may bear capital losses and who do not need capital guarantee. The product is compatible with clients looking for growing their capital, for receiving regular income and who wish to hold their investment over 6 years.

OTHER INFORMATION

Depository Bank Pictet & Cie (Europe) AG, succursale de Luxembourg (the "Depository").

Asset segregation The assets and liabilities of each sub-fund are segregated by law, which means that the performance of the assets in other sub-funds does not influence the performance of your investment.

Dealing The NAV for this Class is calculated on each business day in Luxembourg ("Calculation Day") based on the pricing of the preceding full business day ("Valuation Day"). The cut-off time to submit subscription and/or redemption orders is 2 p.m. Luxembourg time on the full bank business day in Luxembourg preceding the relevant Calculation Day.

Switching Shareholders may apply for any share of any sub-fund to be converted into shares of another sub-fund, provided that the conditions for accessing the target class, type or sub-type, are fulfilled with respect to the Sub-Fund, on the basis of their respective NAV calculated on the Valuation Day following receipt of the conversion request. The redemption and subscription costs connected with the conversion may be charged to the shareholder as indicated in the prospectus. For more details about how to switch between sub-funds, please refer to the prospectus, section which details the switch between sub-funds, which is available at www.fundsquare.net.

Additional Information More detailed information on the Fund, such as the prospectus, other classes, the key information, the latest NAV, the articles of incorporation as well as the latest annual and semi-annual report, can be obtained free of charge, in English, from the Administrative Agent, the distributors, the Management Company or online at www.fundsquare.net.

This key information document describes the Class of one sub-fund of the Fund. For more information about other sub-funds, please refer to the prospectus and periodic reports that are prepared for the entire Fund.

What are the risks and what could I get in return?

Risk indicator

Lower risk Higher risk

The risk indicator assumes you keep the product for 6 years.

The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you. The essential risks of the investment fund lie in the possibility of depreciation of the securities in which the fund is invested.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable proxy over the last 11 years. Markets could develop very differently in the future.

Recommended holding period (RHP): Example investment		6 years USD 10,000		
		If you exit after 1 year	If you exit after 6 years	
Scenarios				
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.			
Stress scenario	What you might get back after costs	USD 7,110	USD 3,330	
	Average return each year	-28.9%	-16.8%	
Unfavourable scenario	What you might get back after costs	USD 7,880	USD 9,360	This type of scenario occurred for an investment in the product between December 2021 and December 2023.
	Average return each year	-21.2%	-1.1%	
Moderate scenario	What you might get back after costs	USD 10,530	USD 13,970	This type of scenario occurred for an investment in the proxy then the product between November 2013 and November 2019.
	Average return each year	5.3%	5.7%	
Favourable scenario	What you might get back after costs	USD 13,160	USD 17,080	This type of scenario occurred for an investment in the product between December 2015 and December 2021.
	Average return each year	31.6%	9.3%	

The stress scenario shows what you might get back in extreme market circumstances.

What happens if FundPartner Solutions (Europe) S.A. is unable to pay out?

The Management Company is not making any payment to you in relation to the Sub-Fund and you would still be paid in case of a default from the Management Company.

The Sub-Fund's assets are held with a separate company, the Depositary, so the Sub-Fund's ability to pay out would not be affected by the insolvency of the Management Company. However, in the event of the Depositary's insolvency, or its delegates, the Sub-Fund may suffer a financial loss. However, this risk is mitigated to a certain extent by the fact the Depositary is required by law and regulation to segregate its own assets from the assets of the Sub-Fund. The Depositary will also be liable to the Sub-Fund or its investors for any loss arising from, among other things, its negligence, fraud or intentional failure properly to fulfill its obligations (subject to certain limitations).

If the Sub-Fund is terminated or wound up, the assets will be liquidated and you will receive an appropriate share of any proceeds but you may lose part or all of your investment.

There is no compensation or guarantee scheme protecting you from a default of the Depositary.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- USD 10,000 is invested

Investment of USD 10,000	If you exit after 1 year	If you exit after 6 years
Total costs	USD 207	USD 1,720
Annual cost impact (*)	2.1%	2.1%

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 7.8% before costs and 5.7% after costs.
